PATTI'S FIRST AUDIENCE.

Adelina Patti once gave the following account of her first audience. At six years of age I was a prima donna of the nursery. When I had been put to bed on my return home with my father and mother from the opera I used to make sure that they and the rest of the famiy were asleep, and then I would hop out from beneath the counterpane and fancy myself a great cantatrice, bowing before the plaudits of a huge audience. I admit my audience was a little apathetic, but, after all, that is not to be wondered at, for they were only a row of dolls which I had arranged on chairs before me.

The Women's Missionary Society of Exmouth street church held an anniversary service in the church last evening, with Mrs. S. Howard presiding. The usual reports were presented and all proved encouraging. The musical programme was of special interest and included solos by Miss Verrinder and Miss Lindsay. Miss Fisher, superintendent of the French Methodist Orphanage, was present and addressed the meeting and spoke on the work of the home. She told first of the life of the French and gave interesting figures as to the number of attendance at the orphanage.

Through Influence of Dr. Pugsley Trains No. 9 and 10 Will Stop at Station

Through the influence of Hon, Mr. Pugsley it has been arranged that hereafter I. C. R trains Nos. 9 and 10 will, when signalled, stop at Renforth. This will prove a great convenience to the many summer residents at that place and the change will be particularly appreciated when the suburban rains are taken off. No. 9 is the fast trains are taken off. No. 9 is the fast express which arrives in St. John at 6.25 a, m. and No. 10 is the 11.25 p. m. express for Halifax. These trains have only stopped at Renforth on rare occasions when parties of persons to and from the city have obtained special permission from Morcton. The latest hour at which Renforth residents can prove to their homes from the city is casions when parties of persons to and from the city have obtained special permission from Mercton. The latest hour at which Renforth residents can now go to their homes from the city is at 10.40 p. m., which is too early for those attending theatres, but the 11.25 m. m. train will suit all and the stopo. m. train will suit all and the stop-ping of the early morning train will et suburbunites make connection with all other trains or boats leaving the city. Renforth is thus, through the efforts of Dr. Fugsley, on practically the same basis as Rothesay in so far as the train service is concerned, and suburbanites will properly appreciate what her been done.

That enthusiasm prevails among the young men adherents to the Liberal party was evident by the large body that was present at the third meeting held by the Young Liberal Club in grayman's Hall last night. The meeting started at eight o'clock and lasted until after ten o'clock, during which time there were many lively and interesting debates on matters pertaining to the best interests of the club and the party.

The vice-president, W. J. Magee, occupied the chair, owing to the unavoidable absence of the president, Walter E. Foster. J. A. Barry read the minutes of the previous meeting and they were adopted.
