**MARKED PROGRESS SHOWN BY THE MERCHANTS' BANK**

The Merchants Bank of Canada enjoyed a very remarkable year of progress during the twelve months ended April 30. The paid-up capital of the bank was enlarged during that period by \$1,400,000, representing an income of 20 per cent. Not only did the new capital immediately justify itself, so far as earnings were concerned, but it was accompanied by a growth in the total volume of business which was almost sufficient to keep the ratio of capital to assets unchanged for the year. The assets of the bank are 15.44 per cent. greater than they were at the beginning of the year having increased from \$16,000,000 to well over \$19,000,000. Of this growth \$24,000,000 is accounted for by the remarkable expansion in deposits, which largely represent the savings of the clients of the bank, and which are now over \$163,000,000.

The bank was able to maintain a strong liquid position throughout the year. Quick assets at the end of April were over \$12.3 million. The bank were at a ratio of 40.81 per cent. to the total public liabilities, amounting to a little under 180 million dollars. The bank's share in the task of financing the commercial and individual business of the Dominion was well attended to, the sum of \$113,198,913 being devoted to current loans and discounts in Canada.

The shareholders benefited largely by the prosperity of the institution. The annual distribution of profits was increased by the addition of 1 per cent. bonus to the 12 per cent. dividend regularly in force, while the shareholders also enjoyed the privilege of acquiring a large issue of new stock at much less than its market value. The distribution of profits was, however, moderate in comparison with the earnings, which were at the rate of 20.48 per cent. on capital stock, or 10.4 per cent. on the actual investment of the shareholders, when the Rest Fund is taken into consideration. Of the remaining profits \$100,000 was written off the premises account, and \$700,000 added to the rest fund, but a portion of the latter amount was derived from the profits of previous years, as the profits carried forward now stand at \$690,774.

**CANADIAN ELM IN SHAMROCK IV.**

Sent to New York From Toronto to Replace Original Spreaders.

(Mail and Empire, Toronto.)  
Interest in the race for the America's Cup off Sandy Hook this summer between Sir Thomas Lipton's challenger, Shamrock IV, and the American defender, either Resolute or Vanitie, is steadily growing, and Canadian yachting enthusiasts are very keen followers of everything that is published in connection with the race. Commodore Amelius Jarvis, of this city, was among those present at the launching of the challenger, and due to his efforts in the cause, Canadians have reason for still greater interest in the prospects of the Lipton boat.

Since her arrival on this side of the Atlantic the Shamrock's equipment has been stored in a shipyard, and unfortunately, a fire broke out there and destroyed her spreaders. During the trial spins following the launching she is using temporary spreaders, and on his return to Toronto a few days ago Commodore Jarvis instituted a search for material to replace the original spreaders, and as a result has shipped to New York a quantity of hard rock elm, and it is hoped that Canada will be represented by more than interest in the race.

The Canadian yachtsman is decidedly partial to the challenger, and will return to New York in a few days to see

ent at the final trials of the British boat. The Shamrock should realize the hopes of the perseverant Britisher if the hopes of Designer Nicholson are fulfilled. Nothing has been left on the boat that will retard her speed, and it is expected that she will have to give the defender a time allowance. Everything that can be spared from her has been removed, and in addition, her sail area is the greatest that any contestant in the race has ever carried, despite the fact that her length is considerably less than some of her predecessors. Her lightness and speed are expected to reward Sir Thomas Lipton for his interest in the race, evidenced by sending over challenger after challenger. The British yachtsman sailed from Liverpool on Wednesday for New York, and will remain on this side of the Atlantic until after the race.
