## CONSTANTINE IS TO LEAVE FOR GREECE SOON

Invitation to Throne Was Received by Him This Morning.

Lucerne, Switzerland, Dec. 11.—Official notification of the result of the plebiscite in Greece and an invitation to return to Athens and reascend the Greek throne immediately were received by former King Constantine here this morning.

The Greek government notified Constantine that it will have a Greek cruiser and an escort of warships to receive him and his family at Venice on Wednesday.

Because of the health of Queen Sophia plans had been made for Constantine and his family to travel by way of Brindisi, but on account of the arrangements made for his return his plans have been changed and the family will leave Lucerne on an ordinary train probably on Monday.

Athens, Dec. 11.—The official result of the plebiscite in Greece last Sunday was 99,946 votes in favor of the return of King Constantine and 110,838 against. Void ballots aggregated 4,190, and 1,002 ballots were blank.

Athens, Dec. 11.—The Greek battleship Averoff left Piræus last evening for Venice, accompanied by a smaller group of vessels. Three hundred members of the Greek staff who were appointed during the regime of former Premier Venizelos have been supervised by royalist officers.

Lucerne, Dec. 11.—Prof. Stralt, former foreign minister and Constantine's chief adviser during his exile, who is reputed to be a pro-German, and Captain Stefan Paparigopoulos, commandant in the Greek navy and Constantine's aide-de-camp, are prohibited from returning to Greece by the Greek government in the telegram inviting Constantine to return.

**Tow Breaks Away**  
Boston, Dec. 11.—The steamer East Indian last night sent word by radio that the tow line by which she was attempting to bring into port the steamer West Waukegan had parted, and asked that other vessels stand by to assist in picking up the tow. The message said that the weather was foggy and the sea rough, gave the position as 40 miles southeast of Cape Sable.

The West Waukegan, bound from Antwerp for Baltimore, ran out of fuel a few days ago and was taken in tow by the steamer Collinsworth, which later was forced by shortage of oil in her own tanks to abandon the tow and race for port. The East Indian, bound from Hamburg for Philadelphia, attached a line to the West Waukegan soon afterwards.

**IN WALL STREET**  
New York, Dec. 11.—(130)—Heavy offerings of oil and rails at recessions of one to two points attended the early dealings on the stock exchange today, cancelling most gains made in yesterday's late rally. Steels, equipments, shipbuilding and motors also reacted.

## GOOD THINGS COMING TO THEATRES OF ST. JOHN.

NEW PROGRAMME IS A REAL TREAT AT OPERA HOUSE

Vaudeville Numbers Were Thoroughly Enjoyed by Large Audiences—Combine Clever Acting, Good Comedy, Popular Musical Renditions and Thrilling Acrobatics.

The new programme in the Opera House last evening proved highly entertaining to the large audience in attendance at both performances. The acts were all good and that they made a decided hit was evident from the hearty laughter and appreciative applause.

It was hard to decide which was the most popular for all seemed to strike the fancy of those in attendance.

Elising and Kellogg round rounds of applause in the presentation of a skit entitled "Applicants to a Motion Picture Director." Miss Elising enacted a number of characters in a typical manner and her clever acting was not lost on the appreciative audience. Her partner is a clever pianist and their skit made a decided hit.

Bart Doyle, an English comedy entertainer, who came here direct from vaudeville circuits in England and Australia, evoked rounds of applause with his amusing chatter, clever reading and a scene depicting a young backslider and his intimate friend, "His Lachkey."

His acting was a real treat and he is sure to make a big hit during his stay in this city.

Martin and Moore were also well received in a sensational gymnastic and aerial offering. Both performed clever and daring feats and received well merited applause.

The musical number is an exceptionally clever performer and some of his feats of strength while hanging in the air were never equalled on a local stage.

Earle and Bartlett, who appeared in an offering entitled "The Old Maid," were not strangers to the audience, many of whom remembered their clever skit staged at the Opera House some time ago. On this occasion they again score a hit and their wit and humor, combined with clever repartee, were both amusing and entertaining.

George Wheeler, who appeared in an instrumental novelty, was forced to receive a sensational ovation. His playing on a number of bottles was tuneful and his popular selections made a decided hit. On this occasion the programme was a real treat and will undoubtedly attract capacity houses tonight and again on Monday.

**WILLIAM FARNUM**

**UNIQUE TONIGHT**

William Farnum will be seen at the Unique Mon, Tues, Wed, in his de-luxe production "Wolves of the Night."

This is the most powerful and dramatic picture Mr. Farnum has ever appeared in, and the picture is well worth seeing.

**COMMITTEE ON MENTAL HYGIENE**

(Morning Chronicle). Dr. Fred C. Woodbury has been elected as Chairman of the Committee on Mental Hygiene which has recently organized in Halifax.

They expect to have a psychiatric clinic in Halifax. At first the clinic will be supported by the medical fraternity, but sooner or later there will be an appeal to the public for funds.

Dr. Woodbury told the Morning Chronicle reporter last night that there were over five hundred insane and feeble-minded people in Nova Scotia going loose, and that the Government has been approached a number of times during the last two decades to provide a clinic for such people, and also to aid in providing a home for the feeble-minded, but the appeal had met with no response.

**TEACH PREVENTION OF FIRE IN THE SCHOOLS**

New York, Dec. 11.—Compulsory teaching of fire prevention methods in the public schools of the United States and Canada was urged in a resolution adopted yesterday by the Fire Marshals Association of North America. It recommended that the association members aid in bringing about the passage by state and provincial legislatures of law providing such education as "one of the most effective means" of assuring a low rate of fire loss.

Chattanooga, Tenn., was chosen as the place for the next convention which will be held next September.

## THE TRUTH ABOUT SANTA CLAUS

Marked Progress Has Been Made by Halifax School for the Blind.

(Halifax Chronicle).  
The annual meeting of the directors of the school for the blind was held yesterday, and the board of managers for the ensuing year elected.

The reports of the superintendent, assistant superintendent, board of managers and the treasurer's statement were read, and on the motion of Lieut.-Governor Grant, seconded by G. S. Campbell, were adopted. The lieutenant-governor warmly expressed his gratification with the work accomplished during the past year as outlined in the reports, and congratulated Sir Frederick Fraser, the president, upon his long period of successful administration during which he has developed and built up an institution which is looked upon with pride by the whole of the province. Sir Frederick laudably accorded the lieutenant-governor's words in his own words.

A ballot was taken for the election of the board of managers for the coming year, and the following were elected: Hon. L. G. Power, G. S. Campbell, J. Walter Allison, Charles Archibald, O. E. Hector MacInnes, Chas. J. J. Harris, S. M. Brookfield, G. McGregory Mitchell, John Murphy, J. Fred Fraser, A. B. Waisell.

Among those present were Lieut.-Governor Grant, Sir Frederick Fraser, Charles Archibald, J. W. Allison, G. S. Campbell, O. E. Hector MacInnes, and others.

Superintendent Fraser reviewed the history of the school during the past half-century.

The school for the blind was first opened for the admission of pupils in August, 1871, and at the close of the present term, in June, 1921, it will have completed its fiftieth year of active work in educating and training the blind youth of the maritime provinces and Newfoundland. Commencing with four pupils in 1871 the number has steadily grown until there are today upon the rolls 100 registered pupils.

**The Attendance.**  
It is gratifying to note that the attendance of pupils shows a distinct gain over the two preceding years.

The repairs to our buildings made necessary by the great explosion of 1917 were completed at a cost of \$28,049.01, and of this amount the Halifax Herald has paid us \$18,000.00, which leaves a balance of upwards of \$10,000.00. This has to be added to the deficits on current account which have given year after year a heavy loss.
