

When the children are hungry, what do you give them? Food.

When thirsty? Water.

Now use the same good and what common sense, would you give them when they are too thin? The best fat-forming food, of course. Somehow you think of Scott's Emulsion at once. Scott's Emulsion at once.

For a quarter of a century that has been making thin thildren, plump; weak childen, strong; sick children, it has been making thin children, plump; weak children, strong; sick children. healthy.

yec. and \$2.00, all druggists. COTT & BOWNE, Chemists, Toronto.
