Shorthorns—Nine bulls and a number of heifers for sale at very reasonable prices.

Robert Nichol & Sons, Hagersville Ont

Dugan, the roofer, was sent to a millionaire's palatial home, to try to find a leak in the roof.

As he entered the front hall, the butler whispered to Dugan:

"You are requested to be careful of the hardwood floors as you go upstairs, they've just been polished."

"Sure, there's no danger as me slipping on them," Dugan replied. "O! hov spikes in me shoes."

WAS TROUBLED WITH HIS HEART

HAD TO GIVE UP WORK

Mr. Alfred Male, Elroida, Ont., writes: "I was troubled with my heart for two or three years. I thought sometimes that I would die. I went to the doctor, and he said he could not do anything for me. I had to give up work. My wife persuaded me to try Milburn's Heart and Nerve Pills. The first box relieved me, so I kept on until I had taken seven boxes, and they cured me. I would not be without them on any account, as they are worth their weight in gold. I advise my friends and neighbors who are troubled with heart or nerve trouble to try them."

To any of those suffering from heart or nerve trouble we can recommend our Milburn's Heart and Nerve Pills with the greatest confidence.

Price 50 cents per box, or 3 boxes for \$1.25. If your dealer does not have them in stock, send direct to The T. Milburn Co., Limited, Toronto, Ont.

QUESTIONS AND ANSWERS. Miscellaneous.

CUTTING HIGHWAY WEEDS.

Can a pathmaster or township council compel a man to cut burdocks and other weeds along the roadside in front of his farm on road allowance?

W. R.

Ans.—The law in most municipalities makes cutting highway weeds compulsory. In some municipalities the cutting of these is allowed to go as statute labor. Make inquiry as to what the by-laws are in your municipality governing this.

CHICKWEEDS.

What are the inclosed weeds?

J. H.

Ans.—Both the plants you send belong to the chickweed family. The one marked No. 2 is Spurrey. It is characterized by the numerous thread-like leaves growing in whorls at the joints. Its seed is a common impurity in grass seed. Cultivating the stubble starts the Spurrey seed in the fall; the young plants are killed by the winter. The other plant is a chickweed, but without root or developed seed it cannot be determined. Probably the same remedial treatment applies to it as to Spurrey.

J. D.

LIGHTNING RODS.

There is an agent for lightning rods in this neighborhood who puts up grounding wires of copper, on steel roofs, by soldering the wire on the four corners of the roof of building and running the same in the ground to damp earth. There is another agent who claims you are obliged to put rods on the steel roof to be safe. Please tell us, in "The Farmer's Advocate," which is right, if either, and if a steel roof is any safer from lightning than a wooden roof?

J. A. M.

Ans.—If good connection is made between the wire and metal roofing, and also good ground connection secured, reasonably good protection should be afforded when wires are dropped from the four corners of the barn. The wire should be loosely stapled to the weather boards, and the rod run deep in the soil. Of course, the rods properly placed on a wooden roof are a good protection. Without being properly grounded, neither roof is protected.

GOSSIP.

Shipments of Clydesdales from Glasgow for Canada the last week in July were 31 head, consigned to T. H. Hasard, Markham, Ont.; Ben. Finlayson, Claresholm, Alta.; and Bilton Derbyshire, Leamington, Ont.

Alex. Hume & Co., Menie, Ont., the widely-known importers and breeders of Ayrshire cattle, write: We will be pleased to meet all our old friends and customers, and others, at the leading fall fairs. The July, 1911, bulls we are offering are from some of our very best females, with good records, and their daughters. All are bred from our imported Auchenbrain-bred bull, champion at London, 1911. Some of the dams are imported cows. Having had a large percentage of bull calves this year, this is a favorable opportunity for purchasers. These calves are fit to head either pure-bred or extra good dairy herds. We are offering them at bargain prices. Now is the time to buy.

CANADIAN HOLSTEIN OFFICIAL TESTS FOR JULY.

Thirty-three official tests are reported for July. In the mature class the outstanding figure is the great cow, May Echo, who, after winning highest honors in the Record of Performance yearly test, now goes into the list of thirty-pound cows, with 31.34 lbs. butter. By a curious coincidence, her daughter, Lawncrest May Echo, heads the junior two-year-olds with 15.32 lbs. In the senior four-year-old class, Cornelia Boutstje De Kol stands first with 23.06 lbs., and the junior three-year-old class, Lyndia Inka Veeman leads with the fine record of 24.58. Roxie Concordia is the best of the senior two-year-olds, with the good record of 17.85 lbs.—G. W. Clemons, Secretary.

Ideal Green Feed Silos

Make Money for their Owners

The most prosperous and experienced dairymen all over the Dominion agree that a good silo is a necessary part of the Dairy equipment of any cow owner who wants to realize a reasonable profit from his herd.

A little investigation must convince you that it will pay you to erect a silo.

The next question is "What silo?"

You cannot afford to experiment.

You want a silo that by many years of use has proved its worth.

The IDEAL GREEN FEED SILO has been longest on the market. Thousands of prominent and successful owners are thankful for the day they erected an IDEAL GREEN FEED SILO on their farms.

Be sure and get our new Silo Book.
