

Section 16. Any notification made pursuant to Section 15 or 18 shall specify, inter alia, to the extent relevant, the nuclear and chemical composition, physical form and the quantity of the nuclear material or material, or the type and capacity of any equipment, facility or major component of any equipment or facility, the date of shipment, the date of receipt, the identity of the consignor and consignee, and any other relevant information.

Section 17. The Agency shall, within thirty days of receiving a notification pursuant to Section 15(a), (b) or (c), inform both Governments that the items covered by the notification are listed in the Main Part of the Inventory.

PART VII

TRANSFERS

Section 18.

- (a) The Government concerned shall notify the Agency and the other Government of any intended transfer to or construction in a State other than Canada or Spain of nuclear material, material, equipment or any facility which is or would, except for the proposed transfer or construction, be required to be listed in the Main Part of its Inventory. Such nuclear material, material, equipment or facility shall not be so transferred or constructed until the Agency has informed both Governments that it has satisfied itself that Agency safeguards will apply with respect to such nuclear material, material, equipment or facility.
- (b) Information shall not be transferred or otherwise be made available to a State other than Canada or Spain until the Agency has informed both Governments that it has satisfied itself that Agency safeguards will apply in connection with the use of such information.
- (c) The Agency shall inform both Governments, within a period to be specified in the subsidiary arrangements, whether it is satisfied that Agency safeguards will apply with respect to the nuclear material, material, equipment or facility or in connection with the use of the information in question. In the event that the Agency is not satisfied in this regard, it shall indicate what steps are necessary to ensure that Agency safeguards shall apply before the intended transfer, construction or making available of the nuclear material, material, equipment, facility or information.

Section 19. Whenever it is intended to transfer nuclear material, material or equipment listed in the Main Part of the Inventory of one of the States to a facility within that State which is not yet listed in its Inventory, any notification that will be required pursuant to Section 15 shall be made by the Government concerned to the Agency and to the other Government before such transfer is effected. The transfer shall not be made to that facility until the Agency has confirmed that it has made arrangements in accordance with Section 11(b) with respect to that facility.

PART VIII

EXEMPTION FROM AND SUSPENSION OF SAFEGUARDS

Section 20. Nuclear material listed in the Main Part of the Inventory shall be exempted from safeguards under the conditions specified in paragraphs 21 and 22 of the Safeguards Document.
