work that he desired to speak at the

No People to Occupy Land. Conservatives endeavored to secure the same ends, but were not successful. The difference between the parties was that one met with failure, the other met with success in endeavoring to accomplish the same end. Canada, in the last ten years has doubled her revenue and has doubled her wealth. This of itself is sufficient recomment.

attacked upon the very point of imendments were introduced. Then the migration, now that success in bring-opposition came again. On the one men concerned in these transactions, attacked upon the very point of immigration, now that success in bringing settlers to the country has been achieved. I will not dwell on the criticism that the government has been unwise in the selection of the people that have been brought into the country. The policy of the govthe country. The policy of the government is to get people, and to get the best, and if they are not the best when they get here, to govern the country so they may be as good as the best as soon as possible. (Cheers.) The government does not pick on one set of men and say, you shall not come. Instead, when a man has good hands and a stout heart he is well-comed. The principle of Liberalism is equal rights to all men and equal consideration to the feelings of every-consideration to the despite for the conservatives two years before going out of power had refused find told his hearers he intended taking the first opportunity to submit to the fermer got consideration to the fermer got consideration to provision was unitable for the fermer got consideration to provision was unitable for time from the fermer got consideration to t one, the effort in every case being were coming to him, not because he in power. to improve the conditions and bring was a farmer but because he was a all to the highest possible standard citizen of the Dominion. (Applause.)

The Transportation Question. "Intimately connected with the servative party. To hear the stories told many of the old friends here ton of transportation. No country must have thought that I have betion of transportation. No country can progress as it should without railways. In the past, from time to time, I have talked of railways in Should change his residence only, is traited by the constant of the past, from time to time, I have talked of railways in Should change his residence only, is traited by the past, from time to time, I have talked of railways in Should change his residence only, is traited by the past, from time to time, I have talked of railways in Should change his residence only, is traited by the past, from time to time to the past, from time to time to the past, from time to time to time to the past, from time to time to the past, from time to time to time to the past, from time to time to time to the past, from time to time to time to the past, from time to tim time, I have talked of railways in Fort Saskatchewan, but this is the first time I have been able to show the railway. The railway is the application of Liberal principles and Liberal practice. In 1883 the Canadian Pacific railway came to Caladian Pacific railway came to Caladian Pacific railway wasched for the Electors, circulated by the disclaration of the public canadian pacific railway came to Caladian Pacific railway wasched to the railway wasched to the public deal in timber tenders. It was a deal in timber tenders. gary, in 1891 the railway reached Strathcona and from that time to 1905 there, were no more railways Why were there main being looted to make the favornot more railways built? It was not ed few rich. The statement is that because there was not money to build them, it was not because there by stealing the land. Who has stolen was not plenty of country for land the land and where is it now?" grants to railways, but it was because Mr. Oliver effectively answered the Conservatives stood for railway these criticisms and pointed out that by the Conservatives that Liberals monopoly and for only one railway the Conservatives while in power had got timber berths by some inside in the country. in the country. The Conservatives gave away thirty-two million acres of tip which enabled them to overbid said there was not business for one land. Of this amount broadly speak- their competitors. One of these exrailway, the Liberals replied that the land. Of this amount broadly speak-railway, the Liberals replied that the land that the land that the land by their sweat the country will be developed. This question was argued out election after election on the public platform. Who was right and who was wrong? (Applause) The state of the country that the people of the three provinces have had to pay for the land by their sweat that the people of the trailway companies, who got it for nothing from the conservatives. plause.) The state of the country at "What have the Liberals in the present time is the answer. The last twelve years given to railways?", nadian Northern this year is doing Mr. Oliver asked. "Not one acre! In-Canadian Northern this year is doing Mr. Oliver asked. more business than ever before and every man has a better opportunity to make money than ever before It. to make money than ever before. It was this railway policy of the Liberal government that put this country on the front street instead of the their favored railway friends. back alley as in the past. (Applause.)

be running their trains across the prairie. Now there is no more railway monopoly and there will be none as long as the Liberals are in power. In the railways, but this was not an years would convince anyone that taken up and the remainder was canthere had not been the least evidence of favoritism. This record of clean way monopoly and there will be none as long as the Liberals are in power. In the company of the convention of the electorate in the coming electors and the convention of the convention of the electorate in the coming electors. (Cheers.) Ask the Conservatives what opportunity for the Conservatives if tion. And when it came to a choice is their policy? They still stand for monopoly as they have done in the ernment do. They made provision in decision between a policy of progress
