ill pictures of the world's championship contest between Jack Johnson the

Every man who has seen the motion pictures of the world's championship contest between Jack Johnson the heavyweight champion and Staniey Ketchei the middle-weight champion have been enthusiastic at their wonderful clearness.

The pictures first show Johnson in his training quarters on the ocean beach near the famous Cliff House in San Francisco. He goes thru all the up-to-date training stunts which are a prejude to very big match. The spectator is then whirled in a flash to the training camp of Ketchel. where the middle-weight is making his preparation for the big fight. The pictures keep on turning and one is next greeted with a sight of acres and acres of automobiles that have transported the elite of San Francisco and surrounding towns to the fight area. Suddenly we see the inside of the immense stadium, and as the camera revolves we are treated to a whole gity full of people.

The twelve rounds of the fight are

people.

The twelve rounds of the fight are The twelve rounds of the fight are vividly protrayed, showing the knock downs of Ketchel in the second round and again in the sixth. The pictures continue to revolve round after round and every one is on tip-toe of excitement for the final inning. Ketchel has been trying to land his famous shift, a blow that Bog Fitzsimmons made famous. His opportunity comes in the tweifth round when he floors Johnson with a hard right to the side of the head. The wonderful negropugilist goes quickly to the floor, rolls over in full view of the audience, rises slowly to his feet and waits the oncoming Ketchel with a volley of blews that drops him to the met, where he is counted out. The force of Johnson's punch is deliverd with such impetus that he falls over the prostrate form of his adversary.

of his adversary.

No more sensational finish has ever marked the close of a prize fight. The pictures will be shown all this week at the Star Theatre, Toronto.

The feat is acknowledged to be most remarkable for higher power cars shied at the undertaking, and the "E.M.F." was just a 30 horse power touring car taken out of stock for the test, 2,800 miles and 38 days of driving.

The "E.M.F." is not a high priced car, but it boats of a record that har has not been duplicated by the most expensive on the pavement. The "E.M.F." is the very latest design and equipment and the engines and general mechanical make-up are the work of three of the greatest automobile experts on the continent.

TECUMSEH PLAYERS OUT Indians Hold First Practice at Island on Saturday.

The Tecumseh N.L.U. players had an excellent workeut previous to the Mara-thon race, which afforded considerable amusement for the spectators, each team scoring two goals, Bobby Gilbert doing the necessary for Querrie's team, while Reeves, secured from Bradford, scored two goals for Graydon's team, one on a nice pass from Robinson, and the other

on a pass from Jack McKenzie, the former Toronto player.

Parkinson and Bullen played a nice defence same, and the way Reeves and Robinson worked showed the management that they knew how to play home.

Bud McLean made some excellent stope in goal. All the old-timers did some nice playing, and Feliev was a noticeable man all the time, and hie knee, which bothered him last year, seems to have been fixed up all right, as he felt no bad effects from it. Graydon showed he still knew how to play defence. Following players lined up.
