

"BAKER" Wind Engines

The "BAKER" Wind Engine is built for heavy duty. Neat and compact in design. Do perfect work because they are built on principles that are absolutely correct, and the easiest-running mill made.

The wheel is built on a hub revolved on a long stationary steel spindle. As a result there is less friction.

It has a large number of small sails without rivets. The small sails develop the full power of the wind.

The engine is so constructed that the gears cannot wear out of mesh.

Has ball-bearing turntable, and self-regulating device.

All working parts are covered with a cast shield, thus protecting same from ice and sleet.

We make a full line of steel tanks, galvanized steel tanks, pumps, etc.

All goods fully guaranteed. Write for catalogue No. 58.

THE HELLER-ALLER CO.
Windsor, Ontario.

R&O ONTARIO NAV CO. 1000 ISLANDS

Handles Twelve Tons of Silage an Hour

Cuts corn any length, from 3/8 of an inch to an inch-and-a-half, and elevates it forty feet at the rate of twelve tons an hour. Yet the Thom's Ensilage Cutter uses no more power than the ordinary cutter of far less capacity. You want this machine for filling your silo. Its price is moderate.

There's strength and satisfaction built into every detail of

Thom's Ensilage Cutter and Silo Filler

Picture shows Model 13B, for general farm use—8 to 12 tons an hour. Style 16A handles 25 tons an hour—great for threshermen!

Equipped with Knives that STAY Sharp

Specially-tempered knives made for us in Sheffield, England, by Spear & Jackson—knives that hold a keen edge longer than you would think possible. Model, pictured here, uses only 4 to 8 horse-power to cut and elevate 400 pounds a minute. And it is mighty hard to get it out of order—it's built to stand the racket.

Does Its Work with Least Fuss

Every part that must endure strain is built with surplus strength—bottom drum, for instance, of ten gauge steel. Keep the Thom's going at top speed with no fear of a smash. Year after year satisfaction in this machine. Why not ask us NOW for particulars, proofs and price?

INVENTIONS

Thoroughly protected in all countries. EGERTON R. CASE, Registered U. S. Patent Attorney, DEPT. E, TEMPLE BUILDING, TORONTO. Booklet on Patents and Drawing Sheet on request.

THE QUEER MAN.

Of all forms of temper, there is none more tiresome to deal with than that which is known as "queer." Down comes a bolt from the blue in the midst of apparent sunshine, and a sudden gloom and moroseness hide our friend completely from view. An injured attitude is assumed, a martyr's halo carefully pinned on, and happy, everyday life becomes an impossibility. People who want to be loved, or even liked, should never be difficult. Society has not time, even if it had the inclination, to study their idiosyncrasies and play up to all their petty prejudices. The passionate, and even the sulky temper, is forgiven sooner than the dillicult one, and is perhaps more possible to cure—Edith H. Fowler, in London Mail.
