

Order Paper Questions

mendations in support of the Canadian radar satellite program, as well as expressed the strong desires of the user community in Canada for guaranteed continuity of satellite data such as that provided through the American LANSAT-4 program. CACRS further expressed the concern of the users over the escalating costs of satellite data.

(c) CACRS met once, at its annual meeting held March 29, 1982-April 1, 1982. Beyond the annual meeting, there is no requirement for any particular number of meetings. However, smaller meetings of the IPTASC, the CACRS executive and seven of the working groups were held throughout 1982-83.

(d) In 1982-83, CACRS published a report containing a summary of their activities and recommendations.
