**Fairchild's Essence
of Pepsine**

is an extract of the gastric juice obtained directly from
the fresh stomach glands.

It contains all the essential organic and inorganic soluble constituents of the gastric juice—the enzymes in their native nucleo-proteid form and in their natural association.

It is a clear, bright solution, devoid of all suggestion of animal origin; is highly agreeable, carminative and stomachic, and these qualities enhance the therapeutic effect of the gastric principles themselves.
