DOMINION GLASS DOWN 26 POINTS FROM 1925 HIGH

Was Feature of Quiet Opening of Wall Street Market Today

TREND DOWNWARD IN WALL STREET

Bear Operators Follow Up Yesterday's Success With Further Depressions

Canadian Press.

MONTREAL, Dec. 9.—The quiet opening of today's stock market was featured by Dominion Glass, the least active issue, which descended to a new low at 89.8-4, down 1 1/2 from yesterday's closing price. This makes a loss of over 26 points from the year's high. In the balance of the lists gains and losses were about equal. Brazilian

was another weak spot, easing 3/4 to 78 1/2, as was also Consolidated Smelters, which sagged a point to 147. National Breweries and B. C. Fish were firm, gaining 1/4 and 1 to 55 1/2 and 63 respectively. Bank of Nova Scotia was up 1/4 to 238. Laurentide, Canada Steamships preferred and Besco first pfd. sold the same at 85, 50 and 28 1/2. Other leaders were neglected.

NEW YORK, Dec. 9.—Price movements in the stock market followed a downward course at the opening of trading today.

Bear operators, taking advantage of their success in depressing prices late yesterday, pressed stocks for sale and moderate recessions were general among the pivoted industrial and railroad issues. American Can and Chrysler moved counter to the general trend, both rallying more than two points.

Morning Stock Letter

NEW YORK, Dec. 9.—There was no news to account for the selling in the market yesterday. Think the lower prices were due to the fact that the theory that gold news in the shape of President's message was out, and to advice from several brokerage houses to take profits for the time being. In addition there seemed plenty of short selling to help the decline along. In our opinion this decline is only a temporary reaction. It may go further today, but before the week is over we expect to see prices at a higher level again. Steel continues to be one of the weakest stocks yesterday. However, before this upward move is over we expect to see Steel sell comfortably above its old high. Independents also look higher. Yonk Gas made a new record high and acts as if its move was under way. We expect this stock to sell around 125, and believe it can be bought. Bullish on Co. Southern, Central, R.O.N., etc. Among industrials we remain bullish on American Ice, AGR, Pfd., South Porto Rico Sugar, IP, and American Chicle. LIVINGSTON & CO.

Brokers' Opinions

NEW YORK, Dec. 9.—Hornblower—"We know of speculative buying in Stewart Warner, which is being conducted in expectation of sharp upward move in the stock this week as part of a bigger move later on, which its sponsors believe will carry it to 125." Fourman & Co.—Recommend additional purchases of oil and rail on the appearance of minor price dips. Joseph & Co.—"Rails, steel and copper as groups afford the greatest opportunities in the way of profit through market enhancement."

Current Events

NEW YORK, Dec. 9.—Marland oil declared \$1 dividend, compared with 75 cents three months ago. Electric Storage Battery declared extra dividend \$1 and quarterly of \$1.25. Burns Bros. regular quarterly dividend declared. American Pets estimates domestic crude oil production week ending Dec. 6 at 2,477,720 barrels daily, decrease of 4,500 daily from preceding week. "Tweed" Industrial 125.87, up 37; 30 rails 108.86, up 61.

Carleton City Hall

Further Discussed

The city commissioners yesterday afternoon after the Common Council meeting, discussed the matter of restoration of the Carleton city hall and in view of the attitude of Mayor Potts, as stated by Commissioner Frink, that he would consider only tenders for the complete work, agreed that it would be wise to call for tenders for the heating, lighting and plumbing before dealing with the tenders which have already been received.

Commissioner Harding when asked this morning by The Times-Star if the call for tenders for these items had been made replied that if tenders were called for it would be in the morning paper.

Exorbitant Demands By Boxers Killing The Sport

By HENRY L. FARRELL

United Press Sports Editor.

Tex Rickard, who never was found to be a dumb-bell on boxing subjects, has the most practical and the most radical defense against the money grabbing tactics of boxers and managers, which really is placing the sport in danger of its life. "If some of the leading boxers and managers do not become sensible in their demands for purses and more reasonable in dictating conditions, I'll be boxing out of Madison Square Garden," he said a few days ago. Several prominent managers, when they heard of his threat, let out a large laugh. "He can't do it," they said. "He's got \$50,000,000 tied up in the new Garden and boxing will have to pay most of the freight." Rickard insists that he can pass up boxing as a weekly feature and get along just as well with only four or five big shows a season. "We have been making more money out of two six-day races a season than all the boxing matches put together," Rickard says. "We have had more applications for hockey dates this winter than the calendar can accommodate, and the expense are much higher in proportion. We want it understood that the New Garden is by no means a boxing place. There are a dozen ways in which we can make up for the little revenue that has been coming from boxing."

Rickard ran three outdoor shows last summer and only one—the Milk Fund benefit—made any money. Jimmy Slattery and Berenbach drew \$100,000 and Dave Shade and Mickey Walker drew \$100,000 and yet Rickard says he lost \$35,000 on the two shows.

"I'm through with staging benefits for boxers," he said. "They'll have to give me a chance to make some money for my time and trouble and the risks involved or I'll get out of the game." The little promoters are also complaining and they have been talking about an appeal to the Boxing Commission for relief but no one seems to know what to suggest to the commission as a means of bringing about the relief.

The little club owners are also squawking about the conditions that boxers, who are good drawing cards, impose upon promoters before they will sign for a match. They not only ask an exorbitant purse but they insist that all the boxers in their stable be placed on the card and if there is not room for them that they be accommodated on later cards. It is hard to convince some of these managers that they are hurting the game and that if they keep up their money grabbing tactics the sport will be ruined.

The promoters can't afford to put on high class cards and the customers eventually will tire of putting up with their money for cheap attractions. It is true that the New York law provides a limit to the percentage of the gate that can be paid to the boxers, but it is only one more of those well meant rules that is not observed. Boxing is the sport of the masses. All must be sold without reserve. Sale every evening at 7.30. Store open, goods sold at auction prices during day.

After many trials and tribulations to get established in the East, professional football this season has been a

success in New York. The owners of the team probably will do little better than break even this year, but they are satisfied in that they seemed to have created an appetite for the sport. Professional hockey is to be launched on a big scale this winter. The New York team playing in Madison Square Garden as a member of the International League. Professional basketball also has been organized into a national league and it is certain to be a success with a good organization. Professional swimming is also becoming so established that national amateur stars like Elisha Bleibrey, Helen Wainwright, Gertrude Ederle and Alleen Higin have found it possible to turn professional without any loss of respect. Professional golf has long been established both as a sport and a profession. Of all the major sports, tennis is the only one that has been able to withstand the temptations of professionalism and, even at that, the ruling body of the game has had great difficulty in getting some of the players to live up to what it considers amateur ethics. Professional foot racing flourished for some time years ago but there isn't enough money in it now to tempt amateurs to go into it as a business.

AMHERST, Dec. 8.—Further steps were taken in the Parrish liquor robbery today when Ernest E. MacKenzie and Roy Coates were formally committed to stand trial by Stipendiary Magistrate A. G. MacKenzie. No evidence was taken today. The hearings were completed yesterday when the two men faced formal charges of receiving stolen liquor.

After their commitment by the magistrate the two men appeared before Judge Allan McDonald, presiding over the County Court. There they elected to have their trial before the Supreme Court of Nova Scotia in June, 1926. They were granted bail, the amount being placed at \$5,000 each.

OTHER HEARINGS.

Blanche and Atkinson, two other Amherst residents, charged with implication in the affair, are to have their hearings Monday. Two other hearings will be held on Monday. Parrish, when Roy Coates and Lloyd Fife will come before Magistrate John Pickard on a charge of stealing liquor from the customs warehouse in the airport town. Coates was rearrested on Friday night, when the second charge was laid. Dominion and provincial po-

lice are still continuing their efforts in the case.

FINED \$200.

Charged with trespassing liquor within the county upon which the duty had not been paid, Max Baig was fined \$200 this afternoon by Magistrate MacKenzie. The magistrate stated it was the first case of its kind ever tried in the county. The magistrate ruled that Mr. Baig would have to prove that he had paid the duty upon three kegs of rum that he had hauled for another party. Baig was unable to do so and, as a result, was convicted. J. A. Hanford, K. C., appeared the case for the defendant.

ACQUITTED ON ONE CHARGE.

A few days ago Baig admitted hauling three kegs from a thicket in the Hastings woods to a modern paper box factory, where he delivered the goods to a man. He was at the time charged with keeping the liquor for sale but was acquitted.

AGONIZING RHEUMATISM

OF 5 YEARS STANDING COMPLETELY RELIEVED BY "FRUIT-A-TIVES"

Mr. James Dobson

"So good enough to publish for the information of Rheumatism sufferers how 'Fruit-a-tives' relieved my Rheumatism which had at least five years' standing. The trouble was in my right hip and shoulder; the pain almost unbearable. This kept me up until I started to take 'Fruit-a-tives'. After a continuous treatment for about six months, I am now in first-class condition. This, I attribute to my persistent use of 'Fruit-a-tives'."

The above is the letter which Mr. James Dobson of Bronte, Ont., wrote after trying the wonderful Fruit Treatment—"Fruit-a-tives" which consists of intensified fruit juices combined with tonics. If you suffer with Rheumatism, "Fruit-a-tives" will make you well and keep you well. 25c. and 50c. at dealers.
