HILTON'S NEW
Patent Washing Machine.

WHAT IS CLAIMED FOR IT:
1st.—It is the best ever offered to the public for
the following reasons, viz: It will do its work
quicker, easier, and better than any other machine,
cleaning effectually and perfectly, no hand rub-
bing being necessary, and without the slightest in-
jury to any article submitted to its operation, nei-
ther breaking nor misplacing buttons or other fast-
enings.
2nd.—Its range or scope of action is greater, act-
ing singly upon a lace or linen collar, and accom-
modates itself to the heaviest article of bedding
without change or adjustment of the machine.
3rd.—It is durable, not likely to get out of order,
and when so, easily repaired, being constructed in
such a manner that any of its parts can be supplied
by the manufacturer without the presence of the
machine, and adjusted to its place by any person,
which is evident at first sight of the machine.
In witness of the above read the following:
We, the undersigned, having used Mr. Hilton's Pa-
tent Washing Machine one year, can fully endorse
the above claims.—Wm. Rapley, S. A. Eakins,
Jos. Benjamin, W. W. Hall, Jas. Manson, Isaac
Mooroc, G. Street, and others. Strathroy, Ont.,
February, 1872.

DAYS
SULKEY HORSE RAKE.

THE ABOVE RAKE IS
offered in entire confi-
dence to farmers and dealers.
In the Department of Agricul-
tural Implements it is INFER-
IOR TO NONE as a labor-
saving implement. It is con-
structed with ease by a lad 12 or
14 years old. Its advantage
over all other rakes consists in
this:—

The head is so attached that it permits the teeth to accommodate themselves to uneven
ground, the wheels running upon an elevation will not raise the teeth from the ground. By the
raising attachment the operator can throw the teeth of the rake higher in passing over stones and
other obstacles. The teeth are so shaped and attached that they do not scratch or harrow the
ground like most steel teeth rakes.

This Rake is the result of steady and repeated experiments. They are manufactured from
good material and are well finished, being nicely painted, striped and varnished.

PRICE OF RAKE \$25.00
with Plaster and Seed Sower, 60.00

All orders addressed to the manufacturer, A. HOWELL, Brantford or W. WELD
London, will be promptly attended to. Descriptive Catalogues sent free on application. 4-41
