

PULP NOTES.

Reported that J. R. Booth has definitely decided to build a pulp mill at Ottawa. He is said to have let contracts for the water wheels and machinery.

Prospectus of the Bonaventure Pulp Company has been issued. The proposed mill of the company is located on the Bay de Chaleurs, near Bonaventure.

Two capitalists are reported to have decided to build a large pulp mill on the Prince of Wales Island, British Columbia, the product to be exported to the United States markets.

Hardy, C.E., of New York, has been commissioned by the Canada Paper Company to prepare plans and supervise the construction of a new mill to be built at St. Francis, Que., to replace the one destroyed last fall.

Lynch & Sons, of Montreal, have closed a contract with the Sturgeon Falls Pulp & Paper Company, Sturgeon Falls, Ont., for the completion of the develop-

ment of their water power and erection of pulp and paper mills. The contracts will approximate about half a million dollars.

Large quantities of pulp wood are lying along the route of the Athabaskaville division of the Grand Trunk Railway in Quebec, owing to lack of car accommodation. The railway has not sufficient cars to move the wood. As a result the owners will lose heavily owing to the deterioration of the timber.

A bill was introduced in the United States House of Representatives last month to repeal clause 393 of the existing tariff act levying a duty of one-twelfth of one per cent. per pound on mechanical wood pulp, one-sixth of one per cent. per pound on chemical unbleached wood pulp, and one-fourth of one per cent. per pound on chemical bleached wood pulp.

It is understood that the Pulp & Lumber Company which proposes to establish a pulp mill at Baddeck, N.S., were forced to abandon work in the woods, during a part of the winter, owing to the great depth of snow. The mill is to be built during the coming sum-

mer. The two locations under consideration are North River Central and Big Pond Barasois.

The Power, Pulp & Paper Company of North America has been incorporated by R. J. Campbell, of New York; John Foster, J. E. Gauthier, and E. J. C. Kennedy, of Montreal; C. S. Cherrier, of Laprairie; and J. Morin, of St. Hyacinthe, Quebec. The capital of the company is \$5,000,000. It is proposed to build pulp and paper mills at La Tuque, Champlain county, Que.

The Sprague's Falls Manufacturing Company are seeking incorporation from the Dominion Government. The capital stock is to be \$5,000,000, and the head office will be at St. Stephens, N. B. The company propose to erect a pulp mill at or near Sprague's Falls, on the St. Croix river, in the county of Charlotte. The members of the company are F. Todd, H. F. Todd, J. F. Grant, W. C. H. Grimmer and J. G. Stevens, jr.

Mr. Charles H. Vogel, A. M. Can. Soc. C.E., mill and hydraulic engineer, has established an office at 47

SEND FOR CATALOGUE

OPEN FLUME TURBINE PLANTS

For use under moderate heads where conditions permit adoption, there is probably no more satisfactory setting for horizontal wheels in flumes than the draft chest with central discharge, placed in an open flume.

The first cost is moderate.

The flow of water is unobstructed and simple, and as a result regulation is easy.

Pair of 85 Inch Wheels, Mounted on Draft Chest with Top Removed.

We are now engaged in building a 10,000 H.P. Wheel Plant, each pair of wheels being of the general type shown above, arranged in direct connection to Wood Pulp Grinders. Send us particulars for estimate, or write for catalogue and information.

JENCKES MACHINE CO.,
Head Office and Works:
