\*\*A copy of the clause referred to is appended to this letter. The effect of that clause would have been to secure to western Ontario the sidvantages it is justly entitled to by its geographical position in the trade with the Northwest.

The board deny that the clause would have created a monopoly, but they assert emphatically that any arrangement that does not secure the absolute neutrality of the common junction point at Lake Nipissing will establish a monopoly in the line running east, and must be imimical to the interests of this province, because:

1. So long as the Canadian Pacific is allowed to have any motive or interest direct or indirect in the diversion of traffs. from railways which may run south from the junction point, that company will by means of its longer route control the traffic and will conduct it as to best serve its own interests.

HIGHLY RECOMMENDED

I have made a very careful analysis of CLEVELAND'S SUPERIOR BAKING POWDER bought from grocers in this city, and have found it to be perfectly pure, and manufactured from the best quality of Cream of Tartar and other materials. It is entirely free from Alum, Acid Phosphates, Terra Alba and other substances, which are frequently used for the manufacture and adulteration of Baking Powders; and on account of its purity and healthful constituents deserves to be highly recommended.
