The report was adopted. In regard to the first clause re the execution to be issued against Stephens in the suit of Stephens vs. Chat-ham, Ald. McKeough asked if the

plaintiffs had any property.

Ald. McCoig replied that he didn't know. The reason he had recom-mended it was because he didn't think any member of the committee should say whether the plaintiff had chattels or finances or not. It was also thought that if the legal proceedings were completed that the tendency would be to deter people from entering similar actions. It would show that the city went in for keeps and would try to get the costs back.

The Mayor—I think the Finance committee is right. It is the sheriff's duty to find out if the people are

able to pay and the city can be sure about it when he returns the writ narked no good. BOARD OF WORKS. Ald. McKeough, chairman of the Board of Works, reported as follows: That 're the communication of W. F. Martin that land be purchased for

The report was adopted.

Ald. McKeough asked the reason Jordan had been refused the hydrant. Ald. Taylor said that St. Joseph's Hospital now had sufficient fire protection and the expense of another ydrant was more than the city could stand, seeing that other places needed Ald. McKeough-The plea of Jor-

Ald. Mounteer presented a petition for the sprinkling of Park street from Scane to Duke streets. The petition

was referred to the Clerk to see if it was sufficiently signed, Ald. Mounteer called the attention of the Property committee to the the corner of Park and Scane streets.

GOING TO CHURCH. Ald. McCoig moved that the invi-tation of the Rev. T. Beverley Smith for the Council to attend divine wor ship at Holy Trinity church on the

evening of coronation day be accepted. The motion carried unanimously.

The Council decided to take the initiative on a number of walks. Ald. McKeough said that the city solicitor had been consulted in re-ference to the Seymour contract for granolithic walks last year. The walks on the west side Sixth street walks on the west side Sixth street and on Grey street from Queen to West street were defective. The sureties had been notified and given ten days to come and attend to the work. The Board of Works desired with the consent of the Council to

under the supervision of the city en-gineer and charge the work up to the ureties. There were certain sun not yet paid to Seymour which could be used for this purpose. The Board of Works were granted power to pro-

In response to a query as to what had been done about the broken flag stones of the Chatham Loan & Savings Co., Ald. McKeough said that the Board of Works had overlooked this but would attend to it.

The Board of Works were asked if

they were going to scrape the streets Ald. McKeough said that it had been raining twice a week and it would be a useless expenditure scraping the roads before the rains ceased.

CORONATION DDAY. The Mayor said that Coronation Day would be held on June 26, and in nearly every city there would be a demonstration. The coronation was an event that only happened twice in a century, and was one of the great est epochs in the history of the world. He suggested that as the city council were going to attend divine service that it would be well to have fireworks or something to entertain the people afterwards in the park.

Ald McKeough said he usually fell in with the successions of the Mayle in with the suggestions of the Maple City's sagacious mayor, but he didn't feel that he could support the spend ing of \$300 in fireworks. Owing to the small-pox, the treasury was heav-

You can depend on the undertogs we sell. They're almost as carefully chosen as if they were watch springs. It's a strong testimonial for an undergarment when

it gets into our show cases. Makers know this even better than customers do. We go to the mills with a clear cut notion of what we want, and never hesitate to reject an article that falls short of our standard. If all fell short we should just study out how to make the wanted thing ourselves. Thats how this business grows. But these are all good enough.
