St. George's Society Notes Large Number of Winter Calls for Help.

The annual meeting of St. George's Society was held last evening in the Knights of Pythias Hail with a record attendance, Dr. James Manning, the president, in the chair. The usual statements were read, that of the treasurer showing a good balance on hand, although the claims on the charity fund have been very large. The report of the charity committee gave details of their work, from which it appeared they had many calls. They showed that during December alone they had provided more than 300 meals for Englishmen out of work, nearly all of the seafaring class, who had come here for employment, in addition to numerous grants to English families in sore need. They suggested the necessity of a public soup kitchen to take care of such menduring the winter.

There was a long discussion on this matter and the opinion was freely expressed that a small society such as St. George's should not be called on to assist so many who came to St. John as a seaport town. It was therefore resolved that the charity committee should bring this to the attention of the Common Council and the Associated Charities in the hope that some public effort should be made to arouse civic interest.

A committee was appointed to ar-
