come a part of the tory machine. The Chronicle well says:—

"The Liberal party is, as its name implies, the democratic party of this country. The mere holding of power is not its chief end; it is only a means to the end. True Liberalism is wider and deeper than that. It springs from the common desire of free men to achieve equal opportunity for all and special time in consideration.

Stationed in Canada, however, and took the trouble to get information from hospital sources, knows what happened the trouble to get information from hospital sources, knows what happened here, and can form some conception of what happened in England and France, even if letters from soldiers did not tell the story.

This is not a subject that should be set aside as unworthy of consideration. It is no light matter to have the effective of a territorial regiment, in freight rates is that the price of soft the age of 47 took his commission just before the war, and had been out from the first. "He is very well, and (no longer a young 'un) has 'made good' as a soldier with the best. Coolest man under fire I ever saw. Never winces or ducks, whether it's shell, shrappel or whizz bangs; and when the biggest thing of all, a 'Minnie,' comes over, is pointed out that the railways of the ling of the increase in freight rates is that the price of soft the age of 47 took his commission just before the war, and had been out from the first. "He is very well, and (no longer a young 'un) has 'made good' as a soldier with the best. Coolest man under fire I ever saw. Never winces or ducks, whether it's shell, shrappel or which the railway has been divation. Under fire I ever saw. With reference to this explanation it is pointed out that the railways of the line of the increase in freight rates is that the price of soft to this city by rail, has been advanced to this city by rail, has been advanced to the age of 47 took his commission just before the war, and had been out from the first. "He is very well, and (no long the price of a very well and (no lo the Liberal party. Honest differences of will exclude every form of immorality.

men such as these." Liberals is that of the Conservatives.

The ablest speeches in favor of conscription were made by Liberals, who also insisted, however, that there must be more than conservations. be more than conscription of men. How many Conservatives express a willingness to vote against their party if it did not adopt all-round conscription as its policy? Not one. They were all un-

tics is being played, and the prime minister is jockeying for position in an election campaign. Else why should not the conscription act be brought into effect, in accordance with Sir Robert Borden's promise?

THE LIBERAL PARTY.

We read much in the Conservative press about the alleged disruption of the Liberal party, as if there had not also Liberal party, as if there had not also pledges of the Mathieson administration.

equal opportunity for all and special privilege for none. Within its ranks there is room for all who would protect humanity and wish to keep the torch of liberty alight in the sky. Many men of liberty alight in the sky in the sky in the sky in the sky of many minds and diverse opinions find a common meeting ground in the tenets of Liberfilism. So it is that Liberals are men of independent mind holding sincere convictions, differing it may be as to the manner of their application but fighting unitedly for principle. In a party so constituted, it is inevitable that there should be sturdy independence of thought and of action. In this very independence of thought and of action. In this very independence of thought and of action. In this very independence of thought and of action. In this very independence of thought and of action. In this very independence of thought and action is found the real strength of Liberalism. Conservatism is the exact antithesis of Liberalism. It is a banding together of men to protect privilege. Its main strength lies in its party discipline. The of many minds and diverse opinions find trouble to learn the facts regarding other strength lies in its party discipline. The over which the military authority will Chronicle has no fear for the future of exercise supervision and from which it

GROCERS SELL IT

Mayor Hayes is fairly well informed on the coal situation, having been engaged by appointment of the common council, to study the problem. He has been in communication with the fuel controller and with the various sources of supply of hard coal. His investigation has not, however, concerned soft coal.

At its first session that committee had engineers to express opinions and the general expression was that the tenders were not excessive in view of the abnormal markets. Last night George Waring, superintendent of ferries, Mr. Campbell, superintendent of similar installations at the Provincial Hospital, and delegate of their nomination.

At its first session that committee had engineers to express opinions and the general expression was that the tenders were not excessive in view of the abnormal markets. Last night George Waring, superintendent of ferries, Mr. Campbell, superintendent of similar installations at the Provincial Hospital, and delegate of their nomination.

# It is expected that Mr. Magrath will divulge to the maritime representatives the results of his conference with authorities at Washington, what assurance the has received that no embargo will be placed on coal entering Canada and what indication there is of a steady, adequate supply and reasonable prices. The proposed increase in freight rates on soft coal may now also come in for discussion and investigation. Save \$10,000 On Hospital Plant Hospital Plant Hospital Plant And F. N. Brodie, architect, appeared before the committee and gave their views. In consequence of their investigation the committee decided to readjust the internal arrangements and substitute the style of boilers and the nature of other machinery with the result that it is expected the cost can be reduced \$10,000 on the lowest tender figures, or roughly, to a figure in the vicinity of \$34,000. The recommendation to proceed with the work under the new arrangements, will be made to the council. That body will act on it next Tuesday. It will decide to either proceed with the work under the new arrangements, or leave the building idle until better times. BOARD OF TRADE NOMINATE TWO MEMBERS OF

missioner of public works and mines in the Nova Scotia cabinet, presiding. In addition to the official provincial representatives and the federal officials, the following were present:

Dominion Coal Company—John R. McLisanc, Glace, Alex Dick, Montreal.

Nova Scotia Steel and Coal Company—John R. McLisanc, Glace, Alex Dick, Montreal.

Nova Scotia Steel and Coal Company—John R. McLisanc, Glace, Alex Dick, Montreal.
