Watchmaking in Switzerland. [From the Swiss Times of May 30th.]

We have already drawn attention to the annual meeting of the Society of Arts held on the 23rd current, under the presidentship of M. Th. de Saus-ure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Gene vese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs, J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department. [From the Swiss Times of May 30th.]

THE Northern Pacific Railroad ompany's First Mortgage Land Grant Sinking Fund 7-30 Gold Bonds.

JAY COOKE & CO., PHILADELPHIA, Fiscal Agents for the Company

THE Road, commencing at the head of Lake Superior, is to run to the Pacific ast, where it will have two termini,-one a Portland, Oregon, the other at Puget Sound, in e Lake to the Mississippi, is a Lumber and Mineral district, with abundant Water Power.
The next 350 miles, to the Missouri River ossing the Red River Valley and Eastern Dakota, is a well-watered Prairie country; for Dakota, is a well-watered Frairie country, as nearly the entire distance the soil is very superior, equal to the best in any land. (On this section track-laying is proceeding at the rate of three miles per day.) In October, the road will be opened for traffic to the Missouri River, where it will connect with steamers running 1,000 miles further west, to Fort Benton. As many as 33 steamers have been employed in a single season to accommodate the trade of these upper waters. Commencing about where the line crosses, Lignite coal has been traced, in

beds from 2 to 7 feet thick, for 600 miles up the Missouri. The mauvais terre or "bad lands," so-called, through which some of the exploraory lines were traced, are not found on the line finally adopted. Trains have been running regularly for six months to Red River; they there connect with steamers running north to Manitoba. A branch road, now building along Red River Valley, will also connect the trank line with Manitoba. 30,000 emigrants are said to have settled on the Company's land in this valley last season.

Exclusive of the 517 miles of trunk line nearly completed, 836 miles are being finally located and prepared for contract: this includes 226 miles extending from the Missouri along the

225 miles extending from the Missouri abuds valleys of the Heart River and Guldives Creek to the crossing of the Yellowstone, in Eastern Montana; much of this section is prairie, similar to that east of the Missouri; the remainder is adapted for grazing. Coal outerops over a large part of this district—a bed 14 feet thick, said to be of excellent quality, is exposed on the Little Missouri. The Yellowstone Valley is 400 miles long by 150 wide; the road will run nearly the whole length, and is now being located along it.

ing this valley as one of unsurpassed fertility; here, as well as east and west of this section, The Rocky Mountain section, about 300 miles Idaho, is a Mineral and Agricultural region; the numerous extensive valleys of this locality are exceedingly fertile, equaling any part of the

are exceedingly fertile, equaling any part of the Continent in the quantity and quality of their agricultural productions. In the yield of Gold Montana now is second only to California. Montana last year paid for freight about \$4,000,000 the Government transportation for the Forts of the Upper Missouri amounted to nearly as much—making a total of \$8,000,000.

the Upper Missouri amounted to nearly as much
—making a total of \$8.000,000.

Along eastern and central Washington section, say 200 miles, the land is Grazing, Agricultural and Mineral; here thousands of horses,
250 WASHSTANDS and TOILETS;
250 WASHST steamsnips and for other purposes.
Puget Sound, with its 1800 miles of coast line, and bold shores, has no equal as a harbor in the world, except in the British possession to its

The newspaper items about Indians, an The newspaper items about indicate, and damage from them to the road, are attributed by the Company to frontier speculators, who wish to see Government money spent in their vicinity and to their advantage. There is no pposition from the Indians on any part of the Comparison with other Roads.—The greates

elevation in crossing the Rocky Mountains on the Union and Central is 8235 feet, on the Northern (lat. 46) 4950. On the Dominion (lat. 52) 3760. From the Pacific to Lake Michigan by the Union and Central, is 2405 miles; by the Northern (latest official report) to Lake Superior 1720 and Montreal by proposed Eastern Exor 1720 and Montreal by Propose and Superior 1990 and to Montreal 2730. The mititude of the western terminus of the Northern and Dominion Roads give them to the ports in Asia an additional control of 800 vantage over the Union and Central of 800 I am authorized to sell North Pacific 7-30's at par and accrued interest in United States cur-rency; at which rate they will yield the Provinrency; at which rate they will yield the Provincial invester ever 8 per cent. The bonds and interest are both payable in Gold, and are free from United States tax. The Company's enor mous land grant of nearly 23,000 acres per mile of road, which with the track, &c., is bound by the loan, should render these bonds one of the safest of investments, sure to rise much above par in market, value on the completion of the safest of investments, sure to rise much above par in market value on the completion of the road, and the closing of the loan. The process of redeeming and cancelling the bonds has already begun, as these securities are now being received in payment for the Company's Lands Official returns show that 26 leading Land Grant Railways in the United States have sold their lands at an everage of \$7.04 per acre. Should the Northern Pacific Company realize the low estimate of only \$4\$ per acre, the pro-

Should the Northern Facine Company realize
the low estimate of only \$4 per acre, the proceds of their grant would more than twice pay
the cost of building and equipping their road.
