

any volume of grain, and for this capital, receive a good cash dividend. You are asked to invest in your own Company money that perhaps you are investing in other ways to no greater profit and probably no direct benefit to your own farm business.

Under the Charter, every farmer and member of his family is allowed to hold 40 shares each. This provides an investment of some size where the farmer can place his surplus earnings, knowing that his money will be safe—that it will earn him a good rate of dividend, that his stock will increase in value and that the Company which he is helping to build up will enable him to secure a better price for his grain and to purchase many of the necessities of life at a much lower cost. There is no longer any excuse for any farmer leaving his money lying in the bank at 3 per cent. interest when he can invest in THE GRAIN GROWERS' GRAIN COMPANY STOCK and earn three or four times as much. It is well to remember that your Company has to borrow your money back from the bank at 6 to 8 per cent. to finance the marketing of your grain. Why not invest
