QUERIES ABOUT MAINTENANCE OF STREET LIGHTS

**M. A. Pooler, as Tax Payer,
Writes Letter to Acting Mayor**

**LETTER REFERRED
TO COMMISSION**

Prince William Street Property Valuation is Reported On.

A request for information in regard to charges for maintenance of the street lighting system was presented to the City Council this morning by the New Brunswick Power Company and referred to the Civic Power Commission for a reply. The council met this morning in committee of the whole and dealt with routine matters.

MR. POOLER WRITES
In connection with the request for information about the street light charges the following letter was read:
Jas. H. Frink Esq.,
Acting Mayor,
City.

Dear Sir—As a matter of information to which, as a taxpayer, I assume I am entitled, I would like to be advised as to whether or not the amount of \$3,001.88 for street lighting appearing in the report of the city expenditures in yesterday's Times, includes the maintenance of the street lighting system. I should also like to be advised as to what operating account the maintenance of the street lighting system is charged.

In the report of the accountant secretary of the Power Commission, which was published on January 23, no charge is shown for operating or maintenance of the street lighting system. This of course would be an operating expenditure and would probably amount to \$20,000 or \$10,000 per year. When the New Brunswick Power Company was lighting the streets there as at present, and it cost the Power Company about \$7,000 per year to maintain the street lighting system and renew lamps.

It is possible that the commission is charging this expense to capital account which, of course, is wrong, or it may be charging it against the maintenance renewal fund. If so then this fund or reserve, which is supposed to be accumulated to take care of future depreciation, must be pretty well depleted.

I trust that I am not asking for any information to which any taxpayer is not entitled.

Yours very truly,
NEW BRUNSWICK POWER CO.
(Sgd.) M. A. POOLER,
General Manager.

It was moved by Commissioner Harding that the letter be referred to the Civic Power Commission for a reply and this was adopted without discussion or dissent.

Acting Mayor Frink reported that he had engaged the services of W. B. McKenzie of Moncton to value the property of Messrs. Oty and Morrissey, Prince William street, and had received the report of Mr. McKenzie. He moved the report be handed on to the chairman of the Board of Assessors for study and consideration, in view of any recommendation from the council at the present time. This carried.

The department of public works was authorized to call tenders for 850 tons of asphalt, specifications and time of delivery to be under the direction of the commissioner and road engineer. Dr. Frink said he was asking authority to call for tenders now as there seemed to be a feeling that later in the season asphalt would be higher. Last year the price paid was \$27.95 a ton.

On motion of Commissioner Harding the leases in the market building were renewed for another year. There are no changes among tenants in the building this year the commissioner said.

On motion of Commissioner Harding, H. C. Mott, architect for the west side city hall renovation, was ordered paid \$1,000 on account.

THE VOGUE OF SKIS.
The pleasures of snow this winter has extended the vogue for outdoor recreation to the realm of skis, so much so that every night since the late snowfall, popular roving teams from the city and especially in the vicinity of Rockwood Park are vocal with the merry chatter of sliding parties. Girls are becoming quite as adept on the long runners as boys and some of the readiest learners are essaying high jumps, and long hikes through wooded sections where tracks are unbroken. The other night a party of skiers sped from the park over the Rockland Road thoroughfare to the sidewalks of Main street before they took off their wooden blades.

RADIO SCORES COME-BACK AND FANS REJOICE

Local Sets Bring Fine Programs Sunday After Month

Sir George E. Foster Demonstrates His Aptness in Re-partee at Boston Meeting

Much to the delight of radio fans reception on all sets so far reported to date, was excellent last night. Some enthusiasts said it was the best radio of the season and coming after a mysterious lapse of more than a month, the programs were doubly welcomed. A great variety of entertainment was drawn from the air from the middle of the afternoon until after midnight and included addresses by notable preachers including the Bishop of Wyoming who was speaking in New York; Sir George E. Foster, of Canada, who was conducting a forum in Ford Hall, besides being one of his masterly efforts on the subject "Canada Within the Empire." The latter was terminated with the usual questioning and answering characteristic of these forum meetings that must have been interesting to the thousands of Canadian listeners-in. Among the questions addressed to the speaker were: "What would happen if British authority in South Africa if the blacks were enfranchised? Is it not true that the Ontario hydro enterprise is very much involved financially? Don't you think Sir George, it is in poor taste for you to come here and tell us what a wonderful country Canada is; why some day we might take our big navy and our great army and cross over and capture that country?"

As could be imagined by the Saint John people who know Sir George's scholarly attainments and knowledge of the Empire in detail, his replies to these queries were prompt and decisive. He elicited much admiration and applause by suggesting that the inquiry about Ontario hydro might be interested more in shares of some kind of power stock than the merits of the case as a public utility and to the young annexation of Canada Sir George replied with a smile in his voice: "All I can say to this question is: 'Just you try it.'" The latter sally drew thunders of applause, evidently from a Canadian-American audience.
