

## DUST-PROOF FLOORS

improve immensely the conditions under which children work. The use of Standard Floor Dressing reduces the amount of dust in circulation by 90 per cent.

### STANDARD Floor Dressing

is often endorsed by school boards both as a prophylactic and as a preservative.

One application every few months prevents the accumulation of germ-laden dust. The use of the Imperial Floor Oiler assures even distribution without waste --- or an ordinary sprayer may be used.

One gallon is sufficient for treating 500 to 700 square feet of space. Ask our nearest office for prices.
