Dear Mr. Meighen

A food organization is being set up in "Boyer" and everything is being keyed up for a fight that will cause your "friends the Enemy" some little anxiety.

The plan is to conduct you personally through all 13 parishes by motor car - and in each - receptions and afternoon teas will be arranged in advance - where all - especially the women - will be invited to meet - shake hands - and converse with you at ease. Nothing is being overlooked and nothing is being spared to make this a real fight; and I trust a successful one.

I Enclose an interesting letter
