HORSE MARKETS.

Address By Dr. Hugo Reed at Charlottetown, P. E. I.

Reported By Mr. Hodson of the Department of Agriculture, Ottawa.

The following is a synopsis of an address delivered by Dr. J. Hugo Reed, one of the expert judges at the recent Charlottetown fair.

It is a man in breeding for the market he should find out what the market demands, and then make up his mind as to what style of horses in demand he can produce at most profit to himself.

The distinction between carriage horses and roadsters is evidently not well understood by exhibition managers or people in the maritime provinces. These are two distinct types of horses, and should not be judged in the same class.

Breeding Carriage Horses—Standard bred owners claim that their stallions will get good carriage horses. This is true to some extent, but the percentage is very small.

POPULAR FANCY FOR RHODES' IDEA.

People Are Interested in Scholarships, Says Dr. Parkin.

(Toronto Star.) Dr. George R. Parkin, the commissioner who has the Rhodes scholarships in charge, arrived in Toronto this morning from New York, accompanied by Mrs. Parkin.

"Our plans," said the doctor, "are not yet definite enough to make public. We have yet to decide whether the scholarships shall be for post-graduate or under-graduate work, and also the conditions on which they are to be granted.

"The people are interested," he replied, "and everything about the plan is being discussed. Rhodes' idea has caught the popular imagination, and people feel that there is an idea behind it, and it appeals to them in a way that Carnegie's mode of spending his millions does not.

The London Times of November 17 reports the following decision by the Judicial Committee of the Privy Council:—Present—Lord Macnaghten, Lord Lindley, Sir Andrew Scott, Sir Arthur Wilson, and Sir John Winfield Bonser.

The Imperial Bank of Canada v. the Bank of Hamilton.—An appeal from a judgment of the Supreme Court of Canada, of May 21, 1901, affirming decisions of the Court of Appeal for Ontario and Mr. Justice Macnaghten, The Hon. Edward Blake, K. C., and Mr. Bicknell, K. C. (both of the Canadian bar), appeared for the appellants; Sir Robert Reid, K. C., and Mr. Douglas C. (of the Canadian bar), for the respondents.

The arguments were heard in July before a board composed of Lord Macnaghten, Lord Robertson, Lord Lindley and Sir Arthur Wilson, when judgment was reserved.

Lord Lindley, in delivering the judgment of their lordships, said the question raised by the appeal was whether the Bank of Hamilton was entitled to recover from the Imperial Bank of Canada \$486 paid to it in respect of a cheque in the following circumstances: One Bauer was a customer of the Bank of Hamilton and he drew a cheque upon that bank for \$5. The word "five" was written, and a considerable space was left between that word and the next words, "one hundred and thirty-eight and no/100ths." MOTIVE POWER FAMINE.

Big Trunk Lines Short of Locomotives—Freight Congestion Widespread.

NEW YORK, Dec. 6.—A number of the trunk lines are threatened with what an " motive power famine." The big locomotive plants of the country are overwhelmed with work, deliveries are behind and freight congestion is widespread.

It is reported that the Pennsylvania has met the situation by leasing locomotives from companies whose traffic is curtailed by the close of navigation. Vice-President Rea is said to have made a contract with the United States Steel Corporation by which the entire motive power of the Duluth and Iron Range railroad is to be turned over to the Pennsylvania lines for the winter.

Discussing the "famine" generally, an officer of the Erie said that the road would be glad to get its hands on 50 locomotives.

Other trunk lines are in the same condition as regards the lack of locomotives, and the recent general freight congestion is largely explained by it.
