

SUFFRAGE LEADER CHANGES HER MIND

Well Known Writer Declares
Against Franchise

Would Mean Socialism and Free Love She
Says—Evils of Ignorant Voting Too.
Great Now, She Thinks.

GREENWICH, Conn., Feb. 12.—Mrs. Flora McDonald Thompson of New York, formerly of Greenwich, who has until recently been Paris correspondent for an American weekly publication, and who is a contributor to magazines, has caused a sensation by withdrawing from the Greenwich Equal Franchise League, of which she was an officer, and issuing a denunciation of the woman suffrage movement.

In an interview Mrs. Thompson said: "I have resigned because experience has driven me unwillingly enough, but reluctantly to the conclusion that the right of suffrage for women, reduced to a final equalization means practically nothing, or it means socialism and free love."

"The argument that our best of universal suffrage means votes for women is unquestionably sound, but the evils resulting in the United States from ignorant irresponsible voters are so manifest and why increase them by adding numbers of ignorant and irresponsible women voters to the total."

Had Given Up All Hope of Living.

Heart Trouble Cured by Milburn's Heart and Nerve Pills.

Mrs. Andrew Savoy, Gratton, N.B., writes: "In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine, but I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law."

"One day a friend came to see me, and calling me by name, said, 'Liane, if I were you, I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' I was able to say, 'Yes, I feel a good deal better this morning.' He said, 'Well, I will get you another box right away.' I took two boxes and three doses out of the third one, and I was perfectly well and have not been sick since then."

"I will never be without them in my home for fear I should have them for Milburn's Heart and Nerve Pills, I would not have been alive now."

SELL STAMPS FACE DOWN TO DODGE THE MICROBES

NEW YORK, Feb. 12.—As a precaution against the spread of germs the New York post office employees have begun delivering all postage stamps face down on the counter. The measure is taken because of many complaints from physicians and boards of health that stamps when pushed across the counter with the adhesive side down, pick up germs which are taken up by the tongue when the postage is collected affixing the stamp.

BRONCHITIS If Neglected, it soon reaches the Lungs and may Prove Fatal.

Mr. G. L. Garwood 116 Millicent St., Toronto, writes under date of September 13, 1908: "One year ago this spring I contracted a severe cold in the chest, which developed into Bronchitis. I took three kinds of medicine and found no improvement. A friend of mine advised me to try PSYCHINE, and within days I felt like a new man again. I desire to let others know what a valuable cure you have in PSYCHINE. For several months when I felt that I was well again, and for the sake of others who may be troubled with this terrible ailment, I stop that cold or the results will be serious. You can do this by toning up your system with PSYCHINE."

NAVAL INCIDENT ON OPERA BOUFFE SCALE

Insurgents Capture Steamer; Pursued by
Sail Boats They Abandon Her—
Captain Found Dead.

MANAGUA, Feb. 11.—The steamer Managua, which was formerly taken at sea, was captured today at San Ramon, on the northern shore of Lake Managua, according to an announcement by the government tonight. She had been abandoned by the captain. The body was found on board.

The Managua was apparently undamaged, but captors having run her into a cove at San Ramon and deserting her, no particulars are available as to how Captain Forgue met his death.

The pursuit of the Managua as she steamed out of the port, manned by her captors yesterday, created great excitement among the inhabitants, but was a good deal of an opera bouffe affair.

When the boarding party overpowered the crew, not, however, until the shrill whistle of the little vessel had spread the alarm, the population flocked about the steamer to the wharf, but arrived only in time to see the Managua get up full steam and draw rapidly away to the northward.

Immediately three sailboats and a small gasoline launch, all equipped with small cannon, put out in pursuit, and as their small sails and a chugging gasoline engine could drive them.

The water-front was lined with excited crowds, peering anxiously through glasses after the pursuing flotilla, expecting to see a naval engagement. The Managua soon distanced her pursuers, however, and disappeared from view.

General Forts Carrero reported today a skirmish with the insurgents at Sebaco, in which he was wounded. The insurgents, according to the report, were repulsed.

HOW TO DO IT.

A "Man Doctor" unequivocally declares that women do everything better than men. They don't cook so well, they don't make dresses quite so well, they don't so we have heard, though the medical adviser is dumb on this point, even trim hats quite so well as a man who sets himself to millinery.

If you have a feeling that your wife doesn't cook so expertly as you ought, just you take home a bottle of H. P. Sauce tonight. Suggest to her, in the mildest possible manner, that you like H. P. with cold meats, that it's good with eggs and bacon, delicious with crust of bread and cheese, unparelled as a flavoring to insipid gravies, ragouts or made-up dishes. In this, as in most other domestic matters, a grain of help is worth a bushel of fault-finding. But you should be quite sure that it's H. P. Sauce that you take home with you.

Sleep Was Impossible

ALMOST DRIVEN TO DESPAIR
UNTIL CURED BY USE
DR. CHASE'S NERVE FOOD

No symptom of nervous prostration is more to be dreaded than the inability to sleep. Man can exist for considerable time without food, but without sleep, and the restoration which it brings, he soon becomes a mental and physical wreck.

When you cannot sleep and rest look to the nervous system and remember that lasting cure can only be obtained from such treatment as Dr. Chase's Nerve Food, which naturally and gradually restores the exhausted nerves to health and vigor.

Mr. Wm. Graham, Atwood, Ont., writes: "My wife had been ill for some time with nervous prostration, and we had two of the best doctors we could get, but neither of them did her any good. She gradually became worse and worse, could not sleep and lost interest in life. She was almost giving up in despair when a friend advised the use of Dr. Chase's Nerve Food."

"From the first box my wife used we noticed an improvement and after using six boxes she is completely cured and as well as she ever was, eats well, sleeps well and feels fully restored. I cannot say too much in praise of this valuable medicine for I believe my wife owes her life to its use."

Every dose of Dr. Chase's Nerve Food goes to the formation of so much rich, red blood and is therefore certain to do you good.

Good, Better or Best? A VITAL DIFFERENCE IN BREADS

QUALITY you know is comparative. Just as much so in bread, as in woollens or linens.

If you make bread at all you naturally want it to be good—as good as, or better than your neighbor's.

But is your bread as good as it ought to be? Does it furnish its full quantum of health and strength? Is it nutritious as well as delicious?

Ordinary flour makes fairly good looking bread. But if you care for food value, for nutrition, for digestibility, for bone and muscle and blood building quality, you will want a flour rich in the highest quality of gluten. You will want the flour that makes bread not only good-to-look-at, but also makes it strength-producing, health-producing.

But where can you get such flour and how can you tell it from the kind that isn't nourishing? The safe way is to get OGILVIE'S "ROYAL HOUSEHOLD". Then you can't make a mistake.

"ROYAL HOUSEHOLD" is the finest flour in the world and makes the best bread in the world. And it is just as good for Pastry as it is for Bread. It is the one flour which has proved an

unqualified success for every household purpose. And its absolute uniformity guarantees you against failure.

ROYAL HOUSEHOLD FLOUR isn't just ordinary wheat sent to an ordinary mill and ground by the ordinary process. It is Manitoba Red Fyfe Wheat which is especially rich in high quality gluten, scientifically milled and subjected to scientific chemical tests as well as baking tests before it comes to you in sack or barrel, etc.

No wonder "ROYAL HOUSEHOLD" makes the finest and most nourishing bread. No wonder it makes the most delicious and healthful pies, cakes, biscuits, muffins, rolls.

Bread made from ROYAL HOUSEHOLD FLOUR is vastly more nourishing than bread made from ordinary flour. Also it is lighter, flakier, more delicious as well as more nutritious.

Order "ROYAL HOUSEHOLD" at once. Don't delay. The sooner you commence using this finest of all flours the better for your family.

STORM IS GENERAL IN EASTERN STATES

(Continued from Page One)

WASHINGTON, Feb. 12.—The storm which has spread a mantle of snow over the Eastern States is today central over New York City and late tonight will move on and out through the St. Lawrence Valley. Reports from the weather bureau indicate that the fall of snow has been general as far south as Tennessee and North Carolina, but has not been accompanied by any great changes of temperature and little hardship from cold has resulted. The heaviest fall was in New York and Pennsylvania. Through the Southern States it was light and in some cases changed from snow to sleet and then to rain. The storm originated in the Rio Grande Valley on Wednesday. As it moved east it was accompanied by high winds along the Atlantic coast, far south as Florida and on the Gulf of Mexico.

ROCHESTER, N. Y., Feb. 12.—The record snow storm of the season visited Rochester and Western New York last night. The local weather bureau reports a precipitation in the city of 12 inches on the level, but the streets and suburban roads are piled with drifts many feet high and country roads are impassable. Traffic in the city and on steam roads is crippled. It is still snowing.

UTICA, N. Y., Feb. 12.—Railroads throughout the Central and Northern sections of the state are badly crippled today by the great fall of snow last night, and which keeps up this morning. Fortunately there was no wind and the snow did not drift. All trains are reported late and some of them have been abandoned. Delays in travel will be from one to five or six hours.

BOSTON, Feb. 12.—A slight rise in the temperature early today changed the heavy snow which floated lightly down upon New England last night into a heavy driving storm of sleet.

One shipping disaster was reported early today. A small fishing schooner went ashore on the rocks at Straws Point, N. H. The crew were taken on by life savers. The vessel will probably be a total loss.

Delays on the steam and trolley roads were not great, except at a few points.

PITTSBURGH, Feb. 12.—Seventeen inches of snow fell during a fifteen hour storm that started at three o'clock yesterday afternoon and crippled trolley lines throughout this section of the country, delayed all through and suburban traffic of the roads and made even the city streets well nigh impassable. From almost every community in western Pennsylvania, west Virginia and eastern Ohio, reports of suspended traffic and snow blocked high-ways came today.

Although the storm let up early today the weather bureau predicted that there was considerable more to come.

NEW ORLEANS, La., Feb. 12.—A scheduled ten-round fight between Grover Hayes and Fighting Dick Hyland, at the Royal Athletic Club here tonight, has been called off. Hayes has a cut over his eye, the result of sparring practice and is unfit to go into the ring.

TOKIO, Feb. 12.—The budget passed after very slight amendments by the house of representatives today.

RYAN'S CONFIDENTIAL MAN DISAPPEARS

Foul Play Suspected—Glooly Had Been
Divorced—Detectives Have No
Clue

NEW YORK, Feb. 12.—Michael Glooly, confidential man for Thomas Fortune Ryan, the traction millionaire, has disappeared and Mr. Ryan has authorized a statement that "it seems there is something more than a possibility that the man has met with foul play."

Glooly disappeared on Christmas Eve, taking practically no money with him and leaving behind uncashed a check for \$1,000 given him by Mr. Ryan for Christmas. He had obtained a divorce about a month before.

In his statement made public today Mr. Ryan says that private detectives have been searching for Glooly since a week after his disappearance.

THE WINTER PORT

Incoming steamers will possibly be delayed by the heavy snow storm. A report reached the Allan Line office this morning that the steamer Tunisian was 150 miles southeast of Cape Race at 11:30 o'clock today. The steamer is expected to make Halifax early tomorrow morning and will come around to St. John on Monday. The majority of the 800 passengers will leave the steamer here. Evidently the Tunisian encountered some nasty weather, as she will be late in reaching Halifax.

Donaldson Limer Salceda from Glasgow, is not yet reported at the Donaldson Line office. She should reach port tonight or on Sunday. The steamer is bringing a heavy cargo.

HOCKEY TROUBLES

The latest development in M. P. A. A. A. circles is the suspension of all players in the Nova Scotia Hockey League. The matter was the subject of much discussion about the streets here this morning. The local septette had been planning to have several Nova Scotia teams play here during the next few weeks, it now seems that the Amherst-St. John match scheduled for Saturday next, will be called off. This will be a great disappointment to local enthusiasts.

A local hockey player said today that Gregory and Norman, who were causing the trouble, were in a peculiar position. Last year the men made affidavits that they did not receive money, and now claim they were paid. The suspension of the Nova Scotia players will cause considerable trouble throughout the province.

TORONTO, Feb. 11.—Should the female school teacher starve to death or get married? This was the subject of a meeting of the Board of Education last night. Miss Martin, the woman member, claiming the younger teachers were receiving hardly enough to live on. No definite decision was reached, but it is likely that the minimum salaries will be increased very liberally.

Convince yourself that it is worth the price

THE secret of the greater flavor and body of Union Blend Tea—the choice aroma—lies in the fact that there is not a single full-grown tea leaf in it. I use nothing but the tender, young sprouts hill grown in Ceylon and India, and I get the pick of the crops every year. This ensures quality. In my thirty years I have gathered together a staff of expert blenders who devote their entire time to make Union Blend

the one perfect tea. That's why I stake all my business reputation on its delicious, refreshing flavor. Union Blend Tea comes to you in a hermetically sealed packet that keeps all the strength and flavor in the leaves. It's as different from ordinary tea as—well, there's no comparison, really. You can prove it—right in your own tea-cup!

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is only an advertisement—the tea itself is worth the price, fully.

UNION BLEND TEA the Tea that satisfies

Look for my picture
I HAVE no doubt you wonder why I use my picture in advertising a tea. Let me explain—it is for your protection. When you buy, look for this picture on the end of the packet; it is your guarantee that the packet contains Union Blend—the tea that satisfies. I firmly believe that you are going to like Union Blend Tea when once

you try it—grocers tell me that of all who once start using it, ninety-five per cent. continue to buy it. Remember, also, that you have only to buy one, single, half pound packet to convince yourself of the truth of my claim—will you give me the chance to prove my words? I shall be perfectly satisfied to accept Harry M. Foster your decision.
