

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, AUGUST 31, 1926

GROCERY REPORT FROM THREE CITIES OF THE DOMINION

The following comment on the market situation as regards food stuffs appeared in Canadian Grocer last week:—

The markets this week for general groceries have a slightly firmer undertone. Sugar has shown declines in both the west and the east but no changes have been effected in Ontario and Quebec. Drops throughout the dominion are turning out well, the present indications being that crops will be the heaviest since the banner year of 1915. In spite of the fact that business is quiet at the present time, manufacturers and merchants are more cheerful and are looking forward to a healthy, lively business this coming fall and winter seasons.

Montreal—Plentiful crops of vegetables and apples feature the market this week with very low prices. Eggs are still scarce and dearer. Butter is firm and lard and shortening are cheaper. Some cereal manufacturers have withdrawn all drop shipments in view of higher freight rates. Canned salmon of the best class will be very scarce this week. Canned asparagus is dearer. Canned peels are also higher. Flour may be cheaper. A shortage of molasses is expected this winter. Corn flakes are noted back at the old price. No change reported in the tea market this week. Prices of higher grade teas are held firm and the cheaper grades are said to be fairly well cleared from the market.

Coffee may be lower later in the season but there is no change at present. The nut market for the fall is very firm with higher prices expected. The wholesalers continue to sacrifice last year's stock in order to clean up before the new crop is in hand. The threatened tie-up between Montreal and the Niagara district in the fruit lines has been adjusted and things are normal for handling the peach crop.

Toronto—The markets generally are quiet to firm. Several lines of commodities have registered advances this week, including cocoa, washboards, pickles, Ritz, baking powder, olive butter, bicarbonate of soda and salt soda. Sugar refiners have guaranteed prices to wholesalers and manufacturers against a decline until the first of October. This indicates that no change can be expected in refined sugar for a month at least. One brand of corn flakes has advanced and another has declined. Cereals are ruling fairly steady although rolled oats are being offered below market quotations. Very little movement is noted in canned goods at the present time. Some jobbers report that their allotment of extra sifted peas (which is only a ten per cent. pack) are cleared up at open prices. Grecian currants are firmer with a tendency for higher prices. The opening prices on prunes have been named by the association and while the prices on the larger sizes show an increase over last year, the medium and smaller sizes are lower. Quotations in primary tea markets have shown another advance, but more difficult to obtain. Coffee futures are lower but this market will not be affected for a month or two. The nut market is stronger. Shelled walnuts are quoted higher. Fruits and vegetables are plentiful and prices are lower.

Few changes are shown in the produce and provision markets. Fresh and cured meats are steady. Eggs and butter are easier but quotations are unchanged.

PAINLESS EXTRACTION Only 25c.

LAUNCHING SEPT. 4.

Halifax, Aug. 30.—It was announced at the Halifax Shipyard today that the launch of the hull of the Canadian Mariner, the first steel ship built at the shipyard or anywhere else in Halifax, would take place on Saturday next. The Canadian Mariner was well advanced when the strike began at the yards and an earlier date had been set for the launch, but the strike delayed the launching. The Canadian Mariner will register 8,100 tons.

Malted Milk for Invalids

A nourishing and digestible diet. Contains rich milk and malted grain—extract. A powder soluble in water.

HOME FROM NEW YORK.

Dr. William Warwick returned on Sunday after a two days' visit in New York in the interests of the Child Welfare exhibit at the St. John exhibition. His two days in New York were rather hurried and strenuous ones, since in that short space of time he was in communication with practically all of the societies which are interested in the advancement of public welfare in New York. Dr. Warwick accumulated a vast amount of information and brought back with him a big stock of material, in the form of literature and knowledge for the perfecting of the child welfare exhibit here. Volunteers to take charge of the various booths have enlisted readily and the seventy or eighty people required will be on hand to demonstrate, to explain and to conduct each of the eighteen booths.

Teeth Do Not Stain

It is Film that Clouds Their Whiteness

All Statements Approved by High Dental Authorities

Free

A Ten-Day Tube of Pepsodent to show you its effects. See coupon.

Learn the Cause of Decay

Dental science has now traced most tooth troubles to a film. To that slimy film which you can feel.

That is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

The film is clinging. It enters crevices and stays. No ordinary tooth paste can dissolve it. A soapy tooth paste makes it more viscous.

So, despite your brushing, much film stays. Night and day it does its damage. It is the great tooth wrecker.

Science now has found a way to combat that film. The fact has been proved by many clinical tests. The method is now advocated by leading dentists everywhere.

For daily use it is embodied in a dentifrice called Pepsodent. And we are mailing 10-Day Tubes so that every home may try it.

Do This and See

We urge you for your own sake to write for this 10-Day Tube. See the results for yourself. Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin must be activated, and science has discovered a harmless activating method. The usual method is an acid, harmful to the teeth, so pepsin long seemed impossible. Now everyone may apply it, morning, noon and night. And the evidence is that this invention brings a new dental era.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Compare results with the methods you use now. Then judge for yourself what is best. Cut out the coupon now.

Buy Fabrikoid Upholstered Furniture

FURNITURE dealers, who give their customers the best possible value and service, sell furniture upholstered in Fabrikoid. These men know that Fabrikoid not only wears longer than leather, but that it costs less and looks better after long use. They realize that they can give Fabrikoid a 100 per cent guarantee, because Fabrikoid is built exclusively for such service.

And Fabrikoid cannot be told from leather in appearance—it's color, the grain, the texture and other details are such that it is often mistaken for leather, but there the comparison ends. Fabrikoid is a fabric with a coating that is impervious to grease or water, is more durable than leather, yet is soft and pliable, is sanitary, and above all more economical.

Insist on Fabrikoid upholstery. Your dealer will supply it.

Our book, "Fabrikoid in the Home," tells about Fabrikoid and gives many useful hints about how it can be used in the home. Write for your free copy today.

MAVIS TALC

Housecleaning is always fatiguing. When everything is made spot and span you are tired out and uncomfortable. But a sprinkle of Mavis Talc will help make you feel like yourself again. Millions of women have discovered this fact, and they always use it after their household work.

Mavis Talc is refreshing and truly IRRESISTIBLE.

At all good druggists and toilet counters.

Irresistible!

FLOUR

DROP IN FLOUR
IMMEDIATELY

Winnipeg, Aug. 30.—Winnipeg millers expected today to resume manufacture of the pre-war grades of wheat flour Wednesday, following relinquishment to control of grain markets by the Dominion board.

No more 95 per cent flour will be milled, they say. A drop of one dollar a barrel on the higher grades and \$1.50 on the government standard grades is expected to result immediately.

It was believed probable today that many of the mills in this district would resume full operations by the latter part of the week.
