MONTREAL HOG MARKET

Montreal, Saturday, Sept. 9.—The market for live hogs this week was very active, with good demand from the packers and dealers, and the offerings were quickly cleaned up at an advance of 25c a cwt. on all grades. Dressed hogs were in good demand, with a good trade passing at the advance, fresh killed abattoir stock selling at \$19.50 to \$10.75.

EXPORT BUTTER AND CHEESE

Montreal, Saturday, Sept. 9.—There seems to be a limit to the price exporters are prepared to pay for cheese this season, and this week's trading has recorded another high level mark. The highest prices were for fair demand cow board in Canada. Throughout Ontario the price this week steadily advanced, opening at Peterboro at 15 1/2c and closing at Belleville on Saturday at 14c a lb. It remained, however, for a market in Quebec to obtain the highest price paid, for the entire offering of Lake St. John, over 1,000 boxes of white cheese were sold at 14 1/2c a lb., almost 14 1/2c.

The western prices are fair demand even at the advance asked, and there is no doubt that Great Britain is face to face with a famine in cheese this coming winter. The principal cause of the high prices ruling is, of course, the shortage in the English make, which is variously estimated at from 20 per cent to 30 per cent less than last year, and as the production there is stated to be more than sufficient to meet the home demand, one can get an idea of what such a shortage in the supply would mean. The make in Canada will fall far behind that of last year, unless special efforts are made to maintain the products, which is very likely in view of the comparatively high prices being paid, and we may look for a number of creameries to start making cheese wherever it is possible for them to do so.

The market for butter has been easy all through the week, but is closing with a decidedly firmer tone, and there is some more trade passing with some demand for export. Finest Eastern Townships creamery is quoted at 25 1/2c to 26c a lb.

CHEESE MARKETS

Woodstock, Sept. 6.—Offerings, 474 boxes: 300 sold at 13 1/2c, balance at 13 7/8c. Kingston, Sept. 7.—Offerings, 200 sold at 13 1/2c, the highest price ever paid in this city. 228 boxes of white and 98c colord sold.

Watertown, N. Y., Sept. 9.—Cheese sales, 7,200 at 12 1/2c to 13c.

Waterbury, N. Y., Sept. 9.—1,200 tubs of butter sold at 26 3/4c; 1,900 boxes of cheese at 13c.

GOSSIP

HOME BRED HORSES MAKE GOOD AT TORONTO. The Canadian-bred Clydesdales raised by Mr. J. F. Staples, Ida P.O., Durham Co., Ont., made a good showing at the recent Toronto Fair, and were the best of the Staples exhibited for the first time. On six entries they got six prizes. The entries were all home bred and Mr. Staples has bred first mothers and grandmothers on their dam's side.

Mr. Staples' winnings included first and second prize in both first bred and second bred Burnbrae Belle and Kitty Anderson; first for mare and two of her progeny, third for yearling entire colts, third for yearling filly and fourth for three-year-old filly.

THE BEST RECORD LEFT OUT

Editor, Farm and Dairy.—We noticed in Farm and Dairy August 17 an article by Mr. Geo. Lathwaite, Huron Co., in which he claims to give the 12 leading yearly records from the four districts. Why does Mr. Lathwaite omit from this list the greatest of all cows, Columbia 4th's Johanna, the Wisconsin Holstein cow that made in semi-official test 27,432 lbs. milk and 992 lbs. the butter fat in one year. She was under actual official supervision for 108 days during this time. Either Mr. Lathwaite was ignorant of this record or he did not want to see his record so far above his favorites, the Jerseys. We would like an explanation from Mr. Lathwaite for this oversight.—Edmund Liddell & Sons, Aylmer West, Ont.

WESTERN WHEAT OUTLOOK GLOOMY

Editor, Farm and Dairy.—Our report of the wheat outlook is rather gloomy. It has been raining almost every day since the last report, and at the same time, when it does not rain the dew is so heavy in the lodged grain that we cannot cut until now.

Sunday it began to rain at four in the afternoon and rained till Monday noon. Everything is afloat, even the furrows in the low places are filled with water, and it will be several days before binders will be running again, and if it should turn windy there is liable to be losses from shelling.

Some of the farmers are almost discouraged cutting, because their grain is nicely started.—L. J. N., Kelloe, Man.

MR. CARLYLE'S AYRSHIRE HERD

An exceptionally good record has been made recently in the Butter-Cup owned by Mr. W. J. Carlyle of Chesterville, who is rapidly coming to the front as breeder of good milk producing cows. During April produced 630 lbs. of milk in 9 days, or an average of 70 lbs. a day. Her best record was 76 lbs., which is possibly a new record for an Ayrshire cow. In 30 days she gave 1,894 lbs. of

ABSORBENT

Cures Strained, Pulpy, Aching, Sore, Swollen, Inflamed, and other ailments of the Udder. It is a sure cure for all these ailments, and is sold in all parts of the world. It is a sure cure for all these ailments, and is sold in all parts of the world. It is a sure cure for all these ailments, and is sold in all parts of the world.

milk testing 3.8. This is more milk than was given by the cow Snowflake owned by Mr. W. J. Carlyle, who is sold in an illustration of which was published in a recent issue of Farm and Dairy, but the butter fat tested was not so high. Mr. Carlyle's average daily production of milk during April was slightly over 63 lbs. of milk a day.

Although Mr. Carlyle has been breeding pure bred Ayrshires during only the last four years, he is rapidly accumulating an excellent herd, and now has several animals entered in the Record of Performance with a record of 9,025 lbs. of qualified 100 per cent butter fat. In purchasing four heifer calves from J. H. Whitaker of Williamsburg, three yearlings from Mrs. J. H. Turner of Ontario, and three from Alex. Clark of Bristol, Corners. One of the animals purchased from Mrs. Turner, a grand old Hilltop, four years old, has qualified in the Record of Performance with a test of 9,025 lbs. of milk in 327 days. Her average test was 3.29 per cent. Her butter fat content is 33.5 lbs. The cow Butter-Cup at first mentioned, is entered in the Record of Performance for the month of March and she gave 381 lbs. of milk her test starting until the 24th of the month. In April, 1,894 lbs., and during May, 1,771 lbs. Besides our yearling-old heifer, we have on April 21, and give 428 lbs. of milk during the balance of the month and 3,291 lbs. during May. As she was tested at a by-d season of the year, her test was only 3.6 per cent.

White Jact, a 5-year-old, started her test on the first of April and during the month gave 1,551 lbs. of milk. Lady Moe, four years old, was entered in the test early in February. Her test has averaged over 1,000 lbs. of milk a month since that date, with a test of 4.6 per cent. Mr. Carlyle has nearly all his animals when calves or yearlings, and the good work they are doing speaks well for the care he has given them.

An editor of Farm and Dairy who visited Mr. Carlyle's farm recently saw the record of performance of the matrons in his herd. The animals showed good constitutions, excellent udders and large teats. As he intends to keep the best, Mr. Carlyle recently purchased from W. V. Ballantyne of Stratford, the imported bull "Auchenbrae Albert," bred by Ball Wallace of Ayrshire, Scotland, possibly the most famous breeder of Ayrshires in Scotland. Mr. Ballantyne has been using this bull on his own noted herd. The bull is almost a model of Ayrshire type, and the good work he has done in the herd of Mr. Ballantyne is proof that Mr. Carlyle has made no mistake in his purchase.

Mr. Carlyle has a good stable in which he is able to keep his cows in comfort. At the time of our editor's visit he was making ready to ship his cream to Montreal. Mr. Carlyle is although he is the youngest breeder of Ayrshires in the county of Dundas, is the only Ayrshire breeder of good milk producing cows in the Record of Performance Test, and the first to have one pass that test. A good deal of milk is produced about this herd during the next few years.

DISPERSION SALE OF 800 GRADE HOLSTEINS 18 AT MARMORA FAIR, Sept. 19, 1911, at 1 p.m.

REGISTERED STOCK BULL

KORNDYKE KEVE'S LAD (No. 5493), sire half brother to May Echo, Champion Cow of Canada

Three month's credit will be given by furnishing approved bankable paper bearing interest at 6 per cent. Lack of help, reason for selling.

J. J. McCALLAN, Prop., MARMORA, ONT.
