

Butter Wrappers Must be Printed

Extracts From Dairy Circular
Issued by Department of
Agriculture

The following information is given for the benefit of the farmers of Northumberland county who have in the past been selling their butter done up in plain butter parchment paper.

According to a circular issued from the Department of Agriculture, Ottawa, "The Branding of Dairy Butter," it is illegal to sell dairy butter unless wrapped in a printed wrapper, with the words "Dairy Butter" printed in letters one-quarter of an inch square. A new subsection of "The Dairy Industry Act, 1914," dealing with the weight of butter as put up in prints or blocks, reads as follows:

"No person shall sell, offer, or have in his possession for sale, any butter moulded or cut into prints, blocks, squares or pats, unless such prints, blocks, squares or pats are of the full net weight of one-quarter pound, one pound or two pounds at the time they are moulded or cut. Nothing in this paragraph shall be held to apply to butter in rolls or lumps of indiscriminate weight as sold by farmers."

The Regulations made under the authority of the Act came into force on September 1st, and provide that when dairy butter is put up in blocks, squares or prints and wrapped in parchment paper the paper shall be printed or branded with the words "DAIRY BUTTER" IN LETTERS AT LEAST ONE-QUARTER INCH SQUARE, in addition to any other wording that the buttermaker may desire to use. There is nothing in the Act or Regulations to prevent the use of the word "Separator" in addition to the words "Dairy Butter," but no such grade of butter as "Separator" is recognized by the law. The Butter Act of 1903 defines only two grades, namely, "Dairy" and "Creamery." The Dairy Industry Act of 1914 defines a third grade as "Whey" butter. Buttermakers may use any form of printing or branding, including the words "Dairy Butter," which is not inconsistent with the definition of dairy butter. Butter in rolls, crocks or tubs is not required to be branded.

The definition of dairy butter is found in section 3 of the Act and is the same as it was in The Butter Act of 1903. It reads as follows:

(d) "dairy" means a place where the milk or cream of less than fifty cows is manufactured into butter;

(e) "dairy butter" means butter which is manufactured in a dairy.

The exact wording of the sections of the Regulations that deal with this matter of the branding of dairy butter reads as follows:—

"No person shall cut or pack dairy butter into blocks, squares or prints and wrap such blocks, squares or prints in parchment paper unless the said parchment paper is printed or branded with the words "dairy butter."

"No person shall knowingly sell, offer, expose or have in his possession for sale:—

(e) Any dairy butter packed in boxes similar to those used for the packing of creamery butter unless such packages are branded "Dairy butter;"

(f) Any dairy butter packed, moulded or cut into blocks, squares or prints and wrapped in parchment paper unless such parchment paper is branded "Dairy butter."

The underlying principle of the law is protection to the consumer, the honest manufacturer and the honest trader. The whole object of the law is to prevent misrepresentation. No reasonable practice is interfered with.

The Advocate Job Department has just received a supply of first quality parchment paper, and is prepared to fill all orders for printing. Having had a long experience in butter parchment printing, all work will be guaranteed against the ink running into the butter. Prices on application.

Christiana, June 12—Norway has lost 29 vessels of all classes, through mine or torpedo explosions, since the war started, the war insurance bureau announced today. The aggregate value of the ships was \$7,500,000.

19 Year Old Girl Arrested as Spy

Woman Captured Who Has
Been Sending Much Valuable
Information to Germany

Toronto, June 12—Nineteen year old Louisa Marks Feldt, as she calls herself, who appeared in the Woman's Court yesterday on a vagrancy charge, turns out to be one of the cleverest German spies on the continent. Her arrest was accomplished two weeks ago Wednesday night by Detective Maurer, just as she was about to board a train at the union station.

Two months ago the British Government advised the Canadian military authorities that valuable information concerning Canadian troop transports was leaking to the German Government, and requested immediate investigation. Since that time the Dominion secret service police, military authorities and detective staffs of every city in Canada have been especially on the lookout for members of the German spy organization.

Louisa Marks Feldt is not her right name. When questioned in the detective offices two weeks ago she frankly admitted this and smilingly defied them to find out who she really is.

She boasted of having assisted dozens of Germans to get over to the States, and from there return to the German army. She speaks English as well as she does German. Two years ago she came to the United States and spent a year in touring that country. Her time there was spent exclusively in seeking military information and she claims to have deciphered sketches of American naval fortifications.

"My government anticipates everything and leaves nothing to chance," she said. "Germany knows more of the secrets of rival nations than those nations can ever hope to know of Germany. It would startle America to know just how much information my country has concerning their supposedly secret affairs."

Offhand the girl named almost every point in Ontario where shells were being made, and displayed amazing technical knowledge regarding war equipment.

It has not been decided whether she will be tried as a spy or simply interned.

GALLANT BELGIAN TROOPS DRIVE THE GERMANS BACK

London, June 14—"The German line near Westende, in the region northeast of Nieuport, Manneken-viere and Schoore (all in Belgium) has been driven back by strong Belgian attacks in the past few days," says the Amsterdam correspondent of the Morning Post.

"Important German troop movements have been noted along the Dutch border."

GERMANS ARREST MANY ACCUSED OF BEING SPIES

Amsterdam, June 14—A despatch received here from Berlin says: "Since the beginning of the war enemies of Germany have employed a number of spies for collecting information. The German authorities recently discovered a conspiracy which has its headquarters at Maestricht."

"Seventeen spies were arrested in Belgium, and it was proved that they had communicated information regarding the movement of troops on the Belgian railway. A court martial condemned to death eleven of the accused, and six were sentenced to a total of seventy-seven years penal servitude."

"On June 7 eight of the accused were executed. The three others asked for a pardon and a decision in their case is pending."

Germans Lose Heavily In Past Six Weeks

The Latest Russian Victories Have Been Achieved
Solely With Bullet and Bayonet

Petrograd, June 12—The Russian infantry with surprising ease, has inflicted a succession of great defeats on the Germans in East Galicia.

The main attack of the enemy was conducted at Moszicka, with heavy guns on the railways, but it was spent before the Germans reached the barbed wire entanglements in front of the main position. They have retreated in the utmost disorder, leaving thousands of dead.

Simultaneously, the Russians started an enveloping movement against General Von Linsingen's army, which had crossed the Dniester. The Russian infantry, with magnificent dash, attacked the Germans, who had a number of three inch guns, and drove them from the woods. They annihilated a division, the fighting lasting two days.

The Germans are now entirely southward of the Dniester. Evidently they intended to develop in enormous force there. They were head-

ed by the Prussian Guards and advanced rapidly toward Halicz, from where they proposed to conduct the main attack on Lemberg. All their movements, however, were easily frustrated.

The Germans are now gathering south of the Dniester, apparently awaiting reinforcements. They have lost in the last six weeks more lives in Galicia than in the previous six months against the Russians everywhere. The Russians are in close contact with the enemy. There are signs that the Germans are developing great activity north of the Dniester, in Poland, toward the Nemen, with heavy artillery, and a chemical laboratory, in hope of drawing the main Russian strength there.

The latest Russian successes have been achieved solely with bullet and bayonet, scarcely a shell having been fired in the last fortnight. Their strategy is regarded as a triumphant vindication of Gen. Ivanoff.

London, June 12—Word was received here today that Lieut. Robley, of the British Navy, nephew of A. Bonar Law, Minister of Colonies, has been killed at Dardanelles.

KING CONSTANTINE GENERALLY WEAK

WAKE UP! NEW BRUNSWICK!

The World War Demands the Supreme
Effort of a United Empire

Shall Our Province Fall Behind?

It should not be supposed that contributions of a couple of thousand men, a few odd dollars, some barrels of potatoes and boxes of socks constitute our rightful sacrifice. So far not more than a handful of people in all this country have any actual realization of what the war means. These few have given their husbands or their sons to the cause of Empire. The remainder have done nothing in comparison with their abilities and their opportunities.

Our national life, our peace, our prosperity and our happiness are so dependent upon the well-being of the British Empire that only by playing our part in that Empire can we maintain our fortunate position.

Up to the present ninety-nine per cent. of us do not realize what sacrifice means, nor what is being endured by those nearer to the firing line than we are. We must give, not only of our material wealth, but of our blood, and not niggardly, but with a generous hand.

None of us wish to part with our husbands and our children, but it is better that they should serve the Empire and save our homes than that our enemies should triumph and all that we hold dear be taken from us.

"For Romans in Rome's quarrel

Spared neither land nor gold,

Nor son nor wife, nor limb nor life,

In the brave days of old."

The 55th Regiment still requires five hundred men from New Brunswick. These men must be furnished at once, and must be recruited from New Brunswick homes. We cannot ask strangers to take our places. The duty before us is clear, however hard the part may seem. Some will lose their lives; others will be maimed; many will return.

MEN OF NEW BRUNSWICK—Once upon a time there was a man who said that he would rather be a live coward than a dead hero.
