

MAY CALL YOUNG TRAVERS TO STAND

Ex-Manager's Son Has in His Possession a Box of Papers Received From the Vault of the Farmers' Bank Which May Have a Material Bearing on the Investigation.

"All the money owed to the Farmers' Bank by firms that Dr. Beattie Nesbitt guaranteed, was paid back with Keelby mine stock," said G. T. Clarkson, liquidator of the bank, at the investigation yesterday before Commissioner Sir William Meredith. The doctor was responsible for loans amounting to \$20,000, but he transferred his stock in the Keelby mine to the institution and received \$2000 to balance the deal.

Mr. Clarkson stated that after he closed the bank, Travers had a box of papers removed from the vault and that they are at present in the possession of the manager's son. These papers have a material bearing on the investigation, and it is likely that young Travers will be called.

Yesterday's session was mostly taken up with the evidence of the liquidator, but there are several complicated transactions which will have to be explained to Mr. Hodgins by the banker.

Excessive Commission. According to the books, the total amount paid out for commissions aggregated \$71,000, and the assignee expressed himself as being dissatisfied with this figure, as it appeared to be in excess of what should have been paid at the specified rate of 10 per cent.

Mr. Clarkson and Travers do not agree on some of the methods applied to checking up profits and loss, and the assignee instructed the latter to make note of these points so as to be able to give evidence on them. There are so many intricate stock deals recorded on the books that it is very slow work tracing them.

"Scared Stiff." A touch of humor was lent to the proceedings by the testimony of Nathan Deven, a Hebrew, who after subscribing for \$10,000 worth of stock, was forced to become a director in the bank. He alleges that he was told many prominent men were on the directorate. In a dramatic manner he related how he discovered that none of these men were on the board, how he sold his stock and resigned. He was "scared stiff" for fear he would be sent to jail. "Am I released?" he timidly enquired, after his examination was concluded. Mr. Hodgins assented, and the diminutive little man slipped out of the room.

"YOU'LL SUFFER ALL YOUR LIFE"

That's What the Doctor Told Him

"Fruit-a-tives" Cured Him

CHESTERTON, Ont., Jan. 25, 1911. "For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life."

"I doctored with different medical men and tried many advertised remedies, but none of them suited my case. 'Nearly a year ago, I tried 'Fruit-a-tives.' I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured."

"I give 'Fruit-a-tives' the credit of doing what the doctors said was impossible. 'I am now seventy-six years old, and in first-class health.'"

GEO. W. BARKLEY. In all the world, there is no other remedy that has cured so many cases of so-called "incurable" kidney disease, as "Fruit-a-tives."

This famous fruit medicine acts directly on the kidney—strengthening and strengthening them—and ridding the system of the waste matter that poisons the blood. 50c a box, 6 for \$2.50, trial-size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

after throwing several glances over his shoulder. The reporter collared him as he was attempting to open the gate and when pried with questions, he said suggestively, "I'll send you a box of fine cigars next Christmas."

The enquiry will be resumed to-day.

CONFIRMATION AT SANITARIUM

Bishop of Toronto to Conduct Impressive Service at Consumptive Hospital This Afternoon.

Bishop Sweeney held a confirmation service at St. Cyprian's Church last night. The bishop will hold a confirmation service this afternoon at the Western Sanitarium and at St. John's Church, Weston, to-night.

Rev. Canon Ingles has prepared the candidates for confirmation at the sanitarium as Anglican chaplain.

T.H.E. POWER of the People

The Toronto Hydro-Electric System represents the biggest enterprise ever undertaken by this municipality.

And more than that, it represents the faith of the citizens of Toronto in public ownership.

It stands for the desire of the citizens for better service in electric power and for lower rates.

T. H. E. System stands for the right of the citizens to make their own laws and their ability to serve their own wants.

When the citizens exercised that right they placed on record their faith in themselves and their faith in each other.

TORONTO HYDRO-ELECTRIC for the People

It remains now with the citizens of Toronto to back up their faith with works.

Every citizen of Toronto is interested in the Toronto Hydro-Electric—financially interested.

Every citizen of Toronto has money invested in T. H. E. System.

T. H. E. System has already paid dividends in better service and in lower rates.

To increase the value of his investment every citizen should give T. H. E. System his patronage.

Every citizen who can use electricity for any purpose should buy that electrical energy from the city plant.

The power of the people—Toronto Hydro-Electric Power—is the power for the people.

Call at the Hydro-Electric Offices, City Hall, and ask about rates, or 'phone and ask us to send you an expert to explain how you can individually profit through T. H. E. Service.

FOUND GUILTY OF ASSAULT

George McAllynn, Joseph Smith and Dennis McCartney Were Mixed Up in Bloody Melee.

George McAllynn, Joseph Smith and Dennis McCartney, charged with wounding with intent to maim Charles Scarron, were found guilty of common assault in the sessions yesterday afternoon before Judge Danton.

The assault took place at 9 o'clock at night April 18 last. Smith entered Scarron's shoe-making shop and threw two handfuls of sand in his eyes. Scarron, according to his evidence, went out to see what was the matter, and was immediately set upon by McAllynn and McCartney. In the melee he, Scarron, was struck in the forehead with a beer bottle, making a wound which required two stitches to close.

Recognized His Assault. Scarron swore that he recognized McAllynn and McCartney as the two who assaulted him, but did not know who threw the bottle.

Mrs. Scarron corroborated her husband's evidence, and in addition, said that Smith tried to break past her into the store, but she blocked him.

The physician who attended Scarron and James Fillingim, the constable making the arrest, gave their evidence. McAllynn, whose record is more or less chequered, swore he was two houses away when the bottle was thrown, and never got any nearer. He declared none of the three accused threw the bottle.

Knew Who Threw It. "Do you know who did throw it?" asked Mr. Robinson.

"Yes, sir," When questioned by Mr. Greer, for the crown, he swore Young, another of the crowd, was the man who threw the bottle.

McCartney, only 18 years of age, said he was with McAllynn when the row started, but came back and the bottle was thrown over his shoulder. He said Young told him afterwards he had thrown it.

Smith swore he took the shop for a chance to launder and went in to get a couple of collars done up, but was told to get to h—l out. He swore Scarron grabbed an iron bar and swung at him, but that Winters received the blow on the face. Winters had left town, he declared, and he wanted time to get him. The request was refused.

Callahan Suspended. CLEVELAND, O., May 28.—Manager Callahan of the Chicago Americans today received notice from President Ben Johnson of the American League of a three days' suspension for Callahan's run with Empire Western during the Chicago-Detroit game last Saturday. Callahan sent McIntire to the outfield in his place for four games.

Canada's Trap Shooters. MONTREAL, May 28.—H. K. Conyon, R. B. Hutchison and probably W. R. Davies, three Montreal men, will represent Canada in the trap-shooting contests at the Olympic games this year.

RINGLING BROS. TO COME HERE

In Addition to Big Circus They Bring a \$500,000 Spectacle.

Ringling Brothers' World's Greatest Show will exhibit in Toronto at Dufferin Park on Monday, June 17. The lithographs say the circus is bigger and better than ever. The Ringlings are known to fulfil every promise they make. In addition to a new parade, new menagerie and company of foreign performers, the audience will be treated to an enormous \$500,000 spectacle, telling the story of Joan of Arc.

The spectacle begins the regular performance. It employs a cast of 1200 persons and 600 horses. An entire train is necessary to transport the portable stage, the scenery, costumes and properties.

This is the big show that amazed New York City. It filled the immense Madison Square Garden from cellar to roof with its many exhibitions. The Ringlings, one and all, said it was the best circus that ever visited the metropolis. When it appears in this city it will cover 15 acres of ground. The performances will be exactly the same as those given at the beginning of the season. Not a detail has been altered.

It is an all-featured show, with a wealth of European novelties. Not content with the reputation of owning the best circus in the world, the Ringlings keep on growing and improving. It is their policy to grow.

The foreign agents of the circus searched Asia and Europe last winter for talent. They were unusually fortunate in their selections. Of the 375 artists giving the program, these agents secured over 200 not seen in America during the past seasons. Among them are the Ty-Bell "Human Butterflies," from France; Milarex, the Cuban wire wizard; the Hinez-Kimball family of acrobats and Capt. Hurling's two troupes of trained seals from Germany; the Rooney family of equestrians from Ireland and the Klarkson acrobats from England.

In the foreign workshops of the show at Stoke-on-Trent, England, a corps of Italian and French designers, artists and spectacle builders, devised and built the equipment for a wonderful new parade. Nothing like this street spectacle was ever seen in this country before. It is the most remarkable processional creation ever exhibited.

It's the spirit in a man that says "I WILL!" It's the energy and grit that prompt us to do and dare!

It's men of FORCE—men of ACTION—who are winning all the successes to-day!

Men, and women, too, who are weak and broken down, can find new strength and energy through the use of my Electric Belt. It has made thousands of successful men and women out of nervous and physical wrecks.

Electricity is the energy of the body; it's the force back of all the bodily functions. If you feel that you are breaking down—that this vital force of your body is becoming impaired, then it is time to take steps to repair the fault. This can be done in no other way so effectively, so conveniently, as with my Belt.

You put on the appliance at night when you go to bed, and take it off in the morning; all night long it pours its life-giving current into your weakened nerve cells. You begin to realize the benefit at once, and as your nervous system becomes invigorated, all the functions of your body improve—the blood circulation and the action of all the bodily organs.

My Belt has proved a complete and permanent cure for Nervousness, Headaches, Sleeplessness, Neuralgia, Indigestion, Constipation, Rheumatism, Lumbago, Lamé Back, Sciatica, General Debility, Weakness of the Kidneys, the Liver and all the organs of the body. My Belt overcomes every sign of weakness in men and women. It builds up the nerve power and gives vim and vigor to the whole system.

Then here's a remedy that is a remedy! It's Nature's medicine! Dr. McLaughlin. Credit Forks, Ont., Jan. 11, 1912.

Dear Sir:—I feel it is my duty to write you as to the benefits received by the use of your Belt. I had been a sufferer from Rheumatism for the past fifteen years, and in that time I have lost an average of two months every year, and not only time lost, but what I had to suffer. I had tried many doctors, but their medicine had no effect on me at all. After two weeks' use of your Belt, I have felt no more signs of Rheumatism, and that is about three months ago. I am still using the Belt, as I think it is a good thing for other ailments, as well as Rheumatism, and I don't think it can be beaten. I will gladly recommend your Belt to any sufferer as I was. You can use this letter if you wish, as I am sure your Belt will do all you claim for it and more. With very best wishes for your success, I remain, respectfully yours, H. DOWNIE.

Get Rid of your Two Tire Troubles

Rim-Cutting Overloading

23% of tire trouble is due to Rim-Cutting.

A careful inquiry among thousands of motorists shows that nearly one in four old-tires are ruined by rim-cutting. The reason is that the hook-shaped ring which holds them in place cuts into the fabric of the tire.

No-Rim-Cut Tires are built on a new idea. The round surface of the side ring comes next to the tire. So-called No-Rim-Cut Tires have been sold and not one has been wrecked by rim-cutting.

AND they are made 10% oversize—have 10% more carrying capacity than the ordinary tires—enough to provide for heavy extras and overloading. That gives them 25% more mileage with the average car.
