the spot; but the fire was put out soon after the her rigging. October 28, 1861. My LORD,-Before leaving for England to iremen got to work. discharge the duties assigned to me in reference

During the rather severe North-Easter on Sunday night last the abutment of the public wharf being built at this place, was carried from its moorings by the force of the heavy sea, and to the Inter-colonial Railroad, I proceed, in obed-ence to your Excellency's commands, to con-

Four new fields have been discovered, and are Digby Acadian.

Captain escaped. The gale was terrific on the American coast.

Four new fields have been discovered, and are being occupied with great rapidity. Two have been visited by your Lordship, and at all of them it has been found necessary to station officers and lay off claims. These fields are at Wine Harbour, Isaac's Harbour, St. Mary's River, and at Laidlaw's Farm on the eastern side of Lake Thomas. Three of them are on or near to navi-gable harbors or indents of the sea coast, and the other is within a few hundred yards of the Shuhe sacadie Canal, and within three miles of

the other is within a few hundred yards of the Shubehacadie Canal, and within three miles of Railroad. All are, therefore, easily accessible, and whatever they produce can be cheaply trans-ported, supplies coming in by water or by rail at sea coast prices, or thereabouts. This proxi-mity to the sea, and to navigable Rivers, Canals, or Railroads, gives to the miner in Nova Scotia much he can live quite as well, and perhaps save much he can live quite as well, and perhaps save

much he can live quite as well, and perhaps save more than those can who labor in less accesible, on account of the death of one of its earliest

even though they may be richer localities. The number of claims applied for at Wine Harbour is thirty, number of people employed is about two hundred. At Issac's Harbour twenty-three applications At Issac's Harbour twenty-three applications

have been made for claims, and there are about seventy persons employed. Both these fields are on the south side of the REV. THOMAS JARDINE .- We learn with re- dear to me.

G. GARIBALDI (Signed) Province, where the metamorphic rocks exist, gret that the Rev. Thomas Jardine is to leave To Mr. Quigley, U. S The geological structure of the country is simi- this city and return to Scotland, by the Steamer ar to that near Lunenburg. Quartz veins run which is to call hero on Thursday night Dur Consul at Antwerp. in from the sea through the upland, with a gene-ing the five years of his labours here he proved dips and angles. The gold is found in these NEW YORK, Nov. 6, 1861.-Despatches from from Washington state that General Wool has dips and angles. The gold is found in these quartz veins, or in the overlapping soil. At Laidlaw's Farm, and I believe at St. Mary's the saddle back formation prevails, the gold-bearing quartz being found in successive layers. of barrel-shaped rocks, covering large areas. At the former place sixteen claims have been taken, and about fifty persons are employed. At the latter the numbers do not perhaps exceed fifty —but about thirty-six claims have been applied for. friend; and we can hardly recall an occasion on removed from his command, and Gen. Hunter The plans, reports and accounts which accomwhich he was not to be found at his post. In assigned to the Western Department-the late The plans, reports and accounts which accom-pany this letter, will show your Excellency at a glance what is doing at all the Mines. At Tan-gier, recently visited by His Royal Highness Prince Alfred, accompanied by your Excellency; by Admiral Mine, and by the Governor of New Brunswick the progress has been steady through-out the summer. Though some have left Tangier as runnours of more promising fields reached that locality, or as the exigencies of the harvest called as rumours of more promising neids reached that locality, or as the exigencies of the harvest called for labour upon the homesteads, hundreds of persons have wrought there all summer. And although the owners of the smaller claims will soon be compelled to suspend operations by bad weather, there is every reason to believe that, on the approach of spring, there will be great rush of population to Tangier. The gold from this Mining District maintains some superiority over that taken at Lunenburg, and brings readily in the market five shillings sterling an ounce more. At Lunenburg the progress made has been marked and gratifying. All the seashore claims for miles around the Ovens have been taken up
