Dear Sir,—
I wish to state that I am well satisfied with the results which your Company have given me in connection with my Endowment Policy No. 47,775, which matures on the 17th of March. I find that the returns give me over \$424.00 more than I have paid in premiums, in addition to the protection that I have had during the Policy term. I consider this all the more satisfactory taking into account the fact that the dividends were applied as a Bonus every five years. I, therefore, received a return beyond Bank interest, in addition to the protection.

Yours very truly,
JOSEPH STEWART.

SYDNEY, To-day.
Mrs. Atkinson, whose preliminary hearing on the charge of being an accessory after the fact in the murder of Benjamin S. Atkinson, was concluded on Saturday afternoon, and was committed to stand her trial before the Supreme Court on that charge.

OTTAWA, To-day.
It is understood the Government will, in the near future, consider the formation of a naval reserve in Canada; representations have been received by the Government from various parts of Canada, asking for the organization of such a reserve, and a memorandum dealing with the subject will come before the Government for consideration probably before the summer vacation.

HALIFAX, To-day.
Although the survivors were too weak from their sufferings to tell the story completely, the revenue cutter's officers gathered that some of the fifteen men who had hastily piled into the third boat from the Columbian, decided to lighten the boat by casting the bodies overboard at once.

Some who had tumbled from their bunks at the first explosion and had rushed on deck half clothed, succumbed to the cold. Others were weakened by starvation and thirst, and gradually sank into lethargy that was scarcely to be distinguished from death. Somehow the survivors managed to keep the boat's head on to the sea when the weather became rough, but for the past few days little or no effort could be made to guide their craft. Day by day the number dwindled until four, who were left sank limply to the bottom of the boat and awaited the end, when the lookout of the Seneca, searching the horizon for bergs or ice, sighted the small boat through his glasses. Not a sign of life was seen. The Seneca put on all speed running down to the lifeboat, the emaciated survivors were quickly transferred to the deck of the cutter and brandy forced between parched lips. As all the men were in apparent need of hospital attention, the Seneca was pushed under forced draught to Halifax, the nearest port.

Maurice Costello and Pearl White.

AT THE CRESCENT.
'Tis seldom that one sees such a collection of pictures as will be presented at the Crescent Picture Palace to-day and to-morrow, and never do we see such a number of famous artists in any one performance.

In a strong vitagraph story the celebrated actor Maurice Costello is seen in one of his best parts that of "The Old Kent Road," and also the names famous in filmdom Van Dyke Brook, Clara Kimbrell, Young and Kate Rice are the chief performers presented in this grand subject. Pearl White is at home to her many admirers in the comedy "Wellers Great Scheme."

"The Turkish Rug" is another good comedy whilst the big feature is "The Struggle," a great two reel Bison "Idleness with evil went Hand in Hand."

At Sidney Earnshaw, Lyric Baritone is in a class by himself as an entertainer and none should fail to hear him in his new ballad, "When Old Folks were Young Folks."

The above programme together with the selections by the orchestra is indeed a remarkably good one and one that is sure to delight large audiences. Afternoon 5 cents. Evenings 10 cents.

St. John's, May 14, '14.

Hon. John R. Bennett,
Col. Secy, and Premier (Act'g).

Dear Sir,—In handing you the enclosed telegram for your perusal, I do so with a great deal of pleasure. That pleasure I feel sure will be shared by yourself as well as the other gentlemen who are in charge of the Sealing Disasters Fund.

The time required for the receipt of correct information of the disasters will show you how far away from us is our most important fish market. Whilst the prompt message of sympathy and its accompanying spontaneous generous donation will show you how close to us are the hearts of our Brazilian friends in their sympathetic desire of alleviating to some extent at least the loss and sufferings of the relatives of the victims of these disasters.

This act of my principals is but another evidence of the continued liberality and kindness with which they treat all who may come in contact with them either in the way of business or as visitors to them in their home in the land of the Sunny South.

I am, yours very truly,

On Saturday morning Mr. David Dempsey had the misfortune to lose a roll of notes containing \$5.00. He promptly decided that to make his loss known and thus reach the finder of the money it would be necessary to use the columns of *The Evening Telegram*. This he did with the result that Master Aulay Hatton, of Kennedy's Drug Store, promptly returned the missing roll to this office. Master Hatton refused to take any reward for his honesty but Mr. Dempsey will reward him in some other way.

Canadian Lightship Short of Coal.

The lightship "Halifax 19," recently launched at Paisley, Scotland, arrived here from Queenstown at 2 p.m. yesterday after a run of 20 days. The ship was jammed in the ice off this coast for the last eight days, and running short of coal, was forced to put in here to replenish her bunkers. She was built for the Nova Scotia Government and will be stationed off Sambro Head as a guide to shipping in that neighbourhood, in which it will be remembered the S. S. City of Sydney met her fate.

She is the first ship of this type to enter this port, and yesterday several hundreds of citizens visited her. She is specially constructed for riding the waves, and is much wider at the water line than on deck, having also an unusually high bow.

After obtaining a supply of coals from the Bonaventure, she will proceed to Halifax.

Tea and Coffee Find Their Place

The Literary Digest, of March 28, 1914, says:

"Cocain and its allied intoxicants appear to be about the cheapest things in the market. They are seemingly cheaper than whiskey, cheaper than beer, cheaper in proportion to effects than tea or coffee."

The best teaching of today is distinctly against the use of tea, coffee and other drugs, and drug-bearing beverages—especially among the young. It is well established that headache, nervousness, indigestion, sleeplessness, and other aches and pains are commonly caused by tea and coffee drinking.

People are becoming alive to this fact and thousands have quit both tea and coffee and now use
