

THE EVENING TIMES, ST. JOHN, N. B. FRIDAY, MAY 22, 1908.

The Midnight Guest

By FRED M. WHITE

Author of "The Crimson Blind," "The Corner House," etc.

Copyright by T. J. McBride & Son.

(Continued.)

The dreary song came to an end at length; then it was followed by two solo songs, the first of which was a rather large picture, and the second a small one. The whole thing was done with a peculiarly aggressive Cockney accent. The whole thing was done with a peculiarly aggressive Cockney accent. The whole thing was done with a peculiarly aggressive Cockney accent.

All Walter's apathy had vanished, as he turned to the stage and scrutinized the solo singer. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He proceeded, with the aid of an attendant, to fasten a small curved canvas over the stage. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

The performer flattered down again as the wings as lightly as a feather. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face. He was a tall, thin, dark man, with a serious expression on his face.

CHAPTER IX.

The Confidential Agent.

All that evening and most of the next day Walter brooded over his startling discovery. He said nothing to anybody about it, though he had attempted the night previously to follow up the clue. The attempt had failed, however, for though he saw no more of Mrs. Delahay, and as to the man Valdo he eventually went off by himself. There was nothing for it now but to wait and see what was going to happen.

Meanwhile, public interest in the Fitzjohn Square tragedy had not abated in the least. Everybody was waiting eagerly for the inquest, which was to be held at four o'clock the day following the mysterious attack upon Lord Ravenspur. The latter had come down somewhat late in the morning, looking but little the worse for his adventure. It was not expected that the inquest would be more than formally opened, and it was generally known that Lord Ravenspur would be an important witness.

In view of the extraordinary interest taken in the affair the proceedings had been moved to a public hall. Long before the time arranged for opening the enquiry the hall was packed to its utmost capacity. After the police and medical evidence had been taken, the first witness called was Lord Ravenspur. His fine, picturesque figure stood out in the strong light. He gave his evidence clearly and well, though his voice shook from time to time with emotion which was only natural enough, seeing that the dead man had been no close a friend of his.

After all, he had little to tell. He described his late acquaintance as a quiet, unassuming man, who had been at work on a picture there until such time as the picture was extinguished and he was forced to abandon his task.

"You thought nothing of the lights going out?" the coroner asked. "You thought nothing of the lights going out?" the coroner asked. "You thought nothing of the lights going out?" the coroner asked.

"Well, no," the witness replied. "You see, it is no unusual occurrence for the supply of electric light to fail. The thing so easily happens. As the house has been empty for some time it occurred to me that perhaps there was a fault somewhere or, perhaps, the workmen had not quite finished their job."

"Quite so," the coroner observed. "Tell us, did you hear any noise in the house, or any suspicious sounds?"

"Nothing whatever. Until the light went out there was nothing whatever to disturb me. In fact, I was so intent upon my work that I was quite lost to everything else."

(To be continued.)

ST. DAVID'S CHURCH

TENNIS SEASON OPENS

For some days men have been at work getting the croquet and tennis courts in shape for St. David's Sunday School Tennis Club. Last evening the tapes were laid on the tennis court, and it is now in good condition for play. For more than a week, members of the club who enjoy croquet have been playing during the evenings.

The club enters on its third year this season, and the interest taken in it gives promise of this being its best yet. The ladies committee are planning to have the social opening on Saturday May 30. The tournament committee will have a series of plays to announce later. Only those connected with St. David's Sunday school or church are eligible for membership.

SUSSEX BURNED

Sussex, N. B., May 21.—Murray Huettis, manager of the Sussex Mercantile Company, was severely burned this evening in attempting to extinguish a fire in the company's store.

About 6 o'clock, an oil stove which was in use in the dressing department, exploded. Mr. Huettis tried to put out the fire and throw the stove into the street. Both his hands and one arm were very severely burned and the flames also scorched his face. The stove was finally covered with matted and carried to the street by one of the clerks. The fire did not cause any financial loss.

Mr. Huettis is under the care of Dr. Murray.

MR. CAIRNS BACK TO NICKEL

It will be good news to Nickel patrons and citizens generally to know that a telegram received yesterday from DeWitt Cairns, the popular local baritone, announcing his acceptance of a contract to sing for a season in Nickel Theatre, the home of good songs well sung. Mr. Cairns has spent the winter in Boston under the tutelage of a leading vocal instructor, and his magnificent voice is even better than when heard here before. Last evening the talented baritone's picture was thrown on the Nickel's curtain, it was greeted with unstinted applause. Mr. Cairns will commence on Monday.

PERSONAL

P. Mooney, James H. Pullen, J. A. Lively and Joseph Fowler were among the passengers to Fredericton on the early train yesterday morning.

Mr. and Mrs. Richard Sullivan have returned from Atlantic City.

J. Chipman Hartley, of Woodstock, is in the city.

T. S. Peters of Gagetown was registered at the Victoria yesterday.

F. R. Taylor, J. A. Lively, Col. H. W. McLean and Dr. A. W. Macfarlane returned from Fredericton last evening.

Rev. R. A. Armstrong returned from Moncton last evening.

D. Monahan came in on the Boston train last night.

Harold Stone came in on the 5.40 train last evening.

John E. Wilson, M.P.P., returned from Fredericton last night.

Silas Alward returned to the city last evening.

C. H. Herrett, of Pettoicodis, was registered at the Dufferin yesterday.

F. E. Dennison, of Campbellton, was at the Royal yesterday.

E. L. Parent, of Ottawa, auditor of the transcontinental railway, arrived in the city yesterday and is staying at the Dufferin Hotel.

EMPIRE DAY IN SCHOOLS.

To-day was observed in the city schools as Empire Day. Lessons of a patriotic nature were taught and in several of the schools a programme of exercises appropriate to the day was carried out. In the High School this afternoon a programme of essays, choruses and addresses by prominent citizens was enjoyed.

You cannot keep the joy you will not share.

SOUTH AFRICA

LAND OF MANY PLAGUES

The Jigger Flea for Humans and the Tsetse Fly for Cattle.

Profound Depression Throughout Rhodesia and Capital Has, Apparently, Lost All Confidence in the Country.

(Victoria Colonist.)

Rhodesia cannot be a particularly nice place to live in, according to the account of John Glickman, a mining man, who has spent a great many years in Southern and Central Africa and knows the country thoroughly.

Mr. Glickman, who is now in Rhodesia, has been through both the Matabele campaign as well as the South African war. In the latter he was in the Imperial Light Horse, receiving two wounds. South Africa just now appears to be in a state of profound depression, according to Mr. Glickman, a mining man, who has spent a great many years in Southern and Central Africa and knows the country thoroughly.

There has been a great deal of wild talk in Rhodesia. It is estimated that forty millions sterling have been sunk in mining ventures in the country, which, practically no returns, the Globe and Phoenix and other leading papers in the country have been abandoned by the companies as they were unable to pay for mining on a large scale. The London market has been very depressed, and a company called "Ancient Ruins, Limited," with a capital of £250,000, was formed to dig for the treasures supposed to be buried in the ruins of the ancient cities of Rhodesia. They use a portable stamp mill, with batteries of five or ten stamps, supplied by Franks & Chalmers, and work at a given place till the pocket gives out, and then move on.

There are a number of ancient ruins in Rhodesia, which are said to be of Phoenician origin and date from the time of Solomon. It is supposed to have got its gold from there. There are remains of ancient cities, and the ruins are worked down to the water level, when the ancient ruins are exposed. These have been opened up, but the mining has not proved remunerative except for prospectors. Many of these are doing well. They use a portable stamp mill, with batteries of five or ten stamps, supplied by Franks & Chalmers, and work at a given place till the pocket gives out, and then move on.

These have been opened up, but the mining has not proved remunerative except for prospectors. Many of these are doing well. They use a portable stamp mill, with batteries of five or ten stamps, supplied by Franks & Chalmers, and work at a given place till the pocket gives out, and then move on.

There are a number of ancient ruins in Rhodesia, which are said to be of Phoenician origin and date from the time of Solomon. It is supposed to have got its gold from there. There are remains of ancient cities, and the ruins are worked down to the water level, when the ancient ruins are exposed.
