CANTON HOUSE,

Corner, which makes the politician wise,
And see thro' all things with his half shut eyes.

THE VALUABLE PROPERTIES OF COFFEE.—*Lord Bacon* says, "It comforteth the brain, and helpeth the digestion." Many other writers, both French and English, describe its valuable properties. They say it relieves headache; and Doctor *Tissten*, in his Lectures on Botany, says, "Those persons who regularly drink Coffee, can never be subject to putrid fever; in fact, a cup of GOOD COFFEE exhilirates the mental and bodily faculties, and nothing can be more refreshing to the man who studies, or the laborious mechanic."

Admitting that the important qualities described in the above quotations are contained in *Good Coffee*, it is then of paramount importance to the public of Canada to know where they can obtain the article in the most pure and best prepared state, and as there can be no doubt that to procure the ESSENCE of COFFEE in the highest state of perfection, the Berry must be carefully roasted and ground. SAMUEL COCHRAN begs to direct the attention of the Public to the process adopted by him in the Roasting and Grinding of Coffee.

COCHRAN ROASTS his Coffee by STEAM, by which is acquired a desideratum which before was much needed by the COFFEE DRINKER. No taint from smoke; a perfect evenness of roast; a peculiar cleanliness in the operation; and, what constitutes the complete success of the process, the entire preservation of the AROMA, in which the strength, fragrance, and flavour of the Berry are concentrated. Prices: 1s., 1s. 2d., and 1s. 3d. per lb.

Also; TEAS *in every variety in quality* and *prices*, a few of which are subjoined, which must meet the views of the most economical housekeeper:

To enumerate nearly fifty varieties would be needless, or to insist upon the superiority of these Teven-six Teas in this market, would be only to repeat a fact long since universally admitted: the Importer will, therefore, rest satisfied with the proved eminence to which public opinion has raised him, and trusts his high position thus honorably attained will be considered the best guarantee for the continued superiority of those articles.

MOFFAT'S
Life Pills and Phœnix Bitters.

These Medicines have now been before the public for a period of FIFTEEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had entirely failed; and to many thousands they have permanently restored that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and publicly proved, that it has appeared to many persons, that there is almost as much connected with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enabling them with renewed tone and vigor, that they were indebted for their name.

Unlike the tens of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenic, nor any other Mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities generally settling upon them; and to remove the hardened faeces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhœa with its imminent danger. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the looming check.

Such is a brief outline of the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, *Loss of Appetite, Heartburn, Headache, Restlessness, Ill-temper, Anxiety, Languor,* and *Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cessation.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

Diarrhœa and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all botherical clusters in others.

The LIFE MEDICINES have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

The Worms, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

Scurvy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only impracticable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility, Loss of Appetite, and Diseases of Females—these medicines have been used with the most beneficial results in cases of this description—KING'S EVIL, and SCROFULA, in its worst forms, yields to the mild yet powerful action of

Still the Purest in the Best Medical School!!

That preëminence which exposes the human frame to the infection and virulence of all diseases, proceeds directly or indirectly from a disorder of the System caused by Impure Blood, Bilious and Morbid condition of the Stomach and Bowels.

DR. HALSEY'S GUM-COATED FOREST PILLS,

(A Sarsaparilla preparation of unexampled efficacy.)

These Pills are prepared from the best Sarsaparilla, Combined with other Vegetable properties of the highest Medicinal virtue. They are warranted not to contain any Mercury or Mineral whatever. They purge without griping, nauseating, or weakening; can be taken at any time without exposure to cold or other danger, and are free from the disgust of taking calomel. They neither have the taste or smell of medicine, and are five times more effectual in the cure of diseases than any Pills in use.

But a short time has elapsed since these Great and good Pills were first made known to the Public, yet thousands have already experienced their good effects. Invalids, given over by their Physicians as incurable, have found relief, and been restored to sound and vigorous health from their use.

TO FATHERS OF FAMILIES.

Pills and foul state of the stomach occasions more sickness and deaths in families than all other causes of disease put together. Sometimes whole families are taken down by malignant Fevers, Fever and Ague, and other dangerous disorders, all proceeding from a bilious and foul state of the stomach. No parent can be so ignorant as not to know the great danger existing from biliousness—no parent would be guilty of causing the

DEATH OF THEIR OWN CHILDREN!!!

Yet thousands of children and adults die every year through neglect of parents to attend to the early symptoms of bile and foul stomach.

Superfluity of bile may always be known by some unfavorable symptom which it produces, such as sickness of the stomach, headache, loss of appetite, bitter taste in the mouth, yellow tint of the skin, languidness, costiveness, or other symptoms of a similar nature. Almost *every person* have at times bilious, the neglect of which is sure to bring on some dangerous disorder, frequently terminating in death. A single 25 cent box of Dr. Halsey's Gum-coated Forest Pills, are sufficient to keep a whole family from bilious attacks and sickness from six months to a year. A single dose, from 1 to 3 of these mild and excellent Pills for a child; from 3 to 4 for an adult, and from 5 to 6 for a grown person, carry off all bilious and morbid matter, and restore the stomach and bowels, curing and preventing all manner of bilious attacks, and many other disorders.

SALTS AND CASTOR OIL.

No reliance can be placed on Salts or Castor Oil. These, as well as all common purgatives, pass off without touching the bile, leaving the bowels costive, and the stomach in as bad condition as before. Dr. Halsey's Forest Pills are prepared expressly to act directly on these vitiated humors, and entirely remove them from the system. In order to avoid all imposition, and to obtain Dr. Halsey's true and genuine Pills, see that the label of each box bears the signature of G. W. HALSEY.

READER!!! If you wish to be cure of a Medicine which is certain to cure the worst Bilious Colic, Sick or Nervous Headache, purchase Halsey's Gum-Coated Forest Pills, and avoid all others.

If you desire a mild and gentle purgative, which neither nauseates or gives rise to griping, seek for Halsey's Pills.

If you would have the most concentrated, as well as the best compound SARSAPARILLA EXTRACT in the world for purifying the blood, obtain Dr. Halsey's Pills.

If you do not wish to fall a victim to dangerous illness, send for one or two of Dr. Halsey's Pills of 50 or 50 dollars, take a dose of Dr. Halsey's Pills as soon as unfavorable symptoms are experienced.

If you would have a Medicine which does not leave the bowels costive, but gives strength to the whole system, procure Dr. Halsey's Pills, and avoid Sulphate of Magnesia, Oil, and all common purgatives.

Farmer, if you wish your families to continue in good health, keep a box of Halsey's Pills in your house.

Ladies, Dr. Halsey's Pills are mild and perfectly harmless, and well adapted to the peculiar delicacy of your constitution. Parents then, and

Travellers and Mariners, before undertaking long voyages, provide yourselves with Dr Halsey's Pills, as a safeguard against sickness.

ANALYSIS OF THE ST. LEON WATER.

I HAVE omitted to analyse the Water from the Well of St. Leon, and find it to be strongly saline. It contains chlorine of sodium in large quantity, with magnesia and lime, partly as carbonates, combined by the carbonic acid, and partly as sulphates. Like most of the other saline waters of this country, it contains traces of iron and iodine; in addition to which, I have detected, in small quantities, salts of strontia and baryta. I should not have met with only in the Waters of Vernet, &c. In its general characters, it is allied to the Sources of Caston, Pasteurgeest, and the Intermount of Calcaire.

The contents of one pound of 7000 grains, as calculated from my analysis, are as follows:—

Carb. of Sodium,	20.477250	grains.
Chloride of Potassium,	1.228400	do
Chloride of Barium,	.012000	do
Chloride of Strontium,	.017700	do

The following opinion of the beneficial effects of the Plantagenet Water, is from the last number of the *British American Medical and Physical Journal*, edited by Dr. Hall. The Doctor recommends the employment of this water to the special attention of the Profession, both in Canada and the United States. Nothing further is required to ensure their general use by all classes of our citizens:—

Remedial agents, or matters professing to be such, and depending for their employment upon the extensive and constant circulation of laudatory advertisements, and the amount of money consequently paid by their proprietors for them, have at no time, since we undertook the management of a Journal intended solely for the advancement of medical science, found favor in our eyes. *Nor shall they.* We have always adhered to the old maxim, "Ne sutor ultra crepidam." We have always thought, and now daily more confirmed in the truthfulness and correctness of our opinion, that all the world was never intended to practice the medical art, inasmuch as all men—aye, and all women too—are unable to make themselves masters of the profession; and it must be admitted, without a cavil, that without a foundation there can be no superstructure. Not that we would dare to question the qualifications of the learned, perhaps, even scientific practitioners of the Healing Art—far from it; but seeing that different gifts have been assigned to different individuals, from the foundation of our world, and that one class is constantly dependent upon another for its comfort and support—the rich and poor, the educated and illiterate, the professor of science and the simple mechanic—so we hold, and daily urge all public should be directed, under God, in the maintenance and preservation of health, by men who have given, and continue to give, the best energies of their mind to this particular study. It is rather impression of ours, though a good one, that every individual of the community should be a doctor, and therefore we have no wish to add to the number. But we now hesitate not to recommend the Medicine for which publishing the annexed testimonial of its merits, which we have received from one of the most talented members of the profession both in Canada and the United States, Mr. Hunt's analysis, as to its constituents, furnishes us once the key of its applicability and usefulness. We are in possession of certificates of cures by the hundred can be shown at 97, John Street, where the proprietor has made arrangements for supplying, during the forthcoming season, the Plantagenet Water throughout our own Province and the United States, by the establishment of necessary depots and the appointment of proper agents.

These waters are to be had only from the Agent, A. MANN, at the Depot 4, *Place d'Armes*, also from Dr. Picault; Mr. Mercier, Quebec Hotel; Mr. Berieu, St. Paul Street; and at the principal Hotels in the City.

INVALUABLE COMPOSITION FOR THE HAIR.

From the "Olive Branch," of March 7, 1846.

HYPERION FLUID.—Mr. William Bogle, 228 Washington street, is the inventor of this valuable vegetable composition, which is pronounced by many who have used it, one of the greatest curadjetors of the diseases of the hair ever introduced to the world. We have been cognizent of its beneficial effects in some instances, and our own cranium is now submitted to its influence. In addition to its cleansing properties, it gives a beautiful and glossy appearance to the hair, and contributes an agreeable moisture, quite unlike that produced by the oils in general use, it being wholly free from such properties. We can therefore speak of this article sincerely, and shall say yet more after further trial.

HAY'S LINIMENT FOR THE PILES.

The worst attack of the Piles are effectually and permanently cured in a short time by the use of the genuine Hay's Liniment. It heals all sore Piles, however great the extent of the disease may be. Thousands throughout the country have used this Liniment with complete success. It is warranted to cure the most aggravated cases.

☞ CAUTION.—Never buy it unless you find the name of Comstock & Co. upon the wrapper. Proprietors of the genuine article, or you are cheated with a counterfeit.

NOTICE TO THE PUBLIC.

In 1845, Dr. Halsey's Pills were first made known to the public, under the denomination of "Halsey's Sugar Coated Pills." Their excellent qualities soon gained for them a high reputation, and the annual sale of many thousand boxes. This great success excited the avarice of designing men, who commenced the manufacture of counterfeits, which they named with Halsey's, in order to sell them under the good will Dr. Halsey's Pills had gained by curing thousands of disease.

The public are now most respectfully notified that Dr. Halsey's genuine Pills will henceforth be coated with

GUM ARABIC,

An article which, in every respect, supercedes Sugar both on account of its heating virtues, and its durability. The discovery of this improvement is therefore of great importance to the afflicted during these years. For the invention of which, Dr. Halsey has been awarded the only patent ever granted on Pills by the Government of the United States of America.

The Gum-Coated Forest Pills present a beautiful, transparent, glossy appearance. They are free from the unpleasant sensation of pure Gum Arabic with which they are coated, renders them still better than Dr. Halsey's Sugar-Coated Pills. The Gum-Coated Pills are never liable to injury from dampness, but remain the same, retaining all their virtues to an indefinite period of time, they are perfectly free from the disagreeable taste of two ingredients of Medicine. In order to avoid all imposition, and to obtain Dr. Halsey's true and genuine Pills, see that the label of each box bears the signature of G. W. HALSEY.

INVALUABLE COMPOSITION FOR THE HAIR.

From the "Olive Branch," of March 7, 1846.

HYPERION FLUID.—Mr. William Bogle, 228 Washington street, is the inventor of this valuable vegetable composition, which is pronounced by many who have used it, one of the greatest curadjetors of the diseases of the hair ever introduced to the world. We have been cognizent of its beneficial effects in some instances, and our own cranium is now submitted to its influence. In addition to its cleansing properties, it gives a beautiful and glossy appearance to the hair, and contributes an agreeable moisture, quite unlike that produced by the oils in general use, it being wholly free from such properties. We can therefore speak of this article sincerely, and shall say yet more after further trial.
