In the Life Department they issued the first year, end ing is October, 1349, 951 Policies—a number which very few Companies of long standing ever reached in the same time. The benefit of the mutual system in Life Assurance is very apparent, and is most favourable to all Policy holders in this Society, inasmuch as they receive a portion of each year's profits yearly, being deducted from the Premiums then payable, which are lower than any of the English-Companies and not subject to stamp duty—all the particulars of which are fully set forth in the Pramphlets which the Agent has for distribution, who furnishes all Blanks and every necessary information, together with the Medical Examiner's Certificate gratis.

MOTT'S BROMA. The following observations having a seference to the preparation of Broma, appeared in a latenumber of the Boston Medical Journal:—

"A few years since a great manufacturer of Broma cought the opinions of many medical gentiemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully succeeded. Hospitals, fairmaries, and households generally. caould always be provided with it. When gruel, arrow-root, groats, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility, things ordinarily resorted to the specific of the specific and the specifi who use it as a beverage will have manifest diatetic advantage over the goasumers of tea and coffee. We see it elated that during the last summer those individuals who were continually using Chocolate or Broma neither had attacks of cholera or dysenteric affections, while others of the same families, taking their daily potations in tea, soffee, or simple cold water, were the sufferers, if any.—We cannot vouch for the truth of this, but it has recalled to mind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been further observed that persons who were taking cod liver oil for chronic difficulties, during the grevalence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these statements, to have secured those who took them from the shafts of the pestilence. It is certainly a point well worth will to determine, whether the chocolate drinkers have been secure in other infected ciries."

Moti's Broma has now been before the public for a considerable peried, and along with the commendations

onsiderable period, and along with the commendations of the Medical Falculty of this and the neigbouring Frovinces, it has received the apprehation of all classes of consumers.—It is held to be an article of standard reputa-Won, and the demand for it is constantly increasing.

YOU MAY BE CURED YET! HOLLOWAY'S OINTMENT.

CURE OF RHEUMATISM AND RHEUMATIC GOET. Extract of a Letter from Mr. Thomas Brunton, Landlord of the Waterloo Tavern, Coatham, Yorkshire, late of the Life Guards, dated September 28th, 1848.

of the Waterloo Tavern, Coatham, Yorkshire, late of the Life Guards, dated September 28th, 1848.

The Professor Molloway,
Sin,—For a long time I was a martyry to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines, I was so bad as not to be able to welk. I had tried dectoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in. I thought I would give them a trial. I did so. I rubbed the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pills night and morning. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven months, without any sympioms of the return of my old complaint.

Besides my case of Rheumanic Gout, I have lately had proof that your Pills and Ointment will heal any old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pills and Ointment, which soundly healed it will ear nothing else would do it. For your information I i ed the honour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen ye, is a corporal. I was two years in the Peninsular War, an I was at the Buttle of Waterloo. I was discharged with a pension on the 2nd September, 1833. The Commanding Officer at that time, was Colonel Lygon, who is now a General. I belonged to the troop of Captain the Honourable Henry Bards, Biacksmith, cure of a Letter from Mr. Andrew Brack, Biacksmith,

CURE OF A BAD LEG OF TWENTY-ONE YEARS' STANDING Extract of a Letter from Mr. Andrew Brack, Bincksmith, Evemouth, near Berwick, dated the 10th of August, 1848.

Zo Professor Holloway. To Professor Holloway.

Six,—With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the pain and agony I often endured no one can tail. My leg is now as sound as ever it was in my life by means of your Pills and Ointment, which I purchased from Mr. I. Davidson, Druggist, Ber wick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful cure.

AMPUTATION OF TWO TOES PREVENTED.

Extract of a Letter from Mr Oliver Smith Jenkins, dated Falkirk, August 12th, 1848.

To Professor Holloway,
Sir,—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fail of a large stone my right foot was serlously bruised, which ultimately get so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable olinthent and Fills, which I did, and was by their means in three weeks embled to resume my usual occupation, and at this time my toes are perfectly cured. 1.6. 11 TO INTENDING EMIGRANTS FROM NOVA SCOTIAL THE CANDA COMPANY would submit to the various consideration of parties who may contemplate leasing Nova Scotla whether the Western Section of Canada (formerly the Province of Upper Canada,) does not offer every indicement for them to settle there, rather that that they should proceed to the United States. In Upper Canada they will find a most healthy climate, the boil very fertile, and abundance of excellent Land to be obtained upon easy terms from the Government and Cenada Company. The great success which has attended Settlers in Upper Canada is shoundantly evidenced by the prosperious condition of the Farmers throughout the Country, and is also shown by the success of many Natives of New Brunswick and Nova Scotla who have settled in many Townships of the Country;—and the individual progress made by several thousands of people who have taken Lands from the Company, corroborates the success which has attended settlement in Upper Canada. The Canada Company's Lands are offered by way of Lease for Ten Years; or for Sale Cash down. The plan of 1-5th Cash and Bulance in Instalments, being done away with.

The Rents, payable 1st February each Year, are about the Interest, at six per Cent., upon the Cash Price of the Land. Upon most of the Lots, when Leased, no Money is required down; whilst upon the others, according to locality, One, Two, or Tares Years' Rent must be paid in advance, but these payments will fres the Settler from further Calls, until the Second, Third or Fourth year of his Term of Lease.

The Lessee has thus guaranteed to him the entire benefit of further Rents, before the expiration of the Term, upon paying the purchase Money specified in the Lease.

The Lessee has thus guaranteed to him the entire benefit of his Deprovements and increased calue of the Land he occupies, should he wish to purchase. But he may, if he pleases, refuse to call for the Freehold; the option being compiletely with the Settler.

A Discount, after the rate of Two per Cent., will be all TO INTENDING EMIGRANTS FROM NOVA SCO.
