CANADIAN DRAWING COURSE.

A Practical Public School Course of Drawing, Complete in Five Numbers.

Book No. 1.—Elementary Freehand Drawing contains exercises in the drawing of straight lines, combinations of lines in rectilinear figures, circles and simple ornaments. The exercises give skill in the use of the pencil, in the judgment of distances and proportion, as well as a knowledge of simple forms and of the terms which describe them.

Book No. 2 continues exercises in Elementary Freehand, and gives examples of simple ornaments. Its special subject, however, is the introduction of drawing from the round model.

Book No. 3 continues previous subjects

upon a larger scale, and takes up **Constructive Drawing and Working Plans.**

Book No. 4 has a new and special subject, the cultivation of rapid and accurate perception by the drawing from memory of objects which, having been observed, are removed from view.

Book No. 5 introduces Elementary Freehand Perspective in the drawing of models and familiar objects.

Progressive studies of ornament are continued throughout the course, the examples being derived chiefly from natural forms or from the antique.
