COURSES OF STUDY.

Special attention is called to the following remarks :—

1. The College is designed to be a Christian school of learning. Its aim is to surround the student with Christian influences ; to guide him sympathetically in his pursuit of knowledge, and to teach him the Christian way of seeing things ; to keep before him Christian ideals, and by word and life commend the knowledge of God and Christlike character as the highest possible attainment.

2. The work of the College is arranged with reference to the studies of the full courses ; yet provision may be made to accommodate those who may wish to study for a shorter period in any department, if they are prepared to work with the regular classes.

3. In general, each student is assigned four subjects a day, requiring four hours' preparation and four hours in the class-room. The subjects
