ANOTHER COMPANY OBSTRUCTING WATERS OF ST. JOHN RIVER.

Attorney General Pugsley Tells Local Legislature of His Efforts to Stop Lumber Company from Building Piers at Van Buren, Maine—Much Information on Various Matters Given to Local House.

Fredericton, March 9.—The house met at 3 o'clock. Mr. Legere presented the reply of the lieutenant governor to the address of the legislature. The Hon. Mr. Tweedie laid on the table the school report and the auditor general's report for 1903. Hon. Mr. LaBelle presented a return of the assessed valuation and debt of the town of Newcastle. Hon. Mr. Pugsley introduced a bill respecting the consolidated statutes.

Restigouche and Western R. R. Guarantees. In reply to Mr. Hazen the Hon. Mr. Tweedie said: "The lieutenant governor in council has, since the last session of the legislature, pursuant to the act relating to the Restigouche and Western Railway guaranteed first mortgage debentures of the International Railway Company of New Brunswick, on the line from Campbellton to the river St. John to the number of 200 miles, amounting to \$100,000. The first section of ten miles is completed, which carries the road across the Upsalquitch river, where a steel bridge is being erected, a considerable amount of additional work has also been done beyond the Upsalquitch river. The lieutenant governor in council has sanctioned the plan of the Restigouche and Western Railway, the engineer of the company, and also the provincial engineer.

School for the Deaf and Dumb. Mr. Tweedie, in reply to Mr. Hazen, said: "No connection whatever exists between the government of the province and the school for the education of the deaf and dumb, established at Lancaster, in the county of St. John, by J. Harvey Brown. This institution is not under the control or subject to the regulations of the board of education. It is not in receipt of any grant from the provincial assistance by the government.

No Superintendent Appointed for the Asylum Yet. Hon. Mr. Tweedie, in answer to Mr. Hazen, said the government has no present intention of holding an investigation of the management of the Provincial Lunatic Asylum. No superintendent has been appointed since Dr. Hetherington's resignation. The acting superintendent is Dr. J. Boyle Taylor. The government is unable to say just at what time a superintendent will be appointed.

Harris Bridge Damage. In reply to Mr. Hazen the Hon. Mr. Pugsley said: "The claim of \$800 against the owners of the tug Sea King, for damages done to the Harris bridge across the Oromocto river, was placed in my hands by the chief commissioner of public works. I communicated with Hilgard Brothers under whose direction the span of the bridge was removed and asked them to pay the amount. So far they have not complied with my demand. It appears that the damage was done for the purpose of getting the dredge up the river. They take the ground that the river was a navigable river and that the bridge was an obstruction and that therefore they had a right to do as they did. I have been reluctant to begin a lawsuit against them until I have looked into the matter further and I have hopes that as the result of further negotiations with Hilgard Bros, a compromise may be effected.

Consolidation of the Statutes. The Hon. Mr. Pugsley, in reply to Mr. Hazen, said: "The payment account of the consolidation of the statutes have been as follows: In 1901... \$2,982.50 In 1902... 1,650.00 In 1903... 10,042.50 In 1904... 4,500.40 Total... \$23,175.40 To Whom Paid. Hon. A. S. White, commissioner... \$9,700.00 R. A. Lawler, commissioner... 1,500.00 P. J. Carvell, councilor... 1,000.00 W. H. Trueman, proof reader... 1,000.00 J. C. McLeod, do... 1,200.00 L. Mowatt, do... 35.00 J. & A. McMillan, stationery and... 275.00 Telegraph Publishing Company... 8,442.20 Freight on books from St. John... 8,442.20 Total... \$48,445.58 Grand total... \$23,175.42 It will be difficult to estimate the balance which will yet have to be paid on account of the statutes when completed.

are extending over to the New Brunswick side of the channel. Mr. Brown stated in answer to this that the maps on file in the public office of Augusta showed this is land to be on the American side of the channel. On enquiry at the crown land office I find by your own plan made in 1888 that all these islands are shown on the American side of the channel. If Dennis (Cyr) Island is American territory our course will be powerless to interfere. But there is no doubt that it is a flagrant violation of the Ashburton Treaty. The government has very fully considered the matter and will do everything possible to apply a remedy.

Bye-roads Money. Hon. Mr. LaBelle, in answer to Mr. Clarke, said Hon. Mr. H21 sent a list for bye-road expenditures for the following parishes in Charlotte county, dated June 11th: St. Stephen, Dufferin, St. James, St. David, Dunbarton, St. Patrick, towns of St. Stephen and Milltown, \$2,655. Bonds were then at once sent out and when returned all cheques were issued, principally in July. George M. Brown sent a list dated August 25th, for the parishes of St. Andrew, St. Croix, West Isles, Campbell, Grand Manan, \$1,447.89. Bonds were then at once sent out and when returned all cheques were issued in September.

Campobello Fish Fair Gait. Hon. Mr. Tweedie, in reply to Mr. Clarke, said that the grant to the Campobello Fish Fair had not been paid because no person had applied for it. There had been some verbal communications on the subject with Mr. H21 who had expressed a doubt as to whether the grant was doing much good. Hon. Mr. Tweedie presented the doing annual report of the Tracelac Hospital and Hotel Dieu St. Joseph.

To Legitize Certain Marriages. The bill to legalize certain marriages was considered in committee, Mr. Allen in the chair. Hon. Mr. Tweedie explained that the Rev. Mr. Erb's regularly ordained Baptist minister, while in charge of a congregation in this province, had before being required under the act and in ignorance of the requirement of the act had solemnized a marriage. There was another case of the same kind and he would move that the bill be amended so that a section might be added covering the other case. All the sections of the bill were passed and progress was reported with leave to sit again on Monday.

SECRET BALLOT LAW TO BE ENACTED THIS SESSION. (Continued from page 1.) should have his choice. My own experience in Restigouche has been that better results are to be had by day's work. Section thirty-seven requires the superintendents to keep the flooring of all covered bridges covered with snow. There has been much trouble over this matter, and it is one of great importance.

Statute Labor Abolished. Section thirty-nine is perhaps the most important in the bill. Statute labor is abolished and in its place a road tax is provided for. We think that the time has come to make a change, as the statute labor system, except in a few cases, has failed. Under the new system better results will be obtained and the roads will receive much greater attention for the same official work. Both the sums granted by the government and the amounts raised from the road tax.

ABOUT THAT COAT You wear a coat. Why? To keep the cold out? No! To keep the warmth in! What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs? For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more, that means bodily warmth.

What I Learned After 30 Years. No money is wanted. Simply select the book you need. It is my experience as a specialist for 30 years. In the book I tell how at least I found a way to reach difficult, neglected diseases. Thirty years of earnest arduous toil in hospitals and at bed sides made it possible for me to write these books. The book tells how I perfected my prescription, Dr. Shoop's Restorative. How impossible for scientific experiment I traced out the causes that bring on chronic diseases. I found invariably that where there was a weakness, the whole nerves were weak. Where there was a lack of vitality, the whole system lacked power. Where weak organs were found I always found weak nerves. The nerves commonly thought of, but the vital ones are nerves. The invisible nerves. Then I realized success lay in the combination of ingredients that would strengthen, that would invigorate, these nerves. That prescription I called a Restorative. It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one case in a hundred. After that I did not fail to cure one case in five years, one in each year. I found cases incurable. Cancer is for surgery, not medicine. Do not seek cures everywhere, my first thought. I must announce it in the public press. But, thought I, will they realize all that truth of my discovery, the real power of Dr. Shoop's Restorative? When a way came to me—like an inspiration, "I will offer it to the sick at trial. Then they will know I am sincere—that my prescription is unswerving." I wrote a reliable drugist in each city and village in America. They agreed to co-operate with me. Now by my sick one, Dr. Shoop's Restorative can be taken at my risk. For a month I will let you use it entirely at my risk. Send no money. Just write me for the book you need. When I send it I will tell you of the drugist near by who will permit the month's trial. Use the Restorative a month. Then decide. If you say to the drugist, "It did not help me," that will relieve you of any expense whatever. He will bill the coat to me. Thus my way of clearing your mind of all doubt as to what Dr. Shoop's Restorative can do. No matter how repulsive you cannot dispute this absolute security I offer. You cannot resist an offer like this if you are at all sick. If you have a weakness, write me. If you can't do things like you used to do, tell me about it. Write in confidence. As a physician I will tell you a way to help. Get my book now—today. Address Dr. Shoop, Box 11, Racine, Wis. Mild cases, not chronic, are often cured by one or two bottles. At drugists.

FREE TO EXAMINE, This High-Grade, Powerful No. 4 ELECTRIC BELT.

Use it for ten days, and if you are not fully satisfied that it is worth four times what you paid, return it to us and we will refund you \$5.00. We guarantee this belt to be as good as any other on the market, and in our very best belt. We have belts at low as 35 cents, but it is always best to buy a good article. Lowest prices quoted on other electrical goods. AGENTS WANTED. Send today your order will have prompt and careful attention. Address your letters plainly and clearly.

Great Reduction in Officials. Between superintendents, bye-road commissioners, special commissioner and parish highway commissioners we have now to deal with 1,780 officials who are spending the public money. If we can reduce this number to 107—that is to say 142 highway superintendents and fifteen bridge inspectors we will certainly have made a great gain.

No Trotting on Bridges. Another important matter to which I should refer is the habit of trotting on the bridges. It is difficult to overestimate the amount of injury that has been done to our bridges with long spans in consequence of this practice. I propose that the law be amended so that it be strictly enforced without fear or favor.

Winter Roads Left to Municipalities. Hon. Mr. LaBelle—Winter roads are provided for by section 49, the provision for them is about the same as at present and the matter is left to the municipalities. It would be impossible for the superintendent to do all this work which must be attended to immediately. As to the cost of the superintendents we think it will be less than under the old system, but more than under the new.

SECRET BALLOT LAW TO BE ENACTED THIS SESSION. (Continued from page 1.) should have his choice. My own experience in Restigouche has been that better results are to be had by day's work. Section thirty-seven requires the superintendents to keep the flooring of all covered bridges covered with snow. There has been much trouble over this matter, and it is one of great importance.
