

**Scald Heads in children, and Eruptions on the Skin.**—A certain remedy for these complaints. Mrs. Marston residing at Quebec had two children afflicted for a long time with the most inveterate scald heads, they were also much disfigured with eruptions on the skin, the parents had recourse to a variety of remedies for the alleviation of the little sufferers; many things were tried, but an unfortunate maid made the children worse, and invited the violence increased and spread nearly all over their bodies. The parents eventually determined to try Holloway's Ointment and Pills, which she commenced using in accordance with the directions, and by persevering with them for eight weeks, the children were both effectually cured, they have since enjoyed the best of health, and have not had any return of the complaint.

**AN APPEAL**

OR BEHALF OF

**THE NATIONAL SCHOOL**

**THE** National School was established in the year 1816 and has been in efficient operation since that period. It has afforded gratuitous instruction to hundreds of the children of the Poor, both boys and girls; and there are many, now occupying honourable and useful stations in life who have received their education in no other School but this.

The ability and efficiency of the Teachers, in both departments, have been admitted by all, who have ever visited the Institution, or have been present at the examinations held there.

There are now in daily attendance, at the Boys' School seventy-four free scholars, and sixty paid scholars; in the Girls' school, thirty free scholars, and forty paid scholars total—Two hundred and four.

Children of all denominations are received into the School, and although its religious instruction is conformable to the principles and usages of the Church of England, these are not forced upon the pupils against the wishes of their Parents or Guardians.

The Salaries of the teachers, and all other expenses, have been defrayed by means of voluntary subscriptions, aided by a small allowance from the Provincial Funds, and from the tuition fees, which last item, however, forms but a small amount, as the fees vary from five shillings, to twenty-five shillings per annum, according to the ability of the parents or guardians to pay; and also from the circumstance, that the majority of the children, are free scholars.

The Building, which was erected by private subscription and a donation from the Society for Promoting Christian Knowledge, has become in a very dilapidated state, and will soon be unfit for use; and unless some strenuous exertions are made, to raise the necessary funds for its thorough repair, the School will have to be closed.

To avert this unhappy occurrence, an appeal is now made by the Provisional Committee to the public at large, and the Parishioners of St. Paul's in particular, for pecuniary aid, on behalf of this useful and truly charitable Institution. An annual subscription of twenty shillings entitles the party giving it to nominate one free scholar; and an additional free scholar for every additional Twenty shillings subscribed. As a large sum would be required to repair the Building, the Committee intend to solicit donations and subscriptions,—and also propose to hold a FANCY FAIR, about the first of August next, at Hillside, the property of the President of the Society, situated on the shores of the North West Arm, and trust that the Ladies, who are ever first in works of charity and benevolence, will kindly lend their valuable aid and assistance, in forwarding the object they have in view; Thus supported the Committee feel confident that the appeal now made will not be lost in vain, and that an Educational Institution of so much importance raised by the gratuitous subscriptions of others, will not be allowed to fall through, from the apathy and indifference of the residents of the city, in the present day.
