

In the same way, make tables for 3 times, 4 times, and so on up to 12 times.

All the tables will be found in the following:

1	2	3	4	5	6	7	8	9	10	11	12
2	4	6	8	10	12	14	16	18	20	22	24
3	6	9	12	15	18	21	24	27	30	33	36
4	8	12	16	20	24	28	32	36	40	44	48
5	10	15	20	25	30	35	40	45	50	55	60
6	12	18	24	30	36	42	48	54	60	66	72
7	14	21	28	35	42	49	56	63	70	77	84
8	16	24	32	40	48	56	64	72	80	88	96
9	18	27	36	45	54	63	72	81	90	99	108
10	20	30	40	50	60	70	80	90	100	110	120
11	22	33	44	55	66	77	88	99	110	121	132
12	24	36	48	60	72	84	96	108	120	132	144

These tables should be so thoroughly committed to memory that answers will be given *without hesitation* to any of these four types of exercises:

(a) $5 \times 9 = ?$

(b) $? \times 9 = 45$

(c) $5 \times ? = 45$

(d) $? \times ? = 45$
