**Sixty-Four Sent Plucked.**  
About three hundred and fifty applicants have gone before the doctor for examination, and of these over 90 per cent. were rejected for physical defects.

Nearly all the accepted ones passed the subsequent tests in riding and shooting.

Among those who appeared for examination yesterday were two lads who had previously been declared unfit. They assumed, and of these over 90 per cent. were rejected for physical defects.

The authorities have not received any instructions yet to enlist men from the permanent corps, but are expecting them. At the parade at the Barracks yesterday morning No. 2 Company, R.C.R., with a few exceptions, and five N.C.R.'s made application.

**Recruiting Will Continue.**  
It is expected that the recruiting will be continued at the Armouries during the remainder of the week.

Sergeant W. H. Sears of the Welland Dragons, among those sworn in, is a son of Thomas H. Sears, proprietor of The Welland Telegraph. He is taking a short course at Stanley Barracks.

Sergeant E. S. Odum of No. 1 Company, Oxford Rifles, also among the accepted, is attending the School of Practical Science here. He is a brother of Lieut. Odum of this contingent, who has been attending Victoria College.

Joseph Hannan, who passed his medical examination, is a bright-looking Halfbreed.

**THE PIANOLA—A TECHNICAL ASSISTANT.**

There are still many people who have an entirely wrong conception of the Pianola. They have an idea that it is some kind of a mechanical or electrical device which you wind up or play with a crank, and are therefore naturally prejudiced against it.

The Pianola is not mechanical. It does not play itself.

In playing the Pianola, many suppose the player has nothing to do with the expression, but in reality one has nothing to do except to attend to the expression.

Think what it would mean to have an instrument with which you could play an entire wrong conception of the Pianola. They have an idea that it is some kind of a mechanical or electrical device which you wind up or play with a crank, and are therefore naturally prejudiced against it.

It does not play itself.

## PAYING BUSINESS FOR CANADIANS

This Country Will Soon Control the Pulp and Paper Trade.

EVERY FACILITY IS HERE.

Some Facts About the Atlantic Pulp and Paper Company's Advantages.

If there is one business more than another which Canada may reasonably hope to obtain a world's monopoly of, that business is the making of pulp and paper. The pulpwood forests of every other country except Scandinavia have already been depleted, and the forests of Scandinavia are not nearly so large as Canada's, while it is common knowledge that the pulp procured from the Norwegian forests is much inferior to that made in Canada.

A number of business men have recognized Canada's position of advantage in this regard, and have organized the Atlantic Pulp and Paper Company, with a limited capital of \$2,000,000. At the present time \$500,000 of 7 per cent. cumulative preference stock is offered to the public for sale at par, payable in three installments.

The Board of Directors contains such well-known names as the common stock of the company, the Ottawa Lumberman; R. J. Bliss, vice-president of P. W. Bliss and Co., Toronto; Chas. H. Watkinson, president of the Watkinson Engine Works, Montreal; R. H. Thompson, paper merchant, Montreal; Chas. Lyman, president of the Lyman and Knox Co., Montreal; J. W. Wardrop, lumberman, Montreal; Wm. M. McIntyre, paper manufacturer, Montreal; and the Laurentide Pulp Co., Montreal. These interested in the company are already contributing towards the purchase of the fact that since the prospectus of the company was issued, a few weeks ago, two offers for the purchase of the company have been received, one from the United States and one from England.

The advantages possessed by the company are: An unlimited wood supply, near New Richmond, on the Bale des Chateaux, where the mills are situated, and the wood is mainly spruce, the king of pulpwoods. Enough pulpwood is available to supply the needs of the company for many years to come. The cost of living in the vicinity is low and wages will be obtained at a high rate for the quality of the work.

It is predicted that pulp and paper can be made more economically in Canada than anywhere else in America. Sutherland and Cameron, brokers, Ottawa, or The National Trust Company will furnish forms of application for stock.

**PAYING OFF THE MORTGAGE.**  
The congregation of McCaul-street Methodist Church will, on May 15, pay off their second mortgage of \$6700. A first mortgage of \$5000 will then remain, but as the Social Union of the Methodist Church in Toronto has promised to raise the amount, should the mortgage be paid off at the above-mentioned date, the church expects to be free of debt within a short time.

During the past week the Ontario Immigration Department placed twenty-two young Englishmen among farmers at the following wages: Experienced men \$20 a month; from \$120 to \$130 a year, including in all cases board and washing.

**SEASON AT HANLAN'S.**  
Ferry Company Will Inaugurate Band Concerts on Sunday.

The work of putting the ferry in shape for the summer goes merrily on, scores of workmen being busily engaged in renovating the buildings and remodeling the stands. The ferry company is expending a large sum of money on improvements to buildings. The entrance at the dock is being fitted up and made more comfortable. Two new entrances are being made, making four in all. One of these will be used entirely by persons having bicycles or baby carriages. The fence surrounding the athletic grounds is being repaired. The interior of the fence and the grand stands will be painted white.

The company is making accommodations for a small-sized house, which is being gathered from many points. The exhibit will include four monkeys, two kangaroos and two raccoons.

It is the intention of the company to open the season on Sunday afternoon with a band concert by the band of the 48th Highlanders, under the direction of Bandmaster Slater. Mr. Wallace, late of the Fox Quill Company and an old Toronto boy, will render several solos. The British Guards Band has been engaged to give a concert on the island this season.

On May 24, among the attractions at the Point will be a balloon ascension. The City Dairy Company has leased Durman's restaurant at Island Park, which will be fitted up as an ice-cream parlor.

Mr. Pearson of the Consumers' Gas Co. is building a new house on the Lake Shore-road. R. W. Gooch is also building a new house on the same shore.

Among those who have taken up residence at the Island are Mr. and Mrs. Fair and Mr. Smith. The Hotel Hanlan will be opened on Monday, under the management of R. E. Noble.

In the Police Court, Fred Allen was acquitted in the Police Court yesterday of a charge of holding up and robbing James Collett in a lane off West King-street, on May 4. There was no evidence to show that Robert Johnston, medical student, had stolen a watch from a bundle of human bones found in the rear of 50 Hazelton-avenue. Robert Johnston was charged with the theft, having been seen with the watch in his possession. He was charged with the theft, having been seen with the watch in his possession. ## HAMILTON WANTS THE PREFERENCE

Board of Trade Passes a Strong Resolution.

The Hamilton Board of Trade has expressed itself on the question of a preference for Canadian products. A copy of a resolution, passed by the board, was received by Secretary Jarvis of the Board yesterday afternoon. The resolution, in part, reads: "That in the opinion of this board any product of Great Britain upon products similar to those produced in this country should be so levied as to grant preference to the articles produced within the empire, and that if Great Britain could see her way clear to adopt such policy, it would result in knitting together still closer the various parts of the empire, and thus materially strengthening our position by diverting to the colonies a large portion of the emigration from the United Kingdom, now going elsewhere, while the result that is long the wheat and other food products required could be entirely supplied within the empire."

Mr. Jarvis has arranged a meeting of the Wholesale Booksellers' and Stationers' Association of the board, and the Master Printers' and Bookbinders' Association for to-morrow afternoon at 3 o'clock. The joint meeting will consider the advisability of forming a copyright association for taking up the copyright question which has for so long been under discussion by booksellers and publishers. The meeting will also discuss transportation matters.

President Ames will dine the members of the Membership Committee of the board at the National Club at 1 p.m. next Tuesday.

**SOLDIERS FROM OTTAWA.**  
One Hundred and Twenty-Six Given a Cheering Send-Off.

Ottawa, April 22.—One hundred and twenty-six Ottawa young men marched to the Central Station this morning on their way to Halifax and South Africa. There was no martial music, but all along the streets from the Drill Hall to the railway station were crowds of people, who cheered and sang. There was almost as much enthusiasm as when the first contingent left here. The ways were cheered again and again, and all were happy when the train pulled out of the station. Recruiting is still going on, and other young soldiers will be sent forward in a few days.
