RINGS, WATCHES, CLOCKS FOR
Sale, watch repairing, seven years in
Waltham factory. G. B. Huggard, 67
Peters street.

WELDING

FRAMES, CRANK CASES, HOUSE-
hold articles, etc.—C. J. Morgan & Co.,
44 King Square. 4-20-22

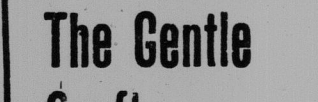

Eleven high school students and the
driver of an automobile in which they
were riding were killed yesterday at
Red Bluff, Cal., when the bus was
struck by a train. The bus, en route to
the school, had had an accident and was
behind schedule. Another bus crossed
the track, but this one, following close
behind in a dense fog, was struck
squarely and hurled into a black signal.

The Gentle Craft

Alone among trades this
title was awarded centuries
ago to the guild of shoe-
makers.

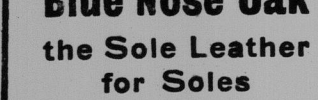

For shoemakers as a class
are thoughtful men, rea-
sonable men. As a class
they offer you the best.

Blue Nose Oak

the Sole Leather
for Soles

Takes months to tan,
months more to wear out.
Ask for it when you get
your shoes soled if you want
them to last for winter.

SOME ODD NAMES.

Some unusual names are on the list
of nominations throughout Canada. In
North Simcoe the three candidates are
Messrs. Heath, Raikes and Swindle.
The Liberal candidate in West York is
Streight, but the Conservative candidate
in Cumberland is Bent. The aspiring
government candidate in Jacques Cartier
is Goble. One would rather expect Mr.
Grenville in Lewis to be a Grit, but he
is not. A. Stork is a candidate in
Sikema and another Bird is running in
Nelson. Mr. Scratch is hard at it in
South Essex.

FIGHTING WHITE PLAGUE IN ST. JOHN

Year's Work of Anti-Tuberculosis Association.

Report Speaks of Much Done
in Face of Discouragements
and Handicaps—Hope for
Better Support Expressed.

This afternoon the annual meeting of
the St. John Association for the Preven-
tion of Tuberculosis is being held,
with Joseph A. Lively, the president, in
the chair. The twelfth annual report
deals with the work done between Nov.

1, 1920 and Nov. 1, 1921, as follows:
The dispensary has been open 165
days during the year—110 clinics for
adults and fifty-five for children, that
Monday at 2:30 p. m., and Thursday
evening at 7 p. m. for adults and Friday
at 2:30 p. m. for children. Dr. Loggie,
the dispensary physician, and nurse
are in attendance at these times. The
board was fortunate in being able to
secure at the November meeting the
services of Dr. Doris Murray to take
charge of the children's clinic.

In addition to this, Dr. Ferris holds
clinics on the third Thursday of each
month at 2:30 p. m. Any one seeking
admission to the St. John County Hospi-
tal or to River Glade Sanatorium, may
be examined free of charge by making
application to the nurse at the dispensary—
Telephone Main 4717.

Dr. Ferris has given some applicants at
the dispensary treatment at the County
Hospital once a month. This has been
done by the patients and included
28 fluoro-scopic examinations and
X-ray ones at cost price when necessary.

Dr. Abramson has done laboratory
work free of charge for the dispen-
sary. Also the city is paying for pa-
tients at River Glade, who are unable
to come through the dispensary.

More at Dispensary.
During the year there were 466 at-
tendances at the dispensary as against
321 in 1920 and 135 in 1919. Each
of them was examined; some were
sent to River Glade, some to the
County Hospital, others were treated
at the dispensary and visited by
the nurse, some were discharged as not
tubercular or cured. Two hundred and
thirty-one prescriptions were issued.

When a patient is discharged he comes
to the dispensary for some time after
discharge.

Three patients' names are on the wait-
ing list for River Glade, eight patients
have been sent there and twenty-seven
have been sent to the County Hospital.
Eight patients have received milk. The
nurses have made 10,000 visits. An in-
fant was born in the dispensary during
the year. Donations of fruit, eggs and
milk were given to the patients at
Christmas and the society would be
grateful for donations for this purpose.

The foregoing figures show an in-
crease in the number of patients treated
and the number of visits made. The
committee, which was organized in 1919,
last year, felt obliged to resign and
there were no workers to fill its
place; the municipality withdrew its
workers who helped pay one nurse
city ordered the rooms occupied by the
dispensary to be vacated, and the govern-
ment has given no evidence of keep-
ing its promise to help.

When it is known that in 1920, twenty-
seven cases of tuberculosis were re-
ported, and since the establishment
free clinic the rate in 1919 was thirteen
out of every 10,000, it was at least a
big increase over the figures of a year
ago. Cables from England this week
show that the number of cases of tuber-
culosis in that country has increased
in price, due to increased supplies, the
offering being greater than the demand.
The number of navigation in Montreal
will finish within the next few days. Our
grain shipments are by far the greatest
on record. The number of cases of tuber-
culosis also show a big increase, between
two and three hundred more ships being
sent to the river bottom around the
wharves. The number of cases of tuber-
culosis is much smaller than the number
of cases of tuberculosis in Montreal.
The retail trade is active. Collections
are far.

Bradt's Montreal weekly trade
report says: This being a quiet season
in the wholesale dry goods trade, a
good many firms are taking advantage of
the same to take stock. There is quite a
scarcity in many lines of cotton goods,
and the mills are not able to turn out
the goods fast enough to supply the de-
mand. There is a very good demand for
colored cotton goods for spring de-
liveries. Blankets and yarns are in good
demand. The hardware trade reports a
fair amount of new business during the
week. The feeling in the trade is quite
optimistic, however, as neither the whole-
sale nor retail trade are carrying heavy
stocks.

Labor troubles predominate in the boot
and shoe industry and a number of fac-
tories are closed down awaiting wage
adjustments. The job printers' strike,
which has been on for many months, has
not been settled yet.

The cheese market has had a big relief
in prices recently, which is a great relief
to the cheese exporters, most of whom
will wind up the season on the right
side. While our butter shipments have
been very heavy, our exports have been
a big increase over the figures of a year
ago. Cables from England this week
show that the number of cases of tuber-
culosis in that country has increased
in price, due to increased supplies, the
offering being greater than the demand.
The number of navigation in Montreal
will finish within the next few days. Our
grain shipments are by far the greatest
on record. The number of cases of tuber-
culosis also show a big increase, between
two and three hundred more ships being
sent to the river bottom around the
wharves. The number of cases of tuber-
culosis is much smaller than the number
of cases of tuberculosis in Montreal.
The retail trade is active. Collections
are far.

Will Dredge for Prehistoric
Monster Said to be in the
Niagara River—Died 150-
000 Years Ago.

Bridgeburg, Dec. 1.—Work will be
started soon to dredge the Niagara River
near the foot of Ferry street, on the
United States side, in an attempt to
locate a mammoth skeleton believed to
be lodged in the river bed there.

Daniel Knowlton, a Buffalo contrac-
tor, will supply a sand-pump to dredge
the river bottom around the skeleton,
which William L. Bryant, director of the
International Society of Natural
Sciences, believes has rested in the sands
there for 150,000 years.

The sand-sucker will not be able to
dredge the skeleton, but the hope is that
the bones will be found. It is be-
lieved that the dredge that brought up
a mammoth tooth found a week ago
crushed the animal's skull.

The tooth is about a foot long and
more than a foot in diameter. Scien-
tists believed it to be the tooth of one
of the prehistoric monsters which roamed
North America 150,000 centuries ago.

T
