on the atmosphere that we breathe and for our bodily well-being.

Don't sleep in the same flaunels that you wear during the day.

Don't wear thin socks or light-soled shoes in cold or wet weather.

Don't catch cold. Catching cold is much more preventable than is generally supposed. A person in good physical condition is not liable to colds, and will not tall victim to them uniese he is greatly carelees. Keep the feet warm and dry, the head cool, the bowels and chest well protected; avoid exposure with an emply stomach; take care not to cool off too raphly when heated keep out of draughts; wear flaunels; and with the exercise of a little common sense in various emergencies, colds will be rare. If colds were a penal offense, we should soon find a way to prevent them.

Don't have much confidence in the turnalive nature of drugs. Remember that Dr- Good Habits, Dr. Diet, and Dr. Exercise are the best doctors in the world.

told me a most interesting story of her visit to the King of Siam and I am aure her story will be interesting to every one.

A Eoasted Advantage Proves to be a Source of Weakiness and Worthlessness.

Makers of crade and imitation dyes must of necessity claim some advantage for their common productions in order to attract consumers. Amongst the deceptive and sweeping claims put before the public by a certain maker of dye, one in particular must attract the attention of even those who are novices in the ar of home dyeing; we refer to the statement, "Will not soil the hands."

This claim is a direct acknowledgement of weakness and worthlessness as far as coloring power is soncerned. Any wise woman will readily see that a dye that will not stain the hands is of little use in the work of dyeing. Such dyes may give to light and flimsy fabrics a show of into or color, but it soon vanishes from the materials when they see the light of heaven.

The Diamond Dyes, no matter how much water is added, have coloring power to stain the hands. A bath prepared from one ten cert package for dyeing six pounds of goods a light color will give as durable a shade as if the bah had been prepared for dyeing two pounds of goods a light color will give as durable a shade as if the bah had been prepared for dyeing two pounds of goods a light color will give as durable a shade as if the bah had been prepared for dyeing two pounds of goods a light color will give as durable a shade as if the bah had been prepared for dyeing two pounds of goods a light color will give as durable a shade as if the bah had been prepared for dyeing its pounds of goods a light color will give as durable a shade as if the bah had been prepared for dyeing its pounds of goods a light color will give as durable a shade as if the bath had been prepared for dyeing two pounds of goods a light color will give as durable a shade as if the bath had been in Siam for some time, but had her to story will be early and ordering Mr Bradering Mr Bradering Mr Bradering Mr Braderi
