This is the only organ in the world that contains 20 Stops, 9 Sets (14 octaves), GOLDLN TONGUE REEDS. Hence, this instrument is so superior for grand and beautiful musical combinations, as shown by the following Stop specifications of the FAMOUS EEETHOVEN LACAND.

To which is added the AEROSTATIC EXPRESSION INDICATOR, or REGULATOR, which shows at a glance the amount of pressure upon the Bellows; like a compass to the ship is this new improvement to the organ. The great popularity of "The Beethoven Organ" makes its rale exceed by many thousands that of any other style made hy us. As shown in the picture, it is a beautiful piece of furniture, and an ornament to any parior. It is made of selected material, liceny linck Walnut Case, with Italical Panels, highly polished, Scroll and Carved Work used freely in the ornamentation, thus making it a model instrument.

The great variety of Parents owned by the Realty Organ and Planc Co., and used in this instrument, together with the humaness variety and becautiful, but simple combination of Stops, and the great care given to its construction in both the Musical and Mechanical effects, make it combine more excellences than instruments that are sold through dealers for several hundred dollars.

A MOMENT'S CONSIDERATION will show you the certainty of securing a superior instrument by ordering from us. Dealers can trust to their own shrewdness and the ignorance of the purchaser to conceal defects in the instruments they sell. We cannot know who will test ours, and must send instruments of a quality so upperior in the instruments they sell. We cannot know you take no risk, so order direct from this advertisement, and REMAMBER the Organ will be shipped immediately on receipt of the money and order. If you find on fair trial the instruments not equal to guarantee, it may be returned at our expense, and the purchase money will be promptly retunded. Address.
