**STREET RAILWAY COMPANY WINS.**

City Cannot Appeal From the Decision of the County Judge Regarding the Assessment on Poles and Wires.

The Supreme Court yesterday decided that the city had no right to appeal against the judgment of last year regarding the Street Railway Co. assessment. It will be remembered that last year the city assessed the Street Railway Company for the poles, wires and rails, placing a \$300,000 tax of upwards of \$8000. The company appealed to the Court of Revision, which confirmed the assessment. The appeal was then carried to a special court of three county judges and the county of the city asked the Supreme Court to permit them to appeal, but the court threw out the petition on the ground that the special court was one of last resort. The argument was based on the section R.S.O., which permitted of an appeal from the judgment of any court of last resort created under provincial legislation to adjudicate on provincial or municipal purposes, in cases where the person or persons presiding over such court is or are appointed by provincial or municipal authority, and the judgment appealed from involves the assessment of property at a value of not less than \$100,000.

A Court of Appeal under provincial authority. The Provincial Legislature having been given jurisdiction in such matters of appeal, the court decided that the decision of the court of last resort should be final and conclusive, and that the clerk of the municipality should attend to the assessment of the poles and wires, with this enactment beyond the powers of the Federal Parliament.

**AFTER THE FAIR WAS OVER.**

Many People Will Long Remember the Woodstock Fair of This Year.

There is not a lantern to be bought in the village of Woodbridge. The stores were cleared out of them on the second day of the Fair, and there was a lot of borrowing done. Some had no lanterns, and they came to grief. A large number of Bramingtons got lost on the concession roads and had to stay over night with the farmers on the road. Mr. and Mrs. David O'Donnell of Clairville got a bad upset, and Mrs. O'Donnell, besides being badly shaken, was cut across the head. Mr. Charles Arent, manager of the Toronto Hotel Co., got upset at Rowntree's Hill. His companion extricated himself from under the horse and found the horse on its back and Mr. Arent unconscious. He was revived. A Toronto hack mistook the road to Richmond Hill for the road to Toronto and had a bad upset. Another are the ditch about two miles from Weston, and all along the road there are evidences of the great Woodbridge Fair. The village did not quiet down until yesterday.

**THE WORLD'S W.C.T.U. EXECUTIVE.**

There Appears to Be a Strong Disagreement as to the Method of Electing Officers—Yankees Want Them All.

France is too much for the W.C.T.U., and their work is making no headway there at all. Miss Willard says it is a modern Babylon. The chief fault seems to be that the president of the W.C.T.U. in that country cannot adapt herself to environments, and there is a feeling in favor of deposing her. If not now, at the end of her term. The meeting of the Executive of the World's W.C.T.U. Miss Frances Willard was in the chair, and those present besides the secretaries, Miss Slack and Miss Jordan, were Mrs. Hoffman, Mrs. Cunningham, Mrs. Vincent, Mrs. C. L. Stevenson, Mrs. Barnes, Miss R. Greenwood, Mrs. Bailey, Mrs. Hoffman, United States; Mrs. Lyle, Mrs. Hughes, England; Mrs. Stoddard, Mexico; Mrs. Kinkor, Armenia; Mrs. Bowen, Congo; and Mrs. Hopkins, Canada.

**Requests for Missionaries.**

Requests for missionaries were read from Chili, Ceylon and Bermuda. In the last named country a lady has given the W.C.T.U. work, not less in accordance with the methods of the union.

It was then decided to grant aid to Mrs. Hewitt, who is working without resources among the natives of New Zealand, and which a communication was read suggesting that either Mrs. T. Jones or Mrs. McMillane be appointed president of the W.C.T.U. in Orange Free State.

**Old Kruger a Kicker.**

Miss Willard stated that Oom Paul was opposed to W.C.T.U. work in the Transvaal because it drew people away from the churches, and which these present were informed that Bulgaria had decided and Sinn was the force, figuratively speaking.

The afternoon session was decidedly lively, as the method of electing the World's W.C.T.U. general officers came up. Hitherto the executive has been elected by the executive. Now it is proposed to nominate them in executive to elect them in convention.

Miss Slack fought this amendment, on the ground that local interests would prevail in the convention, whereas the executive would elect with a view of equal distribution. For instance, this year there were 100 American delegates, as against about 30 from other countries. These Americans could elect all the officers.

Miss Willard, who had framed the amendment, said she had not looked at it in that light. She knew that there was a feeling that the executive was a close corporation. "We must build for all time, eliminate local color and preserve perfect equilibrium," she said.

Then the other side, led by Miss Greenwood, Mrs. Stevenson and Mrs. Willing, all from the United States, had their say, declaring that the executive would always carry the convention, there would be no difference.

They it was suggested to vote according to financial assessment, by age. Miss Slack pointed out that America would carry everything. Finally, as the executive appeared to be nonplussed, it was decided to table the matter.

**The Young Women's Branch.**

Heretofore the young women's work shall be known as the Young Women's Branch. Mrs. Kirk, Mrs. Stevenson, Mrs. Bowen, Mrs. Kinkor and Mrs. McMillane were appointed a Committee on Resolutions.

**CHICAGO JOURNALISTS IN TOWN.**

The World's W.C.T.U. Brings the Newspaper Men to the Queen City—Will Study Our Civic System.

Among those who registered at the Queen's yesterday were Mr. Justin Wallace McEachern, assistant city editor of The Chicago Evening Post, and Mr. D. B. McGowan of The Chicago Tribune. Mr. McGowan has come to attend the world's convention of the W.C.T.U., while Mr. McEachern is here on a holiday trip. The latter is an old Galt, Ont., boy, and some years ago attended Toronto University. He is much impressed with Toronto's progress in the past 10 years, and purposes writing for The Post a series of articles on our municipal government. He says that Toronto is regarded in the United States as a model of the cleanliness of Toronto, and particularly as to the freedom of our police and other institutions from political control.

Chicago now has Mr. McEachern thinks, a young Mayor of good parts in the person of Carl H. Harrison, a son of the former Chief Magistrate, who was assassinated, and much is hoped for from his future of office. Mr. Harrison, by the way, has his eye on the Governorship of Illinois, and even on the Presidency of the United States, in the more distant future.

One of Mr. Harrison's advisers was the appointment of a woman to control the street cleaning in a congested portion of the city. This woman, by the way, has devoted a great part of her life to the study of sanitation, because she, years ago, lost a daughter through an unsanitary condition of a crowded city. Mr. McEachern is delighted with the cleanliness of Toronto, and he is a married man.

One of the other interesting things Mr. McEachern said was that the better and controlling element in the United States is distinctly favorable to Canada and Canadians.
