

present single Butts, and made application to the Militia Department for a grant necessary to do the work. Presumably because the matter was not placed before the Department in the right manner, no notice has been taken of the application. It remains for the new Council to push the matter further in the direction of procuring a serviceable and properly equipped Range.

The Ottawa Team Report and Prize Return will be laid before you. They tell, if not of any great, yet of a very fair amount of success, even though confined to a minority of the team. The positions taken in the Dominion of Canada Match by the 62nd Fusilier and 71st Battalion Teams, by the N. B. Eight in the London Merchants; by Sgt. Loggie in the Grand Aggregate and Governor General's; and by him and Col. Sgt. Henderson in the Wimbledon Twenty, are good causes of satisfaction to the Council. The Council also feel that the Association can justly bear in mind that Pte. C. T. Burns, who is looked up to as this year's champion at Ottawa, was but a few months ago one of its members, and acquired his shooting knowledge on Drury Range.

Respectfully submitted,

JOHN H. PARKS,

*President.*
