Let Us Give You the Songs of these WORLD FAMOUS SINGERS

We have just arranged for a Special Edition of two handsome volumes containing 26 of the World's Most Famous Songs, introduced and sung by the World Famous Singers, whose portraits appear on this page.

We want to give you these 26 songs absolutely free and postpaid, if you will send us just one NEW subscriber. This will take only a minute or so of your time, and if you play or sing, you will get many hours of enjoyment from this lovely collection of music. If you are not interested in music they will make a delightful present for a music-loving friend.

Description of the Two Big Music Volumes

These volumes contain 26 of the Best Known and Most Popular Vocal Selections from the leading Standard Operas, and all of them are arranged in the medium grade and for medium voice. This means that in these volumes you have the music arranged in simpler form; not the difficult arrangement in six flats or five sharps, but rather the kind of music that the average player can execute, yet without retaining the melody and fullness of tone of the original.

Vocal or Instrumental for Piano or Organ

A very important feature of this collection is that all the pieces are so arranged that they may be used either as vocal or instrumental solos, and for either piano or organ. In each case the piano part is written out completely, thus making a most excellent solo number—the words being written above the piano solo part.

These volumes will be warmly welcomed by every lover of music, as the collection is unsurpassed, and cannot be obtained in any other form of quality of paper, and with handsomely illustrated cover in colors.
