

INTERNATIONAL COMMISSION IN SESSION HERE YESTERDAY

Hearing in Connection with Proposed Dam which Hydro-Electric Company wishes to Build in River — Mr. Baxter Appears for St. John and Charlotte County Fishermen.

The International St. John river commission held two sessions here yesterday in the equity court room, Pugsley building. The morning session was convened at 10 o'clock and the afternoon session at 3 o'clock. Both sessions were for hearing in the matter of the proposed dam to be constructed by the St. John Hydro-Electric Company at a point about 40 miles above Fredericton.

The hearing was called upon the application of Thomas Protection Association, on behalf of the Tobique Salmon Club, of Lord Strathcona and other interests, claiming that the proposed dam would prove injurious to various industries. All of these were represented by counsel.

The members of the commission present were M. D. Teed, chairman, John P. Jones, Canadian commissioner, and the two American commissioners, Hon. George A. Murchie, of Calais, and Peter Keegan, of VanBuren.

The different interests were represented by counsel. Hon. Oscar P. Fellows is counsel for the United States and A. J. Gregory, K. C. and Hon. F. Jones, counsel for Canada. R. B. Hanson, of Fredericton, and W. A. Ewing, K. C. of St. John, representing the St. John River Hydro-Electric Co.; R. B. Taylor, of Fredericton, representing Lord Strathcona and the New Brunswick Railway Co.; K. J. MacRae, representing the New Brunswick Fish and Game Protection Association; J. B. M. Baxter, K. C. representing the St. John harbor salmon fishermen; J. F. Calder, of Campbellton, representing the department of marine and fisheries, and J. F. Winslow, of Fredericton, representing the Tobique Salmon Club.

The president stated that the commission would consider the matter of the proposed dam at Meductic, and Hon. O. F. Fellows, stated that the United States was represented to protect the interests of their citizens rather than to take an active part.

At the morning session after the purpose of the sitting had been announced counsel for the hydro-electric interests objected that the commission had no jurisdiction to deal with the matter, but after exchange of opinions by counsel for the different interests, taking of evidence was begun on behalf of the lumbering interests.

J. B. M. Baxter, M. L. A., who is counsel for the salmon fishermen of St. John county, asked to be heard on behalf of the fishermen, who would be injured by the erection of the proposed dam. Opposing counsel, however, objected to the question of the fishermen being introduced into the hearing at all. At the request of the chairman, Mr. Baxter deferred his statement until the commission had an opportunity to pass on the question.

A. M. Rowan, the first witness of the hearing, was called by Mr. Winslow, on behalf of the lumbering interests. John B. Gregory, of Fredericton, manager of the York and Sunbury Milling Co., at Gibson, also testified, and stated that in the St. John river at the point mentioned for the proposed dam, a dead water would be created, and an adverse wind would cause the passage of logs and strand many of them on the banks. He said he believed a modern dam with an apron would still injure the rafters.

The afternoon sitting opened at 3 o'clock. The session was principally devoted to the hearing of two witnesses called by J. B. M. Baxter in the interests of the fishermen who would be injured by the proposed dam. At the morning sitting the commission had deferred hearing the case of the fishermen as objection had been raised by opposing counsel, but after conferring during the recess, the commissioners consented to the admitting of the fishermen as parties to the matter.

S. J. Chapleau, of Ottawa, member of the board of consulting engineers, was called during the afternoon for the commission in reference to a statement made by Mr. Chapleau at the last sitting of the commission in June, Mr. Gregory pointed out that he did so to ascertain on what grounds he (the engineer) based his statement. Witness said that he founded his statement on the data gathered by the field corps and which is found in the report to be submitted to the two governments.

Considerable time was taken up with questioning and cross questioning, the evidence added being technical to a great extent.

As Mr. Winslow had no witnesses ready to testify for the lumbering interests, the commission then heard the witnesses called by Recorder Baxter on behalf of the salmon fishermen.

The first witness called was Joseph Galbraith of Lorneville, who, sworn, said there were about six or seven hundred people in Lorneville, the greater majority of whom depend on the fisheries for their livelihood. While some small farming is carried on, the fishing forms the chief support of the people.

Mr. Baxter—"What is the average value of each boat, with nets, etc?" Witness—"Four hundred dollars. The boats are also used for shad and gaspereau fishing, but mostly for salmon."

In reply to counsel witness said he had considerable knowledge of the habits of salmon and Bay of Fundy and St. John harbor salmon spawn mostly up the St. John River. He had always heard that their spawning ground was above the place where he understood the proposed dam is to be erected.

Mr. Baxter—"In event of a dam twenty-five feet high being erected across the river, what would be the effect on the spawning?"

Ans.—"In a way it would be a thing of the past."

In reply to a question witness said that he had never seen a fishway that had proved a success.

By the erection of the proposed dam he considered that the livelihood of the St. John County salmon fishermen would be imperilled.

Witness was then cross-examined by Mr. Ewing.

Thos. P. Allen, secretary of the Tobique Salmon Club, was the next witness called by Mr. Baxter. He told of

the amount of experience he had had in the matter of fishing, being well acquainted with the habits of the fish. From expert opinion, gathered when a bill was to have been presented before the legislature, he had found that a fishway had not yet been erected that the fish actually did pass through.

Mr. Baxter—"Are you able to say that the salmon resort to the St. John River for spawning purposes?"

Ans.—"Yes. It is the nature of the salmon to proceed to the very head of the waters to spawn. They seek the gravel and pure water and there they find the farther up the river they go."

In reply to a question he said that if some artificial obstruction were built, even if there was a fishway a delay would be caused in the salmon getting to the spawning grounds which would be injurious.

The Tobique, he held, is the principal spawning grounds of the Bay of Fundy and St. John harbor salmon. He said that the dam would obstruct and delay the fish on their way to the spawning grounds.

After hearing this witness the sitting was adjourned to meet this morning at 10 o'clock in the same place.

LORD ROSEBERY'S JESTS.

Lord Rosebery, as president of the Edinburgh Philosophical Institution, presided at the opening meeting of the session, when Sir Gilbert Parker, M. P., delivered the inaugural address on "Books and the Man."

Lord Rosebery, proposing a vote of thanks to Sir Gilbert Parker, said that he was sure that everybody there would agree that they had never in the Philosophical Institution heard a more brilliant or eloquent address.

Referring to remarks of Sir Gilbert Parker, Lord Rosebery said: "One cannot help feeling when one confesses one is a very Victorian that they have shared some of the odious characteristics of everything of that time."

He must confess that they were at that time very barren in art. He did not admire early Victorian literature, but he did not think it was a failure. He said that the present day, he added, "they are not satisfied until around, above and below the figure there is a huge cloud of female figures of massive and voluminous velling and shrouding altogether the central figure. Even in the fine statue of Queen Victoria we have in London, there is a question of allegorical figures which do not in the least to my mind, assist the effect of the statue, but seriously deteriorate from its general beauty and draw aside attention from the honored figure of the Sovereign herself."

Passing to the subject of literature, Lord Rosebery referred to newspapers. He expressed satisfaction that they gave, with their enormous mass of voracious intelligence, a grain or two of literature.

"They do not always deal with politics and football, and things of that kind," he said; "they give you recreation. Two years ago—or, it may have been last year—all the readers of London newspapers were engrossed on one topic. It absorbed all their receptiveness. It was, I think, whether you should not eat standard bread cooked in paper bags. (Laughter.) For months and months we got nothing from the Press but this humiliating stuff. Now I cannot hear of anyone who touches standard bread or who has even seen a paper bag. (Laughter.) I do not say anything in disparagement of the newspaper. Press when I urge that it might be well if from that engrossing form of literature we did find time to steal to the higher matters."

NOTED METHODIST MINISTER DIED AT HAMPTON YESTERDAY

Rev. Edwin Evans Passed Away Yesterday Afternoon — Had Long and Useful Connection with Church.

Special to The Standard. — The Rev. Edwin Evans, superannuated minister of the Methodist church, died at his home on Everett street, Hampton Station, at 2:30 p. m. today in the 79th year of his age. He was born at Hunstley, Yorkshire, England, in March 1834. His Methodist history goes back to his grandfather, James North, who was converted under the ministry of the Rev. John Wesley.

Dr. Evans came to Canada when twenty-three years of age and took up his ministerial charge at Dartmouth, N. S. He has occupied important positions in the conference, among others at Chatham, N. B., Cornwall, E. I., Exmouth street, St. John, Fredericton, Marystown and Portland street, St. John. He has always filled a prominent position in church affairs, was president of the conference for one year and for several years was a member of the general conference.

For many years he has been, and was at his death, one of the regents of Mount Allison University and was for a term chairman of the board. He received his honorary degree of D. D. from Mount Allison in 1891, while with the Portland Church. On account of ill health he retired to a farm at Lakeside, remaining one year, when he took charge of Centenary Church, St. John.

His health again failing, he permanently retired from the active ministry at the same time becoming treasurer of the supernumerary fund which he held till death.

He was an active member in late years of the Church Union Committee and attended many of the sessions. He was also a member of the General Missionary Board of the Methodist Church.

Dr. Evans was most highly respected and beloved in every community where he has lived and labored. He was twice married, first to Miss Margaret Greig of Dartmouth, N. S., by whom he leaves one son and one daughter, Mr. Evans of Hampton and Mrs. Oscar Hanson of Lepreau. His second wife was Miss Martha Johnson, sister of the late Dr. Richard Johnson of Charlottetown, by whom he leaves the following children:

Hammond J. of St. John; Mrs. S. G. Ritchie, wife of Dr. Steven Ritchie of Halifax; Miss Margaret at home, and W. Benton, superintendent of the Rothwell Coal Co., Minot, and a number of grandchildren.

A private family service will be held at the house at 2 p. m., and public service in the church at 2:30 p. m., on Monday, February tenth. Interment will be made in Hampton Rural Cemetery.

Hammond J. of St. John; Mrs. S. G. Ritchie, wife of Dr. Steven Ritchie of Halifax; Miss Margaret at home, and W. Benton, superintendent of the Rothwell Coal Co., Minot, and a number of grandchildren.

HOW NORTH END MAN GOT HIS MONEY BACK

A few days ago while stepping out of one of the stores on Main street, a resident of the city dropped a five dollar bill which was carried away by the wind. He did not miss his money until he returned home. He immediately telephoned the merchant, informing him that the money had been lost. The merchant made a hasty search but was unsuccessful in finding the bill. The money, however, was later found and it is the peculiar manner in which it was recovered that is interesting.

The man who lost the five dollar bill was travelling in a car towards the North End about half an hour after he had dropped the money and while standing at Douglas Avenue corner waiting to transfer he was seized with a practical idea which resulted in the recovery of his five spot. He walked to the spot where the money had dropped from his hand and threw down his transfer. The wind carried the paper slip down the street towards Indiantown. The man followed the slip and found it lying near by where it was pressed between two blotters and made as good as ever.

Hammond J. of St. John; Mrs. S. G. Ritchie, wife of Dr. Steven Ritchie of Halifax; Miss Margaret at home, and W. Benton, superintendent of the Rothwell Coal Co., Minot, and a number of grandchildren.

A private family service will be held at the house at 2 p. m., and public service in the church at 2:30 p. m., on Monday, February tenth. Interment will be made in Hampton Rural Cemetery.
