New Note by Allies to Washington IT'S YOUR LIVER !

Washington, Jan. 17-The Entente Allies, in a note addressed by Arthur Balfour, British foreign minister, to Ambassador Spring-Rice, and delivered to the state department, amplifies their raply to President Wilson's peace note, by explaining in detail why they believe it impossible at present to attain a peace which will assure them such guarantees as they considered essential. The note also explains why the Allies' demand the expulsion of Turkey from Europe: restoration of Alsace-Lorraine to France, of Italy Irredenta to Italy, and other territorial changes set forth.

Those who think the future peace of the world may be insured by inter- Don't stay constipated with national treaties and laws, the note says, have ill-learned the lessons taught by secent history. After charging that German influence in Turkey has resulted in conditions as barbarous and more aggressive than were known under Sul tan Abdul Hamid, and that it had been shown Germany cannot be expected to respect treaty obligations, Mr. Ballour says:

"So long as Germany remains the Germany which , without a shadow of justification, overran and barbarously ill-treated a country it was pledged to defend, no state can regard its rights as secure if they have no better protection than a solemn treaty."

Asserting that Belgium was not Germany's only victim, and that "neutrals were intended to note outrages which accompanied its conquest," the note recites the "reign of terror" attendant upon Germany's method of warfare, and in that connection savs:

"The war staffs of the central powers are well content to horrify the world If, at the same time, they can terrorize it."

The people of Great Britain, Mr. Balfour says, share President Wilson's desire for peace, but do not believe it can be durable unless based on the success of the allied cause. Such a peace, it is argued, cannot be expected unless these conditions are fulfilled: Existing causes of international unrest shall be, as far as possible, removed or weakened; the aggressive aims and the unscrupulous methods of the central powers should fall into disrepute among their own peoples, and finally, that behind international law and behind all treaty arrangements for preventing or limiting hostilities, some form of international sanction should be devised which would give pause to the hardiest aggressor.

It is recognized that these conditions may be difficult of fulfillment, but the belief is expressed that they are in general harmony with President Wilson's sive and stomach sour. Don't stay bilideas. The note declares confidence that, so far as Europe is concerned, none of the conditions can be satisfied, even imperfectly, unless peace is secured on the general lines indicated by the Allies' init note general lines indicated by the Allies' joint note.

The note was entirely unexpected to officials here, but was gratifying be-cause they interpreted it as a step toward the world federation to preserve prace, to which President Wilson, both in his speeches and in his peace note, has pledged the United States.

has pledged the United States. Great Britain justifies her continuance of hostilities, it was pointed out, not only for the immediate objects of the war, but also on the necessity that "behind international law and behind all treaty arrangements for preventing or between the immediate objects of the war, but also on the necessity that "behind international law and behind all treaty arrangements for preventing or between the immediate objects of the war, but also on the necessity that a whole Cascaret any time. It is just some such arrangement, it was pointed out, which President Wilson has been urging, and which is expected to cause wider disagreement in the BRITISH SUCCESSFUL American foreign policy than any other question raised in the country's history. IN MORE RAIDS; MEN

The Ger-mans are laboring might and main to supply their men with munitions; and the war has now developed a contest be-tween the forces behind the man behind the gun. That is what Rabbi M. Shallit of Edenbridge, Sask. says regarding a cure by Zam-Buk, of which he gives the following particulars:

the following particulars: "A short time ago," said the Rabbi, "a man brought his little son to me and asked if I knew of anything that would cure the child of a terrible skin disease, with which he had suffered for three years. The child's forehead, eyes and ears were covered with sores. The sight was shocking, and the child had not been able to see for two years. As he was an only child, the father said he would give anything to have him cured, but as he had already been treated by many doctors, each of whom had given up the case as incurable, he had about despaired of ever finding a cure. Having great faith in Zam-Buk, I recommended it, and to cut a long story short, perseverance with Zam-Buk has now completely cured the child.

THE FATHER'S ACCOUNT

The following letter from the father of the boy expresses his gratitude: "The Zam-Buk Company, Toronto Dear Sirs: I beg to testify that my boy suffered for three years with a severe skin disease, which doctors tried to cure, but in vain. The sores on his eyes were so terrible that for two years he was quite unable to see. Zam-Buk, however, has worked a complete and permanent cure. The Zam-Buk treatment was recommended to me by Mr. M. Shallit, Rabbijof Edenbridge, for which I shall be grateful to him forever. With hearty thanks to you, I remain. Yours faithfully, (Signed) E. ROMANUK."
