THE CHANGE HELPS.
The old saying that "it's an ill wind that blows nobody good," has the element of truth in it today while pedestrians were trudging along in the rain speaking in uncomplimentary way about the weather man and the snow and ice in their street cars, the storm and mild weather were working in the interests of the railway managers. Officials of the C. N. R. and C. P. R. say that the change in the weather is a blessing for them, as it will soften the snow and ice in their terminal tracks and give them an opportunity to get freights moving again. Providing it remains mild for a couple of days, they say, congested conditions will be overcome and traffic moving according to schedule.

While the medical regulations prevented friends from attending the sympathy was nevertheless shown by a large array of floral remembrances and letters of condolence. There were wreaths from her little schoolmates in grades 1 and 2 at her little street school, from the St. John Medical Society and from the Ladies' Auxiliary as well as from a host of friends of the family who not only now with death in the home but during the last week or more, have been busy in their kindly acts of sympathetic interest.

ASK CITY FOR BETTER OFFICE ACCOMMODATION

Local Branch of Employment Service of Canada Want More and Better Facilities—Delegation to City Hall.

A special meeting of the common council was held this morning to hear a delegation representing the Employment Service of Canada with regard to the obtaining of more suitable quarters for the local office. The delegation consisted of George P. Hennessey and Harry Heaton of the St. John branch, Fred A. Campbell and Gus Langbein, of the Trades and Labor council, J. A. Grant, of Grant & Horns and William Knoll, of the James Pender & Co. Ltd. The mayor read letters received from Mr. Pickle, master mechanic of the C. P. R., and B. Mooney & Sons, endorsing the work of the service and verifying the necessity for better quarters. The mayor also said he had the verbal endorsement of Alexander Wilson, of the Wilson Box Company.

Mr. Hennessey said that the office at 49 Canterbury street had not proved suitable, being difficult of entry and was not fitted so as to allow the proper carrying on of the work.

Mr. Barry said that this bureau was doing away with the bringing in outside labor by keeping the employers and workmen in touch with each other in the city.

Commissioner Bullock also spoke in favor of the change, saying that the bureau was doing good work.

It was said by the mayor that the present office was chosen by a representative of the service, but it fell to the city to pay the rent.

COMMENT FROM CHAIR OF POLICE MAGISTRATE

The arrest of Maund Groleau by Policeman Linton this morning at 2:30 on charge of wandering about the streets and not being able to give a satisfactory account of himself, caused considerable comment on the part of the magistrate in the police court this morning to have her case disposed of. He said every girl in the street after 7 o'clock in the evening should be arrested and brought before him and the matter investigated in the interests of morality. He continued by saying that Miss Koss, the matron, was detailed last year to go out in the streets in the evening and warn young girls about walking in the streets. According to the magistrate her duties were brought to an end by criticism in the press and she was withdrawn. He said the press was to blame. He again referred to the girls going along the street and trying to "pick up fellows" by shuffling their feet in order to attract their attention. This remark was followed by the proverb "Beware of the woman who goeth around making a noise with her feet." In this regard, he said, "when I think of the press that proverb comes to my mind."

DEATH OF PATRICK FITZPATRICK

After an illness lasting for quite a number of weeks the death of a well-known citizen occurred late yesterday. Patrick Fitzpatrick, who had been associated with the business life of the city many years. He died at his residence, 100 Waterloo street. He was a native of Ireland, born in Newcastle, N. B., in 1854. He came to this country when a boy in August, 1854. He engaged as an apprentice with the man named Beamer in cabinet making in Princess street and attained much success in this. Having mastered the trade, he purchased the business and established it on his own account in 1869, continuing in this until a year or two after the big fire when he engaged exclusively in undertaking and funeral directing.

He was recognized as having a thorough practical knowledge of his business. He later removed to Waterloo street and carried on his business until about five years ago when he was succeeded by his sons, Patrick J. and Philip, who now conduct it under the name of Fitzpatrick Bros. Mr. Fitzpatrick introduced the art of embalming in St. John and was first president of the Maritime Funeral Directors' Association. He was much interested in the advancement of his work and to this end was instrumental in having a school of embalming opened in the Berryman building by Professor Clark of Boston. In his younger days he took an active interest in the Father Mathew Association in its endeavors in the temperance movement, and was also a member of the Irish Friendly Society. In politics Mr. Fitzpatrick was a Conservative.

Estimated by a wide circle of friends and liked for his kindly disposition, Mr. Fitzpatrick's death severs a link with the early business life of the city. His wife died about nine years ago. He is survived by three sons and three daughters. The former are William J. of the revenue department, Patrick J. and Philip of Waterloo street, and the daughters are Sister Mary of the Cross of the Good Shepherd Convent, Montreal; Mrs. P. J. Quinn and Mrs. William Showers of this city.
