The Apple Orchard Opportunity of a Lifetime

Cleared, Irrigated and Planted Fruit Land in British Columbia

□ □ □ **\$150.00** per acre □ □ □

TERMS: one-third down, one-third Nov. 1st, 1911, and one-third Nov. 1st, 1912. No Interest. No less than ten acres sold to any one person. These Orchards are in the Whatshan Valley and within two or three miles of the Lower Arrow Lake. The land is level, and the whole Valley is peculiarly adapted to apple raising. Transportation facilities are of the best. After you secure the deed to your property we will care for it until you move on to it. We are offering only a few of these farms in order to open the Valley, as a few settlers going in there will greatly increase the value of our remaining property. That is why we are offering you something heretofore unheard of in connection with fruit lands in British Columbia. We would advise you to write immediately for further information. Your name and address on a postcard is all we need. Even if you had never before thought of seeking a new home in the mild climate of British Columbia you might at least ask us for information, for **Write Today!** we think we can interest you.
